Place	Date	Hour	Summary of Events and Information	Remarks and references to Appendices
Sylvester-Caffel	July	to 31	<p>During this month I received lots of claims for orlatons and for wood taken and also a lot of claims for crops damaged through the construction of trenches for the defense scheme these were classed as fait de guerre and also claims for crops cut which had been cut because they obstructed the field of fire these also are classed as fait de guerre, but I also received a lot of claims for unauthorized grazing of horses which claims are very difficult to prove the responsibility to any one unit being too, so many units with horses in the same area.</p>
