(Erase heading not required.)

Place	Date	Hour	Summary of Events and Information	Remarks and references to Appendices
QUERRE	Dec 15		<p>Remember quick in the Camp is becoming largely due to condition in trenches, humidity and tropical feet. Ordinary precautions are <sup>impossible</sup> being taken in the trenches. A large percentage of the troops have the condition of the feet as the Camp here as yet no rest treatment accommodation in this area. Gen. Board arranged to send over all accommodation at 4800 ft. a trench camp at BRAY as rest station. The conditions under which the troops in the line are existing is worse than they have ever been, and the wastage from trench feet and allied conditions will continue to be very large indeed.</p> <p>Directed C.C.C. to indent for special appliances for the treatment of wounds by 'Carnel' method.</p>	<p>App 16</p> <p>5951</p>

Place	Date	Hour	Summary of Events and Information	Remarks and references to Appendices
QUERRIEU.	Dec 28 <sup>th</sup>		<p>Visited French H.B.E 37/2 at DOMPIERRE and saw cases of 'Trench feet' treated by new method. It is shown in support that 'Trench feet' is an infection by a mould - <i>Scopulariopsis Kunnigii Oudemans</i> - conveyed in trench mud water + enters foot by excoriations &amp; through matrix of nails - <u>Prevention</u>: Cleaning of feet with Camphor + borax soap and powdering with Tale + camphor powder - Early treatment of cases - <u>Treatment</u>: Amputation of skin of Camphor + borax in all stages. Early cases cured in 15 days. Amputation unnecessary in severe cases - Gangrenous parts separate from healthy wound. Plantar arch of foot has never been lost even in the worst cases - was very improved by method + result - Decided to treat treatment with the lining in 7. Amb. &amp; C.C.S. Drafted A.R. Order at request of G.A.C. as regards prophylaxis -</p> <p>Had fine bright night, cold mist during day, heavy rain at night -</p>	M/21
