APPEND "A"

AUSTRALIAN WAR MEMORIAL AWM2022.5.3015

RESTRICTED War Diary

AUSTRALIAN MILITARY FORCES
ROUTINE ORDERS
BY
CAPT. C. A. NELSON.
O.A.C. 25 AUST SUP DEPOT COY (AIF)

IN THE FIELD

APPENDIX "B"

NO. 39.

DATE: 7 JAN 44

217. CORRECT USE OF LIGHTS WHEN APPROACHING ONCOMING TRAFFIC.

1. Accidents involving army vehicles have occurred due to lack of road courtesy of drivers who fail to dim their headlamps when approaching oncoming traffic.

2. In order that personnel in control of vehicles may appreciate their responsibility in this regard, the action to be takem is set out hereunder :-

(a) When approaching oncoming traffic, the driver of a vehicle will ensure that his headlights are dipped and will keep as near as practicable, having regard to all the circumstances, to the left-hand edge of the roadway.

(b) If the headlights cannot be dipped, they will be dimmed. If they cannot be dipped or dimmed, the driver will switch to his parking lights. In either case, he will reduce the speed of the vehicle so that he can stop within his lessened limits of vision.

3. The driver is responsible for checking the correct operation of all lights and for reporting immediately (on AAF G17) all defects which he is not permitted to rectify.

218. DRESS.

Ref NGF Order A475 of 19 Dec 43.

1. The hours of sunrise and sunset for MORESBY BASE SUB AREA are fixed as 0700 hrs and 1900 hrs respectively.

2. CO's may, at their discretion, approve the wearing of sleeves rolled up between the abovementioned hours of sunrise and sunset.

3. CO's may approve of members of authorised working parties, whilst actually engaged in strenuous work, working with the upper portion of the body bare.

4. CO's may approve of personnel working with the upper portion of the body bare when actually working in ships holds between sunset and sunrise.

219. MINIATURE CYCLONES.

1. The Guba is a severe type of rain squall coming from the North-West as a blow of great intensity. It may attain a velocity of up to 70 M.P.H. Generally the Gubas are preceded by a day of strong N.W. winds which may drop suddenly to calm conditions or light airs in the evening.

2. In Moresby Area the Guba develops rapidly about 0200 hrs and lasts for 20 minutes, and passes off as suddenly as it came. Five or six Gubas may be expected during January or February, and during that period it is essential that action be taken by all ranks to minimise destruction to stores and equipment as follows :-

(a) Ensure all offices and tents are securely "Battened down" for the night.
(b) Inspect any ropes and ensure all office requisites are covered from rain and nothing of a loose nature left lying about.
(c) So far as possible, close all tents to the N.W. Where this is not possible with offices, a blanket or tarpaulin should be kept handy to spread over the desk or table when the Guba is heard approaching.
(d) All craft in harbour will be manned sufficiently to enable necessary action to be taken to prevent loss.

AUSTRALIAN WAR MEMORIAL AWM2022.5.3015

220. IRREGULAR LIGHTING OF VEHICLES.

1. In order to lessen the risk of road accidents caused by defective headlamps on vehicles, units will ensure that all burnt out headlamp globes are replaced immediately.

2. If replacement is not immediately available the driver will, in the case of the globe in the right headlamp burning out, replace it with the globe from the left hand headlamp.

3. Under no circumstances will vehicles be driven with the left hand headlamp only alight.

221. SPEEDING.

1. The fact that the Speedometer of the vehicle was NOT working will NOT be accepted as an excuse for exceeding the speed limit.

2. Provost personnel will include in their evidence a definite statement as to number of vehicles overtaken during the alleged speeding.

222. MEASURES TO REDUCE FLIES.

NGF Adm Instn No 92 of 19 Apr 43, para 4 is repeated :-

"(a) All waste matter or refuse in which flies may harbour or breed will be completely incinerated.

(b) All tins cans will be thoroughly burnt and disposed of in such a way that they will not hold water in which mosquitoes will breed.

(c) Dumping of unit refuse outside unit lines is prohibited, unless with the written approval of the Medical Services.

(d) All sullage water from kitchens, showers, ablution benches, etc., will be passed through a strainer to remove food particles and debris them through a grease trap and finally disposed of into a soakage system or an absorption pit in such a way that Natural water courses are not polluted.

(e) Flies are to be destroyed in messes, cookhouses, etc., by fly traps, poison baits and swatting. "

223. PROVISION OF SAFE DRINKING WATER.

NGF Adm Instn No 92 of 19 Apr 43, para 6 is repeated:-

"(a) All water for drinking will be sterilized by boiling or super-chlorination.

(b) Sources of water supply will be protected from pollution."

The practice of assuming that the water supplied from any Water Point in the MORESBY Base Sub Area is fit for human consumption will cease. Units will take measures in accordance with para above.

224. INTOXICATING LIQUOR.

1. The illicit manufacture in Papua or New Guinea of any intoxicating liquor is prohibited.

2. The possession of any liquor so manufactured is also prohibited.

3. Severe disciplinary action will be taken in respect of any breach of this order, and all stills and material used for the manufacture of such intoxicating liquor will be confiscated.

AUSTRALIAN WAR MEMORIAL AWM2022.5.3015

225. ESCAPES OF AUSTRALIAN PRISONER/OF WAR FROM ENEMY HANDS.

1. It is the duty of any soldier, if captured by the enemy, to affect his escape at the earliest possible moment.

2. It is also his duty - any breach of which is a serious offence - not to communicate to unauthorised persons any information about the means employed by him or his companions to escape from enemy hands.

3. The disclosure of such information:-

(a) prejudices the chances of other escapees;

(b) prevents other members of Australian or Allied forces from using the same or similar means of escape;

(c) endangers the lives of those who may have assisted the escapees at any stage of their escape;
therefore, except as provided in pars. 4 and 5 below, an escaped prisoner of war is forbidden to disclose particulars of his escape directly or indirectly to any person whatever, either by word of mouth or in writing.

4. An escaped prisoner of war will disclose full particulars of his escape only to officers authorized by the Director of Military Intelligence to interrogate such an escape. No officers, except those authorized by the DMI, are permitted to interrogate any escapee on the circumstances of his escape.

5. Should it be considered desirable for an escaped prisoner of war to lecture on his experiences, the script of the proposed lecture will be submitted to the DMI for approval. No lecture will be arranged until approval of the DMI has been obtained.

6. GRO G.192/1943 is cancelled.

226. COURTS OF INQUIRY ON ILLEGAL ABSENTEES AND DECLARATION OF ILLEGAL ABSENCE

1. NGF Order A420/1943 is cancelled.

2. All investigations into illegal absence for twenty-one days or more will now be made by an investigating officer appointed pursuant to AMR & O 448A, the provisions of which are repeated in GRO A813/1943.

227. REGIMENTAL TRUST FUND.

RECEIPTS:	Balance as at 1 Dec 43.	£166-14-2
	Share Canteen Profits Oct 43.	13-11-0
		£180- 5-2
PAYMENTS:	Nil.	
	Balance as at 31 Dec 43.	£180- 5-2

We certify that we have examined the cash book, the unit trust book and vouchers relating to 25 Aust Sup Depot Coy (AIF) AASC unit trust account and that in our opinion this statement correctly sets out the position of the funds as at 31 Dec 43.

(Signed) C.A.NELSON Capt
T.D.O'SULLIVAN LIEUT

NOTE:
QUALIFYING EXAMINATIONS FOR PROFICIENCY PAY - AMENDMENT TO R/O 214/43.

Insert after 2 (i) For Category A.
" (ii) For Category B - Which includes AASC personnel, the standard required of the candidate is classification as a second class shot.
