			<p style="text-align: center;"><u>TRANSPORT MONTHLY REPORT.</u></p> <p>During the month of November the Transport were very busy with the usual back area duties of collecting and delivering rations Canteen and Y.M.C.A. work. The Transport were represented in all the items at the Brigade Horse show on the 1st with the following results; First prize for Maltese cart Turnout, First prize for the Best Pack Animal. The judges Capt Fishborne and Capt Murray congratulated the Battalion on the splendid turnout in general. On the 10th inst at the Divisional Horse Show we obtained the following results:- First prize for the Maltese Cart Turnout. 2nd prize in the Mule Flutter. <u>INSPECTIONS.</u> During the month we had numerous inspections by Brig-Gen Goddard D.S.O Brigade Major, Staff Capt, A.D.V.S. D.A.Q.M.G. on each occasion great praise was given for the splendid condition of the Transport as a whole. <u>SICKNESS.</u> The Transport were very unfortunate in this respect owing to a serious out break of influenza 24 members of this section were affected to cases proving fatal. Both these members were extremely popular throughout the section. <u>SPORT.</u> Transport competed in a number of Battalion Competitions but on account of the sickness above mentioned were not very successful. We gained first prize in Debating and 2nd Prize Soccer Football Competition. <u>EDUCATIONAL SCHEME.</u> Quite a number of men have taken up subjects enthusiastically in connection with this scheme.</p>	<p style="text-align: center;">146</p> <p style="text-align: center;">APPENDIX</p>

"Q" BRANCH NOTES 34th BATTALION NOVEMBER 1918.

- BILLETS. Our billets in present area are not good, although disinfectants have been used in goodly quantities a considerable amount of sickness occurred amongst the men.
- RATIONS. Rations have been drawn from ALLERY daily and are in ~~max~~ quantity and quality alike excellent (with the exception of vegetables) which have been purchased locally at reasonable prices they are of exceptionally good quality also.
- COMFORTS. The rations have been supplemented with Comforts of which a total of 65 cases has been received comprising, Sugar Milk, Oatmeal Curry Powder, Jam Fruits, Cigarettes etc These are greatly appreciated by the men at all times, and much credit is due to those concerned. (Australian Comforts).
- ORDNANCE. Ordnance supplies have not been equal to previous periods boots and leather being rather difficult to procure, also soap soda etc.
 Winter clothing has been received and issued, comprising singlets, underpants, gloves, cardigans, etc of good quality.
Service dress clothing comes along in small quantities and of poor quality. A more satisfactory state of things would exist if Australian material were used in our Tunics Breeches and Hats puttees etc.
- Y.M.C.A. The Y.M.C.A. attached has proved a great comfort to the men generally.
- SALVAGE. This important branch has kept up a good average and compared favourably with other Units in the Division. Fat is being eaten a great deal more by the men and this is always encouraged although the fat salvage return is diminished.

On November 15 the Education Officer reached the Battalion after attending a conference at Cheshunt College Cambridge convened to obtain unity of aim and of method in the Education Service. From the start men were interested and constantly came to make inquiries as to their special cases. By the end of November over 150 men had been personally interviewed by the E.O. as to their desires in Education.

Owing to initial difficulties classes were not started in the month but a lecture was given on the Education Scheme in its Battalion and its larger aspect and all information collected preparatory to commencing Battalion classes.

Constantly men are being drafted away to Divisional Schools in connection with the Education service and December should see a great extension of Educational activities within the Battalion.

Headquarters,

"A. Day."

The Mayor of AIRAINES.

As an officer of the British Army, I, acting under powers conferred on me by G.O.C. of 9th Aust. Inf. Bde., hereby direct you, the Mayor of AIRAINES to carry out the evacuation of the villages of LONGPRE- les- corps- saints, BETTENCOURT RIVIERE, the hamlet of Gde REMISE and the farms in the vicinity thereof and to concentrate the people of the abovenamed villages and farms in AIRAINES, the concentration to be complete by 22.00 on 8.11.18.

Questions of local transport for sick will be arranged by you. In case of any disobedience on the part of the inhabitants in complying with this demand you will inform me without loss of time in order that military force may if necessary be applied for. I am sending Captain X forward to consult with you. He will arrive about 12.30 today. Please warn local authorities in above villages.

Re evacuation of LONGPRE- BETTENCOURT RIVIERE -
Gde REMISE and adjoining farms.

Confirming my verbal instructions given you this morning, you will carry out the following:-

- (1) Take from Brigade instructions.
- (2) Together with a party of 2 N.C.O.'s and 8 others (including one mounted orderly and 1 cyclist) you will immediately proceed to AIRAINES and carry out the evacuation of the above places and concentrate all civilian population in AIRAINES. You will carry 48 hours rations for party and horse.
- (3) The Mayor at AIRAINES is the Civil Authority responsible for the evacuation and concentration. You will hand him my attached requisition.
- (4) The following precautions must be taken in cooperation with the civil authorities. Traffic on roads must be regulated civilians must move out with only such articles as they can carry in one trip; no person is on any account to be allowed to leave the town of AIRAINES after concentration.
- (5) You will remain in AIRAINES as military Police on completion of above duties.
- (6) You will report completion of evacuation to Bde HQrs whom will probably move towards the coast on "B" Day from LES LIOMER.
- (7) The Battalion has been warned to be ready to proceed to VERGIES on "B" day.

Major.
G.O. 34th Battalion A.I.F.

- No 1. He may have assumed Ambulance cars for evacuation of sick from villages; also that Bde HQrs would most probably be in LIOMER on "A" day.
A warning order to the Mayor of AIRAINES would have expedited the work.
He may have contemplated his party "jumping a lorry" to AIRAINES and obtaining some conveyance from Mayor of AIRAINES. to visit villages in which case some of his party could accompany him and assist in evacuation of villages.
Sufficient time has not been allowed to march from LIOMER to AIRAINES - AIRAINES to LONGPRE.
Time of issue and method of despatch not attached to some messages.
Position of sentries not cleared defined to N.C.O in orders viz six roads etc.
- No 2. Does not make use of traffic on roads for conveyance of party to AIRAINES.
No warning order.
According to solution does not take advantage of his horse and ride on ahead to AIRAINES.
Seems to have carried out evacuation himself not through Mayor of AIRAINES.
Messages should have been sent through Mayor.
The orders have not sufficiently comprehending and would not carry the authority for the local authorities to act.
Sentry should be placed on road immediately S of A in AIRAINES.
Do not think the checking of civilian rolls practicable with the number at disposal of O.C. of party.
No provision made for controlling or conducting parties from villages.
No method of the estimated population of the villages is given.
It is probable that R.E O LONGPRE could convey whole of inhabitants from LONGPRE - BETTENCOURT - RIVIERE by trucks.
General arrangements for work well thought out but the numbers allotted for task militate the practical and efficient carrying out of the scheme.
- No 3. It is assumed that maps are available for all parties.
No warning order.
The assumption of train accomodation for conveyance to AIRAINES seems reasonable although the distance does not make it essential -trains may be more profitably be employed for old and sick and food stuffs.
The evacuation party would be rather tired when it come to ~~pinque~~ picquet duty after their many previous duties on this day some of which may have been obviated by better organisation of the work to be done.
No report to Brigade Head quarters.
Method of despatch of orders omitted.
- Most of the schemes omit any referance to control of evacuation towns. I would consider it necessary to take over all Post Office and telephon e communications on arrival to prevent unauthorised messages. Food supplied in the villages must certainly be guarded; especially in view of troops coming in and threatened landing. Steps may have been taken to send supplies to AIRAINES. All public houses, wine & spirit shops must be placed under military control and private property guarded. All water supplied should have been picquitted. The question of local transport and vehicles does not seem to have been thought out. Bicycles would have been useful for military work. I consider to carry out the scheme effectively the evacuating party much to small. Might I suggest a Company as a suitable unit to carry the work out.

NARRATIVE.

1. The low ground running from MAREUIL via BRAY - DUACQ - LIERCOURT to LONGPRE and the Valley thence to RIVIERE forms the N. coast of SOUTHLAND. The whole coast is watched by coast-guards whilst SOUTHERN Field Troops are being moved into the district as a precaution against a threatened landing from a NORTHLAND port about 10 hours steam to the N.W.

2. The population of SOUTHLAND is of doubtful loyalty and in this district there are a number of sympathisers with NORTHLAND.

3. Armament and moral of both sides are equal and neither possesses a numerous or efficient air service.

4. On "A" day the 3rd Division (less Artillery) moved Brigade Groups from the South to THILULLOY l'ABBAYE area (11th Bde.); HORNOY Area (10th Bde.); LIOMER Area (9th Bde.)

The same day the coast was bombarded and a feint landing made by a NORTHLAND expedition about 30 miles W. of MAREUIL and orders were issued to evacuate all civilians within 5 miles of the coast.

5. On "B" Day orders were issued at 20.00 for close billets:-

11th Bde. Group to ALLERY - METIGNY.

10th Bde. Group to CITERNE - FRUCOURT.

9th Bde. Group to VERGILS - HEUCOURT.

D.H.Q. to AUMATRE.

6. On "C" Day the Division continues the march, with 11th Bde. to WANDEL; 10th Bde. to BOIS de FREVILLE; 9th Bde. (Reserve) and D.H.Q. remain unaltered. Outposts on the line SOREL - GRANDSAR; Brigade boundary BOIS DUBOIS; Divisional boundaries - lines bearing N.W. through LIMEUX and WANDEL.

NOTES ON TRAINING SCHEME.

1. The outline of the scheme has already been distributed to Battalions. It will be seen that the role of the 9th Brigade will be Divisional Reserve.

2. It is intended that this Divisional Scheme shall be continuous and that during the next phase a greater amount of actual work will be carried out.

During this phase the work must necessarily be largely paper work, though where possible Brigade and Battalion work will be made to fit in with the general scheme.

3. It is not proposed to interfere with the "sports" hours of Officers more than is absolutely necessary. At the same time all Officers must take part. The greatest part of this work will therefore be carried out during the morning.

4. In order to effect this, the following scheme is suggested.

(a) The Officers of each Battalion to be formed into Syndicates -

Four Company Commanders form No.1 Syndicate.

Four Platoon Commanders, whether they be Officers or N.C.Os., to form a Company Syndicate.

(b) Though it is advisable that all Officers should carry out reconnaissances, it may only be possible to send out one or two Officers per Syndicate. The work should nevertheless be given to all Officers; the preliminary consideration of the work to be done should be taken part in by all, and the final report of the Syndicate should be considered and signed by all members.

Example.

The 9th Brigade is in reserve at VERGIES, the 10th and 11th Brigades holding line WANDEL - SOREL.

As the result of an appreciation of the situation by Brigade, the probable work for the Brigade has been thought out and the following instructions to meet one emergency are given verbally.

'In the event of strong enemy pressure being exerted against WANDEL, it is probable one Battalion may be sent to reinforce the 10th Brigade.' The ? Battalion will be allotted this task.

(i) The Battalion Commander or Second-in-command will issue instructions for necessary reconnaissance of the position, best approaches etc. These instructions will go to No.1 Syndicate.

(ii) No.1 Syndicate will discuss the details of the reconnaissance and will in turn issue instructions to the Platoon Syndicates who will in turn discuss their part of the reconnaissance.

(iii) Representatives of all of such Syndicates ~~with~~ ~~discuss~~ ~~the~~ ~~reconnaissance~~ ~~and~~ ~~submit~~ ~~them~~ ~~to~~ ~~higher~~ ~~authority~~ ~~as~~ ~~necessary~~ will then carry out the actual reconnaissance.

(iv) On their return Syndicates will discuss their reports and then submit them to higher authority.

5. Throughout the scheme such reports will be submitted only to such authority as would normally require them in actual operations, unless for the purpose of supervision they are asked for by higher authority for the purpose of perusal.

6. It is intended that in the initial stages ample time shall be given for C.Os. to enlarge on each exercise as they

may think fit and a fresh exercise will only be commenced when the one in hand has been brought to a satisfactory conclusion.

7. In submitting a report a syndicate should add any remarks it wishes to make with regard to points which the reconnaissance etc. has not brought out.

8. Apart from this it is desirable that schemes should be set by means of tactical orders and that they should be solved by orders and reports in strict service fashion.

It should be borne in mind that the purpose of the exercise is to accustom staffs and all Officers to deal with various contingencies as they arise, and in so doing apply the principles laid down in the various text-books.

9. All necessary assumptions will be made either in setting or solving each problem subject to the condition that such assumptions are definitely stated and fit in with the general tenor of the scheme.

10. Typing is allowed for Battalion H. Q. only.

PROPOSALS FOR THE DEFENCE OF GRANDSAR.Reference Map.
VIGNACOURT 1/40000.

146

- No 1. The object is to defend GRANDSAR in the best ways that the natural features and buildings permit. The buildings are situate on high ground sloping away on both sides and in front and the village is thickly timbered the only means of approach being along the roads shown on attached map. The village can be best defended from outside its Northern bounderies when the Enemy can be engaged to our advantage. The buildings are not bullet proof and do not offer any serious obstacles to the enemy once he has entered the village. The facilities for launching counter attacking troops are given by this system of defence.
 2. There is a good field of view and fire across the front just North of the Copse on the rising ground in S. 8. a. and on the forward slope s.7. B. This ground is bare and the slopes convex which will make the concealment of posts difficult. It is therefore proposed to hold the zone of observation with 2 Companies.
 3. I consider that the knoll just North of the village n.S.8.a is the key to the line of observation. It is therefore ~~propo~~ proposed to place a counter attack company just S. of the fork road in S.8.c where there is a good covered line of approach to the knoll.
 4. The Hill on which the village stands is a conspicuous featur which could not be held by direct means once the enemy had taken the high ground just North of it. It is proposed to deny it to the enemy by arranging a cross fire in front of it from either flank.
 5. It is therfore proposed to hold the line of observation with two Companies .
One Company in support and one Company in reserve in the village of GRANDSAR.
