IMBROS	29 ^E	2300.	Sir Ian Hamilton cables Lord Kitchener Gen. Baillouds telegram filed Appendix, Sept. 29 ^E A. N ^o 77 5/13 in which he gives his orders re SALONIKA received from French Minister of War. Refer to M.F. 675 where he stated he could only spare one French Bde; he desires to place on record that if French order carried out 53rd Div. cannot possibly be spared unless safety of force endangered a future of Dardanelles enterprise. French Div. remaining will have undue proportion of SENEGALISE. This constitutes so grave a danger that had ^{he} power I would refuse to allow Gen. Bailloud to carry out the order of his Government. A disaster at HECLIES would upset all hopes of success in Balkans. In view of physical condition of large proportion of his troops 8 th Corps Commander represented gravity of case to ^{him} in strong terms. See Appendix B	M.F. 693. Sept. 29 ^E C.
