WEEKLY NEWS—AUGUST 2

ALLIES WARN JAPAN : A proclamation calling upon Japan to cease war, or suffer destruction, has been issued by America, Britain and China. The proclamation, which was issued on July 26 during the Allied conference in Berlin, stated that the leaders of these three nations agree that Japan shall be given a chance to end the war now before she suffers destruction by the vast land, sea and air forces which are poised to strike the final blow.

The proclamation reminds Japan's militaristic advisers that the futile Nazi resistance led to Germany's lands and industries being laid waste, and points out that the Allied might now arrayed against Japan is far greater than that which forced Germany to surrender unconditionally.

WARNING OF BOMBING : For humanitarian reasons pamphlets were dropped by Superfortresses on 10 cities on July 27, warning the people to evacuate because their cities contained war factories, and therefore would be heavily bombed soon. The cities are Aomori, Ichinomiya, Ogaki, Kurume, Nishinomiya, Uwajima, Nagaoka, Koriyama, Hakodate, Tsu.

ATTACK ON KURE NAVAL BASE: British and American carrier-based planes sank or damaged 20 war vessels in an attack on Kure naval base and the Inland Sea on July 24. Photographs show that vessels hit included three battleships, five aircraft carriers and five cruisers. Eight Allied planes were lost.

EUROPE : Amongst the Nazi High Command documents captured by British forces is one revealing that Hitler planned to occupy England completely before September, 1940—a year after Germany declared war. Now, almost six years later, the Nazi Empire does not exist, and Germany is completely controlled by Britain, America, the Soviet and France.

BRITISH ELECTIONS : The recent elections in Britain resulted in a victory for the Labour Party, which has pledged itself to continue the fight against Japan. Mr. Churchill continues as a member of the Parliament.

AIR ATTACK ON BALIKPAPAN : For the first time since the Australian forces landed at Balikpapan on July 1 Japanese bombers attempted a raid on July 27. Ten twin-engined bombers attacked the area, but were broken up by intercepting Spitfires before reaching their target. On land, Japanese forces have fallen back into the central hills before the advancing Australians. Balikpapan is being converted into a large Allied supply base. Bombers and fighters are already using the two airfields.

TARGET : General.

DROPPING TIME LIMIT : One week after receipt.
