3. POWERS OF SENTRIES AND GUARDS

(1) Regulation 8A of the National Security (General) Regulations (Statutory Rules 1942, No.374) provides that, without derogating from or restricting the existing powers or rights of sentries and guards, a military sentry or guard stationed or posted at, on, in, or in the neighbourhood or vicinity of, any prohibited place, protected area, controlled area, or any premises used by the Commonwealth, or used for defence purposes or for essential services, or any vehicle, vessel or aircraft used by the Commonwealth, or any enclosed wharf or picking up place, or any merchant vessel lying inport, or any road, pathway, or waterway, specified in an order by the Minister, which passes through or near a prohibited place or work of defence, may be armed, and may :-

(i) use his weapons against, or otherwise attack, any person who, in disregard of a warning given by a sentry or guard, approaches, leaves, enters, or passes over or in the vicinity or neighbourhood of, or attempts to approach, enter, leave, or pass over or in the vicinity or neighbourhood of, that place, area, premises, vehicle, vessel, aircraft, wharf, picking up place, road, pathway, or waterway, or who, after being arrested for so doing, escapes; and

(ii) use his weapons against, or otherwise attack, any person attacking him or who is reasonably suspected of being about to attack him.

(2) There are, however, certain principles which must guide all sentries and guards in the execution of their duties as such, and in the exercise of the right to resort to arms.

(contd.)

AUSTRALIAN WAR MEMORIAL AWM2022.5.2167

(3) These principles are :-

(a) Sentries and guards will be ordered to take any action required to ensure the safety of their posts or to defeat the activities of enemy, or suspected enemy, agents.

(b) If necessary, they will fire upon or otherwise attack any persons threatening the safety of their posts or engaging in hostile actions.

(c) Before firing upon any person, the sentry or guard will, except in an urgent case of self-defence, challenge that person to "Halt". If that person does not halt, the sentry should challenge him again with "Halt or I fire". If he does not halt, and no other means are available for stopping him - as for example, by calling on the rest of the guard - it is the duty of the sentry to shoot.

(d) The sentry will use his intelligence and sense of responsibility in choosing whether he will shoot or not, and he must be careful not to allow any suspected person to approach so close that he can be rushed and overpowered.

(e) Guards of enemy prisoners of war. An enemy prisoner of war attempting to escape may be fired upon, but a previous summons to surrender will be given if possible.

(f) Guards of members of the forces in custody.

(i) An escort or guard is not justified in using his weapons merely for the purpose of preventing another member from escaping from custody and if he so uses his weapons he may render himself, as well as any officer or N.C.O. under whose orders he acted, liable to be charged with murder, manslaughter or incitement to murder.

(ii) If a member in custody attempts to escape, the escort or sentry will immediately raise the alarm and give chase. He may c call upon any passer-by to assist him in apprehending the escapee.

(iii) An escort or guard may be justified in using his weapons when a member in custody resorts to violence. In such circumstances an escort or guard may meet force with force, but care must be taken to use no more force than is necessary to overcome the violence offered. Hence, even when violence is offered to an escort or guard, it will only be as a last resort that the use of weapons will be justified.

(4) Orders for guards and sentries will be framed in conformity with the above and guards and sentries will be suitably instructed as to their powers and duties.

3. PROFICIENCY PAY

Preliminary

1. Approval has been given for the payment of proficiency pay of sixpence per day to every male member of the AMF who holds either the appointment of lance corporal or lance bombardier, or the rank of private or its equivalent, and who is not in receipt of pay prescribed for a qualified parachutist or a tradesman or specialist, subject to the conditions set out hereunder.

Interpretation

2. For the purpose of this order, the following interpretations shall apply :-

"Six months' service" - Only continuous full time war service will be taken into account when calculating the period of six months' service. Periods of leave with pay will be accepted as service. Periods of leave without pay will not contribute toward the requisite period, but service rendered prior to such leave will not thereby be cancelled but will be accepted as part of the period of six months.

"Good conduct" - A soldier's conduct will be deemed good unless he commits a 'breach of good conduct' as interpreted hereunder.

"Breach of good conduct" will occur -

(a) when an award has been made by a military authority imposing upon the soldier a penalty higher in the scale set out in AMF & O 414(b) than confinement to barracks for seven days, providing that no fine of less than £1 shall be deemed to be a breach of good conduct;
(b) when the soldier has been convicted by a civil court and fined £5 or more or sentenced to imprisonment, whether or not such sentence is suspended upon the soldier entering into a bond.

The contraction of venereal disease will not be considered a breach of good conduct.

AUSTRALIAN WAR MEMORIAL AWM2022.5.2167

"Prescribed examination" - The examination conducted for the purpose of enabling a soldier to demonstrate his proficiency in the arm or branch to which he belongs.

Entitlement :-

3. Proficiency pay will be paid as on and from 1 July 1943, to a soldier who :-

(a) at that date had completed at least six months' service;
(b) for six months immediately prior to that date had been of good conduct; and
(c) on the first occasion subsequent to that date on which he is examined, passes the prescribed examination.

4. A soldier who complies with sub-paras (a) and (b) of para 3 of this order but who fails to pass the prescribed examination on the first occasion will be entitled to proficiency pay on and from the day upon which he passes such examination, provided he has been of good conduct for the period of six months immediately prior to passing that examination.

5. A soldier who completes six months' service on a date subsequent to 1 July 1943, will be entitled to proficiency pay on and from the day upon which he passes the prescribed examination, provided that he had been of good conduct during the period of six months immediately prior to the date of such examination. A soldier who passes the prescribed examination before he has completed six months service will be entitled to proficiency pay on completion of six months' service with good conduct.

6. A soldier who is debarred from qualifying for proficiency pay by reason of a breach of good conduct will, providing he has passed the prescribed examination, become entitled to proficiency pay on and from the day following the date upon which he completes six months' service with good conduct. If such soldier had not previously passed the prescribed examination, he will be entitled to proficiency pay on and from the day upon which he passes the prescribed examination, provided he has been of good conduct for the period of six months immediately prior to passing the examination.

Forfeiture of Proficiency Pay :-

7. If a soldier who is in receipt of proficiency pay commits a breach of good conduct, he shall automatically forfeit his proficiency pay on and from the date of his conviction or the award against him.

8. Subject to para 9 of this order, a soldier who has forfeited his proficiency pay by reason of a breach of good conduct will, on completion of six months service with good conduct, be again entitled to proficiency pay without the necessity for further examination. 3. The attention of all personnel is drawn to the following instructions from H.Q. Q'land L. of C. Area relating to medical attention for troops in the metropolitan area, and especially to para v hereunder.

(i) Wherever possible, soldiers requiring medical attention must attend the recognised sick parade which is arranged for their unit, and at the hours laid down by the Medical Officer in charge of the R.A.P.

(ii) Disciplinary action may be taken against any soldier who reports sick elsewhere and at other times than at the normal sick parade at his own RAP unless it can be shown that it was a case of legitimate emergency when his correct course of action is as detailed in sub-paras (iii) and (iv) below.

(iii) If, however, a soldier becomes urgently sick at an hour when he cannot receive the necessary attention at his usual first aid post or RAP, he will, if possible, report to one of the following RAPs where a 24 hour medical officer service will be available to deal with legitimate urgent cases :-

(a) RAP., 2 Aust. Camp Hospital, Chermside.
(b) RAP., 3 Aust. Camp Hospital, Enoggera.
(c) RAP., 4 Aust. Camp Hospital, Exhibition.
(d) RAP., 10 Aust. Camp Hospital, Coorparoo.

AUSTRALIAN WAR MEMORIAL AWM2022.5.2167

(iv) If a soldier becomes suddenly ill and cannot attend his own RAP or one of the emergency RAPs in the above sub-paragraph, he must be transported by ambulance to a camp or General Hospital. Ambulance transport in such an emergency can always be arranged by ringing B.0424, HQ, 2 (SQ) L.of C. Sub Area.

(v) This arrangement provides an adequate Army Medical Service for all troops in the Brisbane area, and therefore, soldiers in the metropolitan area, whether living in barracks, billets, or private homes, will not on any account attend Area Medical Officers at their rooms, or call Area Medical Officers or civilian practitioners to attend them at their place of residence.

(vi) Medical Officers attending military personnel at the RAPs in the metropolitan Areas have been instructed that, at their discretion, personnel may be given up to three (3) days 'no duty' without admission to hospital. In the event of a soldier's condition demanding absence from duty for a period longer than this, he will be admitted to a military Camp or General Hospital.

3. USE OF GRENADES, HAND, JAPANESE, TYPE 91

i. This grenade is in common use by the Japanese and quantities have been captured and used by our troops. Tests indicate that the grenade has certain characteristics which may lead to injury in the hands of inexperienced personnel. These characteristics are :-

(a) The delay fuse, marked 4/5 seconds, has been known to burn in much less time. Some tested fuses burned in 3 seconds.

(b) While the delay fuse is burning, a considerable quantity of black smoke is emitted through the escape hole at the base of the fuse tube, and small fragments of the delay fuse are sometimes forced out. At night or even at dusk or dawn, a definite glow from this hole can be seen.

ii. The following precautions will be taken if the grenade is used :-

(a) It will be thrown immediately after the head has been struck;

(b) When striking the grenade, the hand will be kept well clear of the escape hole at the side of the fuse tube.

3. The attention of personnel is directed to the following notice, republished from a recent Gen. Routine Order.

1. The offences of stealing and fraudulent misapplication of stores and supplies from military depots, installations, transportation services and even from fellow soldiers have increased to an extent which renders immediate and effective remedial action necessary.

2. The use of terms such as "pilfering", "scrounging" etc., to describe such offences tends to obscure their gravity and may cause them to become somewhat lightly regarded. On the contrary, such offences must be viewed very seriously and offenders will render themselves liable to severe punishment.

3. The impression may exist that an isolated instance of theft of military stores and supplies, though a mean and despicable act, does not involve any appreciable weakening of the war effort. Such an impression, if it exists, is completely erroneous. The cumulative effect of such thefts affects seriously the maintenance of the troops in the field, dislocates the supply organisation at all points, involves grave waste of man hours, and is, in fact, equivalent in result to that of directly treasonable activity.

4. These considerations impose an obligation of honour on all members to do their utmost to prevent theft and to assist in every way in the bringing of justice to offenders.

Paragraph (9) of the same R.O. states : As a general rule, no suspension or remission is to be made in respect of any award or sentence imposed upon a member for any offence mentioned in this order.

3. REMITTANCES FROM MEMBERS

i. The attention of all ranks is drawn to the arrangements which exist for a member to send a remittance of cash or undrawn pay to any person resident in Australia or to another member (wherever serving).

ii. These arrangements provide that remittances may be made through Army channels by members who are serving in localities where money order or banking facilities for remittances are not available with reasonable convenience.

iii. Remittances through Army channels are effected by the member completing a remittance form WF 131 or WF 131a) and handing the form to the Pay Sergeant or Paymaster, together with the cash (in the case of a remittance of cash) or the member's paybook (for entry of the debit in the case of a remittance of undrawn pay.)

iv. A member sending a remittance should take particular care to see that full details are clearly and legibly set out on the remittance form. This applies especially to the name and address of the person to whom the remittance is to be sent.

v. The member will ensure that he obtains a receipt from the Pay Sergeant or Paymaster for any cash handed over.

3. A recent G.R.O. has outlined the necessity for precautions to be observed in connection with Issues and consumption of tinned ration commodities. The attention of all personnel is directed to the following points in regard to this matter.

1. Manufacturing difficulties and the necessity of storing tinned food in unsuitable stores or in the open, combined with frequent handlings, have all combined adversely to affect the keeping qualities of such food.

2. It is essential that, before issue or consumption, tinned food shall be subject to rigid inspection and scrutiny by the Supply Service, the unit , and the individual soldier.

3. All personnel, especially cooks and caterers, are warned against eating or even tasting any tinned commodities which appear abnormal in appearance or smell, as an apparently perfect tin may have developed a pinhole puncture or other defect which would render the contents unfit for human consumption and perhaps fatally poisonous.

4. All canned vegetables will be removed from the tins and boiled for 20 minutes prior to consumption.

3. MAINTENANCE INSTRUCTIONS

Maintenance of all combat tyres on vehicles is prescribed as follows :-

(a) Tyre inflation pressures will be kept inflated to correct pressures prescribed in appropriate Mechanisation Circulars.

(b) After an emergency deflation, a combat tyre will be reinflated to its correct pressure at the earliest possible moment.

(c) Any combat tyre that has been deflated and run for more than -
(i) Twenty consecutive miles, or
(ii) Seventy-five miles in the aggregate,
will be removed and inspected by skilled AEME personnel to see if it is fit for further use. When it is necessary to remove a tyre from the wheel, the rim nuts or cap screws will not be unscrewed unless the tyre is completely deflated; otherwise, an inflated tyre may easily blow the wheel apart, causing severe injury of death. Rim nuts or cap screws will be painted red to denote danger.

(d) When replacement of a combat tyre becomes necessary, care will be taken to see that the casing and the tube of the replacement tyre are of the correct size and marked COMBAT.

(e) A rubber flap of correct size and type will be fitted in combat tyres using the segmental type of beadlock.
