4. DRESS - AWAS AND AAMWS:-

(a) Subject to sub-para (b) of this paragraph, when in public a member on full time duty will wear uniform.

(b) Civilian clothes may be worn by a member, if she so desires,

(i) when participating in sport;

(ii) on the occasion of her marriage; or

(iii) as permitted by or under GRO A.275/1944.

GRO A.275/1944 - WEARING OF CIVILIAN CLOTHING BY FEMALE MEMBERS OF AMF

(1) Subject to the provisions of this order, civilian clothes may be worn by female members of the AMF, if they so desire, when on leave exceeding 48 hours within the mainland of Australia or in Tasmania.

(2) The senior officer of a women's service in an L of C Area, etc, may, at her discretion and subject to such conditions as she may deem necessary, grant permission to members of that service to wear civilian clothes at and in the vicinity of such authorized recreational centres as may be specified. Similar permission may be granted to female members of the AAMC by the senior administrative medical officer of the L of C Area etc.

(3) Female members of the AMF wearing civilian clothes must, at all times, be in possession fo AAB 83 and, if on leave, must also be in possession of a leave pass.

(4) Female members of the AMF may accordingly have in their possession civilian clothes for wear in accordance with the terms of this order, but such permission will not be construed as authorizing any increase in the maximum weights for personal baggage authorized by or under Standing Orders for Movement within Australia and its Territories.

5. REDUCTION OF ARMY BULK MOTOR SPIRIT RESERVES - EMPTYING ARMY TANKS:-

It has been pointed out that it will not be possible in every instance to remove the entire contents of Army tanks and the following procedure should be adopted in such cases:-

(1) The gallonage of MT petrol to be credited by Pool to the Department of Army will be determined in the presence of an Army representative by dip of each Army tank corrected to 60°F prior to commencement of withdrawal.

(2) The gallonage so determined will be debited to Pool by the Department of Army at the rate ruling for bulk emergency motor spirit reserves at the time.

(3) Pool will then proceed with the emptying of the tanks on the following lines:-

(a) After the Depot power pump ceases to draw from the Army Storage tank no further gallonage will be withdrawn for the time being until the next visit of the Army Inspector.

(b) During the Army Inspector's visit the ullaged Army tank will be dipped and the dip recorded. Pool will then proceed in the Army Inspector's presence to remove as

AUSTRALIAN WAR MEMORIAL AWM2022.5.1638

much as possible of the gallonage remaining.

(c) An adjustment will then be made in respect of the difference between the gallonage of the Army tank before the operation commenced and that remaining after measured gallonage was withdrawn.

(4) Credit will then be issued in favour of Pool for that gallonage agreed upon as being unrecovered at the rate ruling for bulk emergency reserves at the time.

(5) The total emergency storage gallonage will then be reduced by the amount of the quantities written off as unrecovered and will not be subject to payment of the difference between the emergency and current consumption rates as would normally be the case if the total gallonage purchased for reserve purposes was not either the subject of adjustment or replacement.

3. MT ADMINISTRATION:-

(a) Some drivers have the habit of "rev'ing" up their engine from a cold start in the morning. This is about the quickest way to tear the guts out of an engine. The engine, under no consideration whatsoever, must be "rev'd" up until sufficient time has elapsed for the oil to circulate around the piston and piston walls.

(b) O'sC Sections NORTHAM, MADDINGTON, FORRESTALE, and NCO I/C Transport SALTER'S POINT, will take steps to personally bring this matter under the notice of all drivers on strength.

2. MOTOR CYCLES - UNIT LINES:

Under no consideration will any person ride a motor cycle on any made pathway in camp area or in or through tent lines.

3. VISITORS TO SWAN BARRACKS (CR. 241/11/22)

(a) Entry to SWAN BARRACKS for all ranks and civilians will be by authority of pass obtainable from Enquiry Officer Room 201, at Main entrance.

(b) Passes will be returned to guard on completion of visit.

4. CUSTODY BY WA ECHELON & RECORDS OF UNIT DOCUMENTS AND RECORDS NOT CURRENTLY REQUIRED: (CR. 76/1/141)

It has been brought to notice that the directions contained in GRO 216/43 regarding the documents and records not currently required which may be forwarded to WA ECHELON & RECORDS for preservation for future reference are not being observed in a number of instances.

2. Text books which should be returned to Stationery Depot are frequently included in boxes or parcels of records received for custody, thereby involving needless haulage of freight and action being taken to extract such books and forward them to the correct distination.

3. Instances have also come to notice where units have included in such records closed trust account books relating to regimental and other funds. Such books should not be included in records sent to the Echelon component but should be forwarded to the DFO WEST. COM

AUSTRALIAN WAR MEMORIAL AWM2022.5.1638

4. CUSTODY BY WA ECHELON & RECORDS OF UNIT DOCUMENTS AND RECORDS NOT CURRENTLY REQUIRED (CONTD)

4. Documents received also frequently include many which it is thought it is unnecessary to preserve in unit records where copies are held in the files of the HQs and Offices referred to in para 2 of the GRO abovementioned.

5. Disciplinary action will be taken in any future case where such text books and/or documents are forwarded to WA ECHELON and RECORDS for safe custody.

5. COMMONWEALTH REFERENDUM: 19 AUGUST 44. (CR. 145/1/40)

2. PRIMING OF CARBURETTORS FOR EASY STARTING M.VEHICLES AASC

The prevalence of burning accidents can be attributed to the practice of priming vehicle carburettors to facilitate the starting of the engine.

This method is dangerous, as all the fuel introduced into the manifold is not absorbed by the engine but remains in the manifold and carburettor body until the engine fires. Then it is ignited and flames flare up out of the carburettor.

The safe alternative method of introducing fuel quickly into the carburettor is to turn the engine over by hand. The fuel pump, in normal condition, requires only 30 revolutions to fill the carburettor if system is completely dry.

The driver should use the starting handle for this purpose as such prolonged use of the self-starter causes a serious drain on the battery.

The practice of priming carburettors will cease forthwith.

2. VOLUNTEERS FOR MALARIA EXPERIMENT: (CR.241/9/167A)

For purpose of evaluating a new antimalarial drug which is regarded by American scientists as definitely superior to atebrin, more volunteers are urgently desired at LHQ Medical Research Unit.

2. Volunteers are therefore sought from male O/R personnel under Command HQ Western Comd, who will be required on the dates shown :-

15 Sep 44	15 Oct 44	15 Nov 44	15 Dec 44	28 Jan 44	28 Feb 44	TOTAL ALLOTMENT.
10	2	2	2	2	2	20

The total of selected volunteers will include 2 Sgts and 2 Cpls.

3. It will be necessary for volunteers to :-

(a) be organically and mentally sound
(b) be not above 45 years of age
(c) not have a crime record
(d) not have suffered from syphilis, malaria or infective hepatitis (Catarrhal jaundice),
(e) have a negative Wasserman or Kline test.

Medical classification of "B" is not in itself a bar.

4. Men who have been stationed in New Guinea or lived in malarious areas in the tropics are NOT eligible.

AUSTRALIAN WAR MEMORIAL AWM2022.5.1638

VOLUNTEERS FOR MALARIA EXPERIMENT (CONTD.)

5. Volunteers may be needed for as long as six months. They will be located at Cairns and Atherton, will be well cared for, and at the end of their sojourn should be quite as fit as on arrival. They will be exposed to malaria infections of malignant tertian and/or benign tertian types while taking antimalarial drugs, and a proportion of them will develop malaria. The malignant tertian mararia, which is the dangerous type, will be cured before they leave the Cairns area, but relapses of benign tertian mararia will probably occur in some volunteers after returning to their units. In this respect, such volunteers will be in the same position as many thousands of Australian troops who have seen service in New Guinea.

6. Each volunteer will be granted 21 days special leave on conclusion of the experimental treatment and will receive a card or letter from the C-in-C expressing appreciation of the valuable service rendered.

7. The discovery of a new antimalarial drug which would cure benign tertian relapsing malaria would be of inestimable value from the military viewpoint in the rapid rehabilitation of troops.

8. Volunteers will be reviewed by unit or other MO to ensure their suitability.

3. M/T TRAFFIC - GUILDFORD AERODROME: (CR. 138/1/253)

The construction of a boundary road around the runways at GUILDFORD aerodrome renders it unnecessary for drivers of M/T vehicles to drive along or to cross the runways.

2. In view of the serious risk of accident, drivers of M/T vehicles are not to drive on the runways and are not to cross the runways unless essential to gain access to a portion of the Aerodrome that cannot be reached by any other means.

4. In those cases where it is essential for an M/T vehicle to be driven across a runway as provided by paragraph 2 of this order, the driver shall stop on reaching the runway. Before moving on to the runway the driver is to ensure that no flying is in progress and is to watch for warning signals from the Flying Control Officer. The driver is to bring his vehicle to a stop immediately on receipt of a red light signal.

4. In such cases where it is essential to cross a taxiway, the driver shall stop the vehicle on reaching the taxiway and is to ensure that the taxiway is not being used by a moving aircraft before proceeding to cross such taxiway.

5. Access to the aerodrome is to be gained only by the following gate:-

Guard gate at the corner of Fauntleroy and Henderson Avenues, REDCLIFFE.

3. SECOND VICTORY LOAN:

1. The Second Victory Loan of £120,000,000 cash will open for subscription on 26th September, 1944, and close not later than 31 October, 1944.

2. Arrangements have been made for paymasters to accept applications for Commonwealth Government Inscribed Stock or Treasury Bonds from members of the forces serving in Australia or New Guinea who desire to invest their savings in the Loan.

Particulars of Loan:-

3. Loan applications may be made for an amout of £10 or a multiple of £10.

4. Treasury Bonds are payable to bearer and are issued at par for £10, £50, £100, £500 and £1,000

5. Inscribed Stock may be purchased at par for amounts of £100 or multiples of £10 above £100.

AUSTRALIAN WAR MEMORIAL AWM2022.5.1638

6. Interest is payable at 2½% per annum if invested for five years and at 3¼% per annum if invested for sixteen years, and will be credited half-yearly to a member's savings bank account or current account, if desired.

7. Interest will be subject to Commonwealth taxation but not to any income tax under the law of a state. During the period of uniform taxation, a rebate of 2/- in the pound on interest will be allowed to cover freedom from state taxation.

8. Any bank nominated by a member will, if requested, hold the bonds in safe custody.

Procedure for lodging applications.-

9. Application froms will be available from paymasters and unit pay representatives and are required to be completed in duplicate. An applicant's signature will be witnessed by an officer.

10. Sufficient credit must be available in a member's pay book to cover the amount he or she desires to invest in the loan. The amount subscribed will be debited in the pay book.

11. Cash may be accepted in payment of a loan subscription, in which case the amount tendered will be entered in the pay book to establish the necessary credit and a pay sergeant's or cash office receipt issued and pasted in the pay book.

12. Deposits on account of loan subscriptions will not be accepted. Where members desire to subscribe by instalments, the procedure set out in GRO F.303/1944 will be observed.

13. The Commonwealth Bank will forward to a member an interim receipt for the amount subscribed.

General.-

14. Both Treasury Bonds and Inscribed Stock are readily negotiable and may be sold at any time. Any bank will arrange this for a member if desired.

2. CONSERVATION OF RUBBER - SYNTHETIC TYRES.

1. Thus order will be read in conjunction with GRO 0.167/1944.

2. The critical rubber situation and the necessity for obtaining the maximum service from tyres has been stressed from time to time. The further deterioration of the situation, necessitating the introduction of tyres of synthetic construction, renders it imperative that greater care than ever be exercised in the use and maintenance of all tyres, whether of synthetic or natural rubber construction.

3. Synthetic tyres are far more susceptible to failure through abuse than tyres constructed from natural rubber. All concerned will, therefore -

(a) exercise the utmost care to avoid
overloading,
underinflation,
hard braking and fierce acceleration,
high speeds,
bumps and other causes of severe impact;

(b) check wheel alignment frequently and correct irregularities promptly;

(c) rotate tyres regularly;

(d) remove stones and flint from tyres during unit maintenance;

(e) Submit tyres for replacement at the correct stages for recapping; and

(f) submit damaged tyres for repair without delay.

4. Formations and units will ensure that prompt disciplinary action is taken where breaches of this order occur.
