SQUADRON COMMANDER'S REPORT.

6th Training Squadron, A.F.C. Minchinhampton, Glos.  
September 1918.

Weather throughout the month was ~~xx~~ unsettled especially during the first two weeks when low fog and rain reduced considerably the number of flying hours.

However, mainly owing to the work done by all concerned in keeping the SE5s serviceable we were able to turn out a considerable number of finished pilots and got off ten first soloists on SE5s in two days.

Only one fatal flying accident occurred. Lieut. Allan, a most promising, almost brilliant pilot, of No. 5 Squadron, had been sent up on the evening of the 7th to practice aerobatics in a Camel. Having climbed to 4000' he tried a loop. The machine slipped into a flat spin upside-down, and crashed in a barn at the south end of the Aerodrome. Death was instantaneous. It was supposed that he was thrown out of his seat and got his feet off the rudder.

A non-fatal accident occurred on the 22nd. When circling near the aerodrome at 2000' in an SE5, Lieut. S.A. Round had trouble with his engine, which cut out. He then lost height and direction in attempting to pick up his engine, with the result that he could not land in the Aerodrome. He undershot the aerodrome and landed in another field nearby and crashed. The machine was a write-off and Lieut. Round received lacerations on the nose and was otherwise badly bruised and shaken.

Captain W.J. Cooper, Station Adjutant, proceeded on leave on the 4th prior to being posted overseas to No. 4 Sqdn. He is a great loss to the Squadron as he had been Adjutant for 12 months and had all the routine at his fingerends.

Of the nine pupils sent to Finishing Schools at Turnberry and Marske, all topped the list, which speaks well for their instruction here.

Appendix V

58

In continuation of the general scheme for centralization it has been decided to bring the various workshops under one Central control. The Officer in Charge will be directly responsible to the Officer Commanding the Station and the Liaison between the Workshops and the Squadron Commander and A.R.S. This Officer will rank as the Station Technical Officer. The following Departments will come under the control of the Technical Officer and be administered by him:-

- |                      |              |
|----------------------|--------------|
| Engine fitting shops | Blacksmiths  |
| Machine shops        | Coppersmiths |
| Metal working shops  | Electricians |
| Carpenters shops     |              |
| Acetylene Welders    |              |
| Vulcanizers          |              |

At LEIGHTERTON Station, these Departments will be divided into two groups as follows :-

No. 1 Group, T.W.O. in charge.

- Engine cleaning
- Dismantling
- Fitting
- Erecting
- Testing

No. 2 Group, T.W.O. in charge.

- Machine Shop
- Carpenters' Shop
- Metal working shop
- Blacksmiths
- Coppersmiths
- Electricians
- Acetylene Welders
- Vulcanizers
- Sailmakers
- Tinsmiths.

Each of the above Groups will be under a T.W.O. who will be directly responsible to the Technical Officer.

AEROPLANE REPAIR SECTION.

The A.R.S. Woodworking machine shop  
Carpenters' Shop  
Sailmakers' Shop  
will remain under the control of the O.C. A.R.S.

MINCHINHAMPTON.

At Minchinhampton the two Groups will comprise -

No. 1 Group, T.W.O. in charge,

- Engine Dismantling
- cleaning
- fitting
- erecting
- testing.

No. 2 Group, T.W.O. in charge,

- Machine shop
- Blacksmiths
- Coppersmiths
- Acetylene Welders

439

Sept 1948

59

No. 2 Group, (Minchinhampton) Ctd.

- Electricians
- Vulcanizers
- Carpenters
- Sailmakers
- Tinsmiths.

Each of the above groups will be under a T.W.O. who will be directly responsible to the Technical Officer.

In each of the above mentioned Shops a Sergeant will be in charge with the exception of the Acetylene Welders and Vulcanizers; these will have a Corporal in charge. These Departmental N.C.Os will be directly responsible to the T.W.O. in charge of the Group in which the Shops are placed.

PERSONNEL.

The Personnel drawn from the Squadrons and A.R.S. will come under the Control of the Technical Officer for duty only; this will commence from the first daily working parade and end when dismissed from the workshops.

The N.C.Os and men will parade with their own Units and will be marched off to the Central workshops parade ground by the Senior workshops N.C.O. or man present.

The roll will be called on this parade ground and the various parties marched off to their work under their own N.C.O. On dismissal the men will form up on the workshops parade ground and be marched off by the Senior N.C.O. present.

FATIGUES.

Fatigue parties are to be detailed by the Technical Officer only; on no accounts are units to do this.

The Technical Officer is to supply men for fatigues on a percentage basis.

-----;

*J.W.*

REPORT OF WIRELESS OFFICER.

6th Training Squadron, A.F.C.

Minchinhampton Gles.

September 1918.

During the month of September 1918, forty pupils (Officers and Cadets) were training in Morse for both sending and receiving on Buzzer Circuits. This also included instruction on both Silenced Keys and Morse Inker Machine.

Attendance at Classes by all pupils was both good and punctual, and a keen interest was shown by all. Many pupils passed out considerably higher than the standard required.

Good work has been done by the Wireless Personnel in instructing pupils in Morse, and the mechanics have worked well in maintaining the efficiency of the wireless Station.

French Official Press has been taken daily from the Eiffel Tower and copies distributed to both Squadrons.
