May 21st Lecture 08.
Inspiration is brought
about by a power
we have of sucking
in air by taking a
deep breath.

Inspiration due to
muscular action
diaphragm &
other muscles.
Expiration does not
require any muscular
effort. Purely

Mechanical move-
ment, 15 times a
minute

2 seconds for
inspiration

2 seconds for
expiration,

Pectoral muscle
fan shaped is
attach. to arm, from
the other to ribs

Clear throat
Attend to tongue
mistake breathe
Silent method
Promote circulation &
warmth -

Use a Chloroform
Gas

Set Pt. by push air,

Set tongue forward
the first tape
or hand Kerchie,
