The last three days of September were spent at Winnezelle, & on the 30 <sup>th</sup> all were in readiness for a move the following day to Ypres.                                                                                                                                                                     |                                                                           |
