Mr. W. C. BROWN

Ophthalmic Optician
42, Lamb's Conduit St.,
Holborn, W.C. 1
Over 20 years experience in eye
sight testing. Advice free.

The Enemy in our Midst

The enemy is defective eye-sight, caused directly by the influences of War, and the symptoms are peculiar mostly to those who are participating in war work. Obviously there are enormous numbers of war workers in Holborn, and hundreds are engaged in sewing and rivetting. This necessitates a considerable amount of concentration and eye strain and consequently there is an abnormal prevalence of over strained eyes, headaches and fatigued nerves.

The one thing to remember of this new form of eye trouble or indeed any form of defective eye-sight is that to neglect is to permanently increase the trouble. Take it in time by seeking advice and there is every hope of immediate cure.

Consult Mr. BROWN. Consulting Hours are daily 9.30 to 7.30 Thursdays 1 o'clock. Advice Free.
