Dearest Darric,
Sorry I am unable to
be down town to-night as I am
in charge of the house.
Don't forget next Tuesday. My
friend and Mollie are coming.
I would rather go to the pictures
on Tuesday night if you could
manage it. The reason is I
would be too tired to study
whereas on Wednesday night
I would not be tired. Do you
think you could manage it?
What time and where shall
I meet you on Tuesday? Come
as early as you can in the
afternoon. Mollie will be down
whatever time you come.
I have been to Sydney and am
just about done up I have had 12 hrs.
a day fog.
In case I do not see you on Friday

My Dear Darnie

It is now 10.30 P.M. and I have just returned from the pictures very much disappointed. As you made the appointment I expected a good night. This is now the second time you have disappointed me like this. Of course I don't blame you. I suppose you were prevented.

I rang you up to day but you were out. I think your father answered the phone. If so I hope you did not get into trouble.

I have to start study next week. I will try and come down town on Friday night - but if not will you meet me on Saturday afternoon? answer this please dear and give the answer to someone down down on Friday night.

I suppose you do not realize how much I care for you. Without your company I would have practically

nothing to live for.

However I suppose in your case it is different. I suppose you don't care much for me. Oh well I feel too miserable to write.

Don't forget meet me on Saturday afternoon you arrange the place and if I am not down town Rollie or Norman will look out for you.

Better still give Euid the note and she will give it to me in the train. When you think love just think of me a little. With much love

Remain
your firmest friend

Dearest Dorrie,

I hope that episode of to-night did not get you into any trouble. I was a bit surprised but I ought to have made some excuse for your defence. At any rate I don't suppose I could have done much good by interfering. I suppose your father will now make it his business of informing my dad. However don't let that worry you. You can tell your father it was my fault for keeping you out late. I should have done so myself.

Dearest please give Molly a note for me and tell me how you got on and when I may see you again. Don't forget to give Molly a note as I will be worried till I hear from you.

Still yours
Gordon

28. 9. 15-

Dearest Darnie,

It seems an age since I last saw you and I can assure you I am looking forward to seeing you again soon.

Well what I wanted to tell you was this. On Sunday night last Rolhe & I were too late to go to Church. so we went down town for a walk. He met his friend Miss Montgomery and she had a girl friend with her. Of course we accompanied them home.

I am telling you because I do not wish to do anything under hand.

I know you are reasonable but you know certain people cause trouble from trifles by gossip. I can assure

you I would not give you up for
anyone so that is precisely how
I feel.

Please write to me & and tell me
if you can when you are coming
home and I will try to meet you.

Please excuse this scribble which
I hope you can read.

Yours lovingly
Gordon.
