Fresh breeze and warm sunshine. The girls are enjoying an autumn day's hiking, looking forward to the future.

Do these girls want you to die a useless death?

REVERSE : "Now that it is clear that for you to die is useless, be sensible enough to surrender and prepare for your future. You will be treated well, in accordance with the Geneva Convention, and will be able to prepare for the future while working on farms, doing carpentry, studying, playing games, or taking walks in the woods—as some hundreds of your comrades are already doing."

Target : Japanese concentrations and escape routes in New Guinea. To be mixed with direct surrender leaflets.

Latest date of distribution : Indefinite.
