Similiar to "ACTIVE SERVICE" published last year, it will include accounts of A.I.F. campaigns in Egypt, Malaya and the Southwest Pacific, supplemented by reproductions of paintings and sketches by offical war artists, colour plates and photographs, many of which are published for the first time.
In addition it will contain articles, stories and verse contributed by members of the forces.

(2) M.T. Vehicles - ACCIDENTS & INJURIES.

A number of accidents have been caused by individuals pouring neat petrol in the air intake of carburettors of M.T. vehicle engines. This practice is definitely detrimental to the life of the engine.

The danger, however, lies in the risk of a backfire causing the petrol to ignite and almost invariably leading to injuries to personnel.

Under no circumstances whatever will petrol be injected by hand direct into carburettor intakes.
