APPENDIX 1.

7th Light Horse A.I.F.,

Camp, MAADI Feby 15th 1915.

Headquarters,  
2nd Light Horse Brigade A.I.F.

I have the honour to ask if an issue of calomel ointment may be made to this Regiment. So far no cases of venereal disease have been discovered, and I would submit that calomel ointment would greatly assist in keeping down the percentage of these diseases.

(Signed) J.M. ARNOTT, Lt.Col.  
Commanding 7th Light Horse A.I.F.

S.M.O.  
Is there any chance of your  
being able to obtain the  
requirements of the 7th  
Regiment. See Min.(2)  
Staff Captain. 16:2:1915.

(3)

Headquarters,  
2nd L.H. Brigade.

Some days ago I made enquiries as to the supply of various drugs and do not see any possibility of these requirements being immediately obtained from the usual Military supplies. Being somewhat of a luxury this ointment might be obtained locally by the Regimental Comforts Fund.

APPENDIX 2.

Headquarters,

2nd LIGHT HORSE BRIGADE.

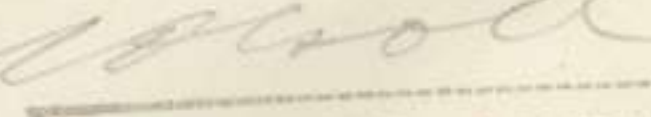

With reference to the Venereal state of the 5th L.H. Regiment I beg to report that I have made enquiries and find that the Venereal Cases of that Regiment are not in such a state as to require absolute isolation - They frequently attend the clinic of the 2nd L.H.F.A. for treatment and are progressing favourably - Special seats are provided in the latrines for these cases.

Inspections for the detection of concealed cases have been frequently made.

APPENDIX 3.

Headquarters 2nd L.H. Brigade A.I.F.,

Maadi Camp 28.2.1915.

The C.O.,

Field Ambulance.

The following memo has been received from the O.C.  
1st Stationary Hospital and is passed for necessary action.

"Men are being admitted to Hospital with pediculi corporis  
"(Lice) which is probably the result of not washing themselves  
"frequently and may also be the result of overcrowded tents"

Attention of O.C. is drawn to Brigade R.O. 14/5.
