ERECTED IN

TO THE

NON-COMMISSIONED OFFICERS & MEN

OF THE

FIRST TRAINING BATTALION, A.I.F.,

WHO DIED ON ACTIVE SERVICE

AT

LARKHILL, 1916-1917.

SUNDAY, OCTOBER 7TH, 1917.

For ever with the Lord.

"For ever with the Lord!"

Amen ; so let it be ;
Life from the dead is in that word,
'Tis immortality.

Here in the body pent,
Absent from Him I roam,
Yet nightly pitch my moving tent
A day's march nearer home.

"For ever with the Lord!"

FATHER, if 'tis Thy Will,
The promise of that faithful word
Even here to me fulfil.

Be thou at my right hand,
Then can I never fail ;
Uphold Thou me, and I shall stand,
Fight, and I must prevail.

So when my latest breath
Shall rend the veil in twain,
By death I shall escape from death
And life eternal gain.

Knowing as I am known,
How shall I love that word
And oft repeat before the throne,
"For ever with the Lord!"

AMEN.

Abide with Me.

Abide with me ; fast falls the eventide ;
The darkness deepens ; LORD with me abide ;
When other helpers fail, and comforts flee,
Help of the helpless, O abide with me.

Swift to its close ebbs out life's little day ;
Earth's joys grow dim, its glories pass away ;
Change and decay in all around I see :
O Thou, Who changest not, abide with me.

I fear no foe with Thee at hand to bless ;
Ills have no weight, and tears no bitterness ;
Where is death's sting ? Where, Grave, thy
victory ?

I triumph still, if Thou abide with me.

Hold Thou Thy Cross before my closing eyes ;
Shine through the gloom, and point me to the
skies ;

Heaven's morning breaks, and earth's vain
shadows flee ;
In life, in death, O LORD, abide with me.

AMEN.

CIRCULAR MEMORANDUM No.167.Headquarters,
Bhurtpore Barracks,
Fidworth. 10.10.17.HEALTH OF TROOPS.

The following directions for safeguarding the health of Troops during the winter will be carried out by all concerned:-

GENERAL INSTRUCTIONS.

1. All soldiers will be specially warned against allowing themselves to become chilled when cooling after severe exercise. e.g. when the day's training is finished men should put on dry clothing, change wet socks and wear their Greatcoats.
2. During Route Marches the Great-Coat should be carried "en banderole" and put on during the halts and after the march is finished.
3. After taking brisk exercise at parades, e.g. Bayonet Fighting, Physical Training &c. great coats should be put on at once.
4. During parades involving standing about; e.g. Musketry, great coats ~~should~~ should be worn.
5. The matter is one of common sense; e.g. soldiers undergoing severe exercise should not be overclothed but should put on any additional clothing when the exercise is finished.
6. Huts must be kept well ventilated.

SPECIAL INSTRUCTIONS.

1. Soldiers attending Sick Parades will wait under cover.
2. Group Hospitals have been established at Codford, Parkhouse, Sutton Veny and Hurdcott, so that sick soldiers, even though they may appear to be suffering from a comparatively slight disability, but who are not well enough to be treated as out patients at the sick parades, shall be admitted to Hospital at once. No such soldiers will be retained in the Unit lines either for observation or for treatment.
3. Each Unit Medical Inspection Room will be equipped with two beds. These beds are to be used solely for soldiers who are awaiting transfer to Hospital and S.M.O's will be responsible that there is no delay in such transfers.
4. R.M.O's will see that lying down cases are warmly wrapped in blankets during transfers to Hospital and that facilities are available for giving warm drinks, e.g. Bovril &c. to sick men when they are to be transferred any long distance to Hospitals.
5. All men excused duty for the day, will be seen in the afternoon by the R.M.O. and all sick cases that have a temperature of over 100 for 12 hours will be sent to hospital.
6. In the case of soldiers who are too ill to attend sick parade the Combatant Officer concerned is responsible for reporting the case to the R.M.O., so that the soldier may be seen by him as soon as possible. All soldiers unfit to attend sick parades must be seen by the Medical Officer in their Huts.
7. C.O's will arrange to provide their men with a supper meal. Suppers will be available at a fixed hour, which under ordinary circumstances, should not be earlier than 7.30 p.m. or 8 p.m.

(Signed) C.H. Foott.

COMPLAINTS BEING MADE TO CIVILIAN AUTHORITIES.
12. (a). Several cases have occurred lately of men sending
written complaints to civilian authorities outside the
A.I.F. This is against Orders and has been mainly resorted
to by those whose complaints are not justified.
(b). Every Member of the A.I.F.has the right to make a com-
plaint either verbally or in writing direct to his immed-
iate Commanding Officer.
(c). In every such case of complaint the Officer to ~~whom~~
whom it is made must investigate it and report to his
immediate Commanding Officer the complaint and the result
of his investigation. This last Commanding Officer will
determine if any action is to be taken, and if so, what.
(d). If the complainant is still not satisfied, the complaint
with the previous report is to be forwarded to Headquar-
ters for information and consideration.
(e). The above course ensures to everyone full consideration
of any complaint he has to make, and therefore complaints

plaints must be made through the above proper channel.
(Ref.B.O.No.178 of 9-10-'17, para.15.)

DRESS, ETC.
13. It has come to the notice of the Commanding Officer that men
are in the habit of proceeding outside Camp limits dressed in
a slovenly manner.
More attention must be paid to this matter in future.

tained and returned to Camp.

Battalion Month ending
31st Oct. 1917.

Average daily ration strength	1214.
Average daily sick parade	19.
No of men sent to hospital	61.
Venereal disease	10
Sprained ankle	8
Other surgical	15
Infectious	1. (mumps)

(Chiefly Influenza - Bronchitis)	

The General Health of the Battalion for the month has been good. There was a lot of diarrhoea & Gastro-intestinal when the Battalion first marched into this camp but the men were told they must not drink the local water unboiled and a supply of boiled water was kept on hand and this step seems to have reduced the no. of cases to a minimum.

The general sanitation	Good
Meat	Good
Bread	Good

Coughs and colds and catarrhal complaints generally are on the increase. All possible steps to prevent infection have been taken. Windows of the huts are all wide open all day, and one window at each end all night. Drying rooms are always ready for drying wet clothes.

The Monthly lecture on Syphilis Soft Sore & Gonorrhoea has been delivered French letters, Cards of advice, and nargol outfits have been offered to men going on leave who are all short-armed

All men marching in and out are short armed, and all drafts are examined twice, once within 24 hours of their departure, before they march out.

An early treatment depot is established in the Camp and men returning from leave are urged, if they have run the risk of infection, to avail themselves of it. Early treatment (sealing-up) of Gonorrhoea is carried out also.

The men are urged to use their common sense with regard to personal health and sanitation, especially with regard to changing wet clothes and taking overcoats when they go out of camp at night.

Herewith report on training in Tactical Exercises
from 2/10/17 to 26/10/17.

Tactical exercises have been carried out as per
syllabus of training issued weekly.

Remarks. The training has been carried out
according to Exercises written & issued by
Group Headquarters.

Generally speaking the men take quite an
intelligent interest in the work. The great
difficulty is to keep the men's interest the whole
time. During an exercise for the first time every
one is very keen but after several repetitions
the men's attention is inclined to wander.

After an exercise has been carried out on the
line laid down, the officer in charge invites
discussion by the men & cites parallel cases
as a result of his own experience, and
when there is anything reported in the Daily papers

similar to the exercise under review he discusses it with the men.

At the beginning of these exercises it was noticed that the men, when carrying out an exercise necessitating the use of the bayonet, did not put enough energy into the work, this was pointed out to the P.T. & P.F. Instructors & now there is a marked improvement.

The discipline of the men whilst out training is very good. Strict march discipline to form the training ground is insisted on.

Anti - Gas Report
for
October 1917

During the month 74 men have passed through the Gas Chamber as under —:

5:10:17	...	20.
19:10:17	...	23
25:10:17	...	31

In my opinion, the time set aside & down for anti-gas training ($\frac{3}{4}$ of an hour per week for the first 9 weeks and 3 hours in the 10th week) is insufficient. This practically cuts out lectures and the only way to work them in is to give the men helmet drill and lecture them at the same time. If all the men of each platoon were able to attend all the anti-gas parades as laid down per syllabus there would be a slight chance of giving them a fairly good grounding in the 10 weeks, but this is impossible as they are on leave one week & are certain to be on fatigue during some of the other weeks. Therefore I should like to suggest that $\frac{3}{4}$ of an hour per week be devoted to anti-gas training throughout the whole of the time that the soldier is with the battalion. If this were done the soldier would have a very good grounding by the time he went on draft.

REPORT.

re Live Throwing Practice.

During the present month Live Throwing Practices were carried out as follows :-

PLACE	DATE	A. Coy.	B	C	D	TOTAL	FAILURES
Lark Hill	3.10.17	87	35	55	14	192	nil
Suttons Bay	16.10.17	.	.	.	1	1	"
"	24.10.17	3	30	22	52	107	"

re Training. In my opinion the throwing was good, with the exception of a few men who showed a certain amount of nervousness handling live material.

re Training

During the past week men in the 5th week of training missed 2^{1/2} hours of instruction in Dummy Throwing owing to disembarkation leave.

I would suggest that the time lost be made up during the coming week.
