Attention is directed to G.R.O. 2864, which is republished herewith, and will be read on parade once a month:-

"No one, except on duty, is permitted to go outside the billeting area of his unit, except on pass.

Passes issued to N.C.O.'s and men either to leave their billeting area or to enter a town, must be signed by the O.C. Unit, and are not to be made available for places outside the area occupied by the British Armies unless leave has been granted in accordance with G.R.O. 2786.

All passes must contain the soldier's regimental number, rank name and unit, the hours between which leave is given, the purpose and date. The Military Police are authorised to demand the production of a pass or papers of identification whenever they consider it necessary.

Cases of men outside their billeting areas and especially in the adjoining towns such as STEINWERCK and BAILLEUL, without passes are too frequent, and immediate steps will be taken to enforce this order.

3. ENEMY AIRCRAFT.

A recent case which occurred in the First Army of the German
aeroplane landing in a field at 2.30 in the morning without
interference, although there was a sentry within 1600 yards
of the place, points to the necessity for increased vigilance
in this regard.

In this case, the aviators, four in number, were able to get
close to their machine, and proceed undisturbed to a neighbour-
ing farm. It is obvious, therefore, that if they had been
accompanied by any person whom it was intended to employ as an
agent, he would have had no obstacle placed in his way in the
first stage of his mission.

~~With~~ In case of an unexpected landing at unusual hours, and
in unusual places of any aircraft the matter should form the
subject of immediate attention on the part of any troops in
the neighbourhood. They should satisfy themselves that the
aeroplane is one of ours or an allied machine, and that the
crew are the persons they pretend to be. It is, of course,
possible that the Germans might use an allied machine for this
purpose.
