AUSTRALIAN WAR MEMORIAL

AUSTRALIAN WAR MEMORIAL RCDIG1005350

17TH BATTALION, A.I.F.

TRAINING MEMO.

2/8/17.

Copy No. Y ..

Reference Training Map of Area W.1. and W.2.

- Company Commanders, Second in Command of Companies, Two Platoon Commanders from each Company, and R.M.O., will take part in a skeleton operation to-morrow, 3rd instant.
- 2. Officers from "A", "B", and "D" Companies will meet at Battalion Headquarters at 8 a.m. "C" Company Officers will rendezvous at junction of ALQUINES and QUEER CAMP ROADS (U.15 Central) at 9 a.m. As far as possible, arrangements will be made to mount Seconds in Command of Companies. All Officers should carry Lunch, Maps, and Prismatic Compasses.
- 3. SCHEME. The Brigade is holding an outpost amountable line just West of HARLETTES-QUEER CAMP ROAD, with Two Ba ttalions, with lath and 20th The 17th Battalion is in support of the 18th Battalion; and 19th in support of the 20th, At a time to be fixed, the 18th and 20th Battalions will move forward, and occupy a position on high ground in vicinity of U. 23; c to U. 18. c., where they will concolidate. The 17th and 19th Battalions will pass through them, and take up an Outpost position on high ground in viginity of road running from V. 25. c to V. 27. a. Approximate boundaries for 17th Battalion will be V. 25. c to V. 26. a. 2.1. It is proposed that two companies will occupy the line and two companies will be in reserve. This however, is subject to alteration should the ground be such that one company would be sufficient. "A" and "B" Companies will be the 2 companies for the Front Line, and "C" and "D" Companies in Reserve, Should however, only one company be required, "B" Company will form the Outpost Line. . Engineers are being attached to Battalion to give technical assistance and any points in the Picquet Line which are suitable for construction as Strong Points, should be at once reported, so that the Engineer Officer can inspect them, with a view to construction of Strong Point. Attention of all officers is drawn to the following: -

Necessity for standing patrols to be in touch with those on their flanks, and with their picquets in rear, using connecting files if

All roads leading/Xxxxxxxx in direction of enemy, is not under observation, should be patrolled.

That all patrols standing or otherwise, should forward with the least possible delay, any information they may obtain regarding their front or enemy movements.

Picquet Lines should be established in such positions that they command good field of fire, are sufficiently strong to with stand all enemy attacks; and also of sufficient size to hold any supports sent up. All Picquets should be in close touch with each other, either by direct observation or connecting files, and so placed that they give united support.

Supports should be so placed that they should get as much rest as possible, and at the same time be able to reinforce picquets with the least possible delay and loss.

During daylight, the minimum number of sentries watching Front should be used.

All valleys and woods not held, should be closely watched. In the latter case, sentries being placed at the farthest edge, to give warnin g of enemy approach.

Ight aire & captain.

Adjutant 17th Battalion A. I. F.

86

1711 LATTALIST ALLE SCHOOL

Heresense Larrence 1/100,000. SPOUD 1. The Fifth ARBIRALIAN INFARTRY DAIDADE WILL move by march route to

ARGURE ARRA ON the 7th instant. - ACQUIN-LUMBRES-BRIQUES-HALLINES-WIZERNES BLENDECQUES "E" Company will be formed up ready to move off at 3, 45 a.m. "A" and "" Companies will be at junction of WESTRE COURT-ACQUIN- and Yal d' ACCUTS Eccés et 5. 50 5. 5.
