B.I.P.O.D.

In isolated cases the Major Oil Coy's are releasing employees who hither-to were in reserved occupations. Practically all of these personnel are part time members of B.I.P.O.D. and their release for full time would seriously affect this Unit if not reallotted to B.I.P.O.D. Area Officers will note these cases, and where such trainees are made available, they will be drafted to G.D.D. on a special Mob.3 requesting allotment after recruit training to B.I.P.O.D. for full time duty. An extra copy of Mob.3 will be made and forwarded to H.Q. B.I.P.O.D., Gipps St., RICHMOND, on day of draft to G.D.D.

B.I.P.O.D. : P.T.D. PERSONNEL : A.I.F.

Applications have been received from personnel enlisted in this Unit on a part time duty basis for permission to join the A.I.F. Being Members of a Protected Industry, their release for full-time duty services is subject to the authority of D.D.G. Manpower.

It has been ascertained that provided the necessary authority from Manpower can be obtained the personnel concerned could enlist for services Overseas after being transferred back to Area. It is no doubt desirable that every opportunity should be given men to join the A.I.F., but having regard to the difficulty of obtaining suitable personnel for this Unit a direction as to what action should be taken is requested please.

It is of course understood that personnel who qualify under the conditions laid down in L.H.Q. No. 59138 of 9th June, 1942, will be permitted to transfer to A.I.F., but under these circumstances the personnel would remain with B.I.P.O.D., until called upon to serve with the A.I.F.

VEHICLES - ACCIDENTS TO.

All M.T. personnel are instructed that inall cases involving traffic accidents, particularly where private vehicles or citizens are involved comphrehensive reports on A.A. Form G 13 (Accident Report) are completed without delay and signed by the M.T. Driver implicated.

Action is to be taken to provide each driver proceedin on driving duty with a A.A. Form G 13, and that the driver is instructed regarding the completion of this form.

Attention is directed to para. 43 of Standing Orders for the Operation and maintenance of Mechanical vehicles. Driver will study these instructions carefully, particularly the section of para. 43 which requires drivers to ascertain the names and addresses of driver and owner of any other vehicle concerned, also of any witnesses to the accident. The names and addresses of independent witnesses, where possible will also be obtained.
Failure of M.T. drivers to obtain this important information has often deprived the Department of its legal right to recover damages sustained to its property, by negligent private drivers.

PROTECTED ANIMALS, BIRDS AND PLANTS.

Attention is drawn to the fact that in some instances protected animals, birds and plants are being destroyed by troops.

Except in an emergency, all ranks will observe the laws of the States and Territories of the Commonwealth relating to the protection of animals, birds and plants.

CONSERVATION OF RUBBER:

The position as regards the supply of rubber is serious, and the replacing of tyres is becoming increasingly difficult. By the observance of the following instructions, a considerable saving in rubber can be effected:

a. Officers must at all times maintain the strictest supervision in the use of M.T.
b. Elimination of non-essential use of M.T.; and H.T. is to be used whenever possible.
c. Except in exceptional circumstances, D.S. cars must not be driven to exceed 30 m.p.h.
d. Correct inflation of tyres.
e. Wherever possible, sudden application of brakes is to be avoided, a gradual reduction in speed when approaching road intersections would do much to obviate this fault.
f. Vehicles must not be overloaded.
g. Avoid cornering too fast.
h. Check steering gear regularly.
i. Oil is extremely damaging to rubber. Great care must be taken to avoid oil and grease coming into contact with tyres and tubes.

NATIONAL SECURITY (LANDLORD & TENANT) REGULATIONS:
Members of the Forces, or their dependants, who desire to complain of breaches of the National Security (Landlord & Tenant) Regulations should not communicate with members of Parliament, or with Federal or State Departments, but should approach the nearest Clerk of Courts for advice as to their rights and obligations under those regulations.

TROOPS TRAVELLING IN M.T. VEHICLES:
The practice of rolling up canopy sides on M.T. Vehicles must cease immediately. It is not intended that vehicles with canopies have the sides rolled up as, apart from possible injury to personnel by passing vehicles, there is a risk of damage to canopies.

LOOSE TALK: At a H.Q. Conference this day, it was revealed that recently through loose talk, the enemy had gained information and used it to counter one of our moves. As this information can only come from Officers and O/Ranks "in the know", the leakage was probably due to careless talk through their friends or families; it is requested, therefore, that all ranks at Broadmeadows Camp be acquainted with this fact, and reminded of the urgency of keeping any military knowledge to themselves, and to point out that it is every man's duty to prevent other people from loose talking when they hear anything said which would be of value to the enemy. The Government and the Army will back you up.

CENSORSHIP.
The large amount of uncensored mail posted in civil post boxes indicates, that, personnel of the Military Forces have not been impressed of the need for security in correspondence.

All ranks are warned that uncensored mail is liable to censorship interception at Base. Many instances of evasion of censorship are being detected every week and offenders detected are punished.

The need for security in correspondence is stressed as very grave, consequences may follow a leakage of military information through faulty censorship or uncensored correspondence.

The onetime Army slogan " No names, no pack drill", is at present very apt. Therefore the adoption of a slogan " No leakage of information, no grave consequences" is enjoined by all ranks.

CRANKING MOTOR VEHICLES - COOLING OF WATER.

1. On Ford vehicles where the fan is fitted to the crankshaft, instances have occurred where radiator cores have been damaged by the fan blades becoming bent owing to their striking the water when the vehicles are driven through streams etc.
2. If the vehicle is driven through the water carefully at low speed, no damage should result, but, as a precautionary measure the driver of any vehicle likely to be so affected is to remove the fan assembly from the crankshaft prior to the the vehicle entering a stream and, if unable to extract the fan from under the bonnet, will secure it in a convenient position, using a suitable piece of wire or cord so as to prevent its fouling the belt or pulleys.
3. The fan is to be replaced immediately upon reaching the other side of the stream.
4. If the water crossing is a long one and the vehicle heavily laden, the cooling water may boil when the fan is thus removed. The level of the cooling water is to be checked after replacing the fan.

FRAUDULENT ALTERATION OF PAY BOOKS. A number of cases have occurred in which soldiers have altered or falsified their Pay Books for the purpose of obtaining monies to which they were not entitled.

The attention of all members is to be directed to the seriousness of this offence and to the fact that whether or not it is intended to refund any monies so fraudulently obtained such alteration or falsification amounts to a serious offence for which a long term of imprisonment in addition to other penalties, may be imposed upon conviction by either a civil criminal court or by court martial.

THEFT FROM A COMRADE. It has been reported that several thefts have lately taken place, mainly at detached stations A.M.R & O.516 is promulgated for information. :-

"Theft from a comrade, unless there are peculiarly complicated circumstances, should on War Service, be tried by Court Martial in preference to a civil court."

Ref. Manual of Military Law Ch.111. 37 reads :-

"The stealing from a person subject to Military Law who is is a comrede is regarded as peculiarly dusgraceful, seeing that in the daily routine of camp life, soldiers must constantly leave exposed their arms, accoutrements or kits as well as private property, such as money, watches, etc. trusting to the honor of their comrades.

All ranks are instructed that no A.R.P. equipment belonging to another military Unit , civil organisation, or trust (such as Harbour Trust) is to be interefered with, damaged, or removed, under any circumstances. Suitable action will be taken against offenders detected .

It has been reported that considerable damage and theft of stirrup pumps, sand drums and sand shovels, also sand and water buckets, belonging to the Harbour Trust has been taken place.

In the interests of public safety and public property such action must cease at once.

CONSERVATION OF RUBBER:

Rubber is very widely employed in many items of army stores and equipments. In view of the drastic restrictions in supply arising from the Far Eastern situation, it is essential that all ranks take care constantly to prolong the life of items which have any rubber in them and so reduce to a minimum replacement requirements.

Among the principal uses of rubber in the army, apart from tyres of M.T. vehicles which are dealt with in G.R.O. 0150/1942, are the following:-

(a) Rubber boots, shoes, respirators anti-gas, ground sheets and similar fabrics and steel helmet linings.
(b) Most forms of electrical insulation and accumulators.
(c) Miscellaneous items, such as fan belts and radiator hose on M.T. vehicles and also other types of hose.
(d) Items of medical and dental equipment.
(e) Stationery (elastic bands, rubber stamps and rubber faced date stamps, erasers, etc.)

It is the duty of all ranks to appreciate that these items must always be used in such a way as to obtain from them the longest possible life.

Some factors which tend to reduce the life of rubber and rubberised articles are:-

(a). Careless use.
(b) Exposure to heat, light, oil and grease.
(c) Delay in effecting minor repairs.
(d) Use of articles for purposes other than those for which they were issued.
(e) Bad storage.

As with condemned tyres, all items of army stores and equipment having a rubber content will not be destroyed, but will be dealt with by the salvage organisation with a view to possible reclamation of rubber.

SECURITY (ADVICE TO TROOPS):

1. If you make yourself a forecaster of operation orders, you run two grave chances -
   (a) You may be recognised as a smart young soldier, and be promoted to C. in C.
   (b) The enemy may make use of your information, and this too will be grave - six feet deep.
2. Remember that your loved ones at home are far more interested in your safe return than in where you are now, and what you are doing.
3. You don't have to prove you are the most important man next to the Colonel by telling your girl friends the important information with which you have been trusted. Try being the strong, silent type - it's more effective with the girls, and far less dangerous to the Army.

GOOD ADVICE:

The following is an extract from a letter that has been censored -

"I am going to ask you never to mention names of ships in your letters - just as well it was not censored. You say you are proud of the navy, well please show it and never mention names, for always remember you have a brother on a ship, and I have to go to sea, not you, so please help all you can in the future, and if you see sailors about and read a name, just forget it - Never write it, and also, please don't be over anxious to tell people what ship I am on, just say 'He is in the Navy and away' that is enough."

CANTEEN-WET. : A report from the Officer in Charge of the Wet Canteen reveals a serious situation in regard to the wastage of Mugs - Beer , greatly contributed to by petty thieving and the wilful smashing of same.

It can very well be brought under the notice of all personnel that this Camp enjoys Wet Canteen privileges that no other Canteen in Victoria has, and as the wastage at the present time exceeds replacements owing to the fact that production has been restricted and replacements are difficult to procure, the future can only bring about a curtailment of hours and troops patronising same will have to provide their own containers.

Further, it would be stated that Commanders of Units using the Canteen will be responsible for all undue breakages or any thefts of Canteen equipment or stores by troops under their command and the payment will be met by a deduction from the Unit or Units share in the Canteen rebates or profits.

CENSORSHIP.

The large amount of uncensored mail posted in civil post boxes indicates, that, personnel of the Military Forces have not been impressed with the need for security in correspondence.

All ranks are warned that uncensored mail is liable to censorship at Base. Many instances of evasion of censorship are being detected every week and offendors detected are punished.

The need for security in correspondence is stressed, as very grave, consequences may follow a leakage of military information through faulty censorship or uncensored correspondence.

The one time Army slogan "No names, no pack drill", is at present very apt. Therefore the adoption of a slogan " No leakage of information, no grave consequences" is enjoined by all ranks.

CHANGE OF ADDRESS.

All personnel are required to notify the Orderly Room immediately when a change is made of private address.

Theft from a comrade, unless there are peculiarly complicated circumstances, should on War Service, be tried by Court Martial in preference to a Civil Court."

Ref. Manual of Military Law Ch.III 37 reads:-
" The stealing from a person subject to Military Law who is a comrade is regarded as peculiarly disgraceful, seeing that in the daily routine of camp life, soldiers must constantly leave their arms, accoutrements or kits, as well as private property such as money, watches, etc., trusting to the honour of their comrades.
