- "Complaints have been received from the A.I.F. and War Chest Club that there have recently been cases of men, who have purchased Theatre Tickets at reduced prices from the War Chest Club, behaving in an unseemly and unsoldierly manner at the Theatre.
- It was only after considerable trouble and inconvenience that Mrs. Samuel, the Hostess, was able to arrange for seats at reduced rates at the various London Theatres for men on leave from France and the Depots, and it is therefore hoped that those availing themselves of this advantage will behave with due decorum and so uphold the name of the Club in particular and of Australia in general.

ORDERS - 1st Training Brigade Concentration Depot, AIF. - 2nd April, 1919.

MEDICAL.

67

Recently a certain number of men with Scabies or Pediculi (Crawls) have been struck off Boat-rolls at the final Medical inspection before embarkation. Pediculi can be rapidly removed and Scabies can be cured in 5 days, so that if these men had reported earlier they would have been cured in time to allow them to embark.

All ranks with any skin irritation or who have any suspicion that they have any skin complaint, especially if they are likely to be placed early on Boat-rolls, should parade to their Medical Officer for examination at the usual sick parades.

It is also in any man's own interest to see that he is inoculated with Influenza Vaccine and that necessary entries are made in his Ry-Book. If Ry-books are not available he will be given a certificate of inoculation which will be signed by the Medical Officer.

Further, many cases of Gonorrhoea can be cured by early treatment if men report early enough. It is also, therefore, to the advantage of men to report for treatment immediately they notice any signs of a discharge because, by so doing they may be cured in sufficient time to allow them to embark with the remainder of their Quota.

A copy of this Order will be kept posted up on Company Notice Boards.

SUMMARY REPORTS AND REMARKS.

- 87 In connection with the embarkation of troops for Australia complaints have been received of confusion during entrainment. The following instructions on the subject have been issued:-
As the final Boat-rolls are prepared in order of precedence of Units, and troops must be embarked in accordance with same, it is imperative that they should be so entrained. In future the following orders must be rigidly observed :-
The R.T.O. at station of entrainment will select a suitable place of assembly for the troops in close proximity to the station, and on no account must troops be allowed to enter the station building or occupy any platform used by the public until orders are received from the R.T.O. The Depot Entraining Officers should report to the R.T.O. for instructions 15 minutes before the arrival of troops at the Railway Station.
The troops must arrive at the Railway Station 30 minutes before the scheduled time of departure of the train and all entrainments must be completed at least five minutes before the time set down for the departure of the train.
The R.T.O. will superintend and give all instructions regarding entrainment, which must be carried out in a quiet and orderly manner.
Units are to be entrained in order of precedence commencing at, and filling the compartments from the front, or rear, of the train as directed by the R.T.O. Infantry will be entrained in order of sequence of Battalion numbers and, as far as possible, all men of a Battalion must travel on the same train.
