DINANT 87 Rue Leopold.	1st.		<p>Lt.Col. G. RAFFAN during the morning inspected the "BLUE LIGHT" Depots of the 49th. Aust. Inf. Battalion, 13th. Aust. Fld. Amb. and the Public one in the Rue PHILIPPEVILLE. He brought over a special plug introducer for the plug-method of the Abortive treatment of Gonnorrhoea, and explained its use. It will simplify the method greatly and is a great improvement on the older method of screwing the plug into the meatus by means of a probe. In the afternoon he visited the 12th. Aust. Fld. Amb. and met the R.M.O's of the 12th. Aust. Inf. Brigade there, and explained the method to them.</p> <p>Weather. Very cold, snow fell this afternoon.</p>	see.
	2nd.		<p>The R.M.O's of the 4th. Aust. Inf. Brigade and the 4th. Aust. Fld. Amb Officers were visited at FLORENNES and the plug-method for gonnorrhoeas explained by Lt.Col. RAFFAN.</p> <p>Weather. Cold and muddy roads caused by the traffic.</p> <p>Received War Diary for January 1919, from R.M.O 50th. Aust. Inf. Battalion. Original Only. attached. Appendix No. 1</p>	see. 1
	3rd.		<p>D.A.D.M.S. saw R.M.O's of 4th. Aust. Div. Engineers and 51st. Aust. Inf. Battalion during the morning. Difficulty is being met with in obtaining drugs. This is not the fault of the Field Ambulances, but of the Base Medical Stores who seem unable to supply their indents. Formal protests have been lodged, but without avail.</p> <p>Lt. Col. G. RAFFAN left during the afternoon for 5th. Aust. Divisional headquarters.</p> <p>It is hoped that some arrangements may be made by which all men who have suffered from V.D. during the War will be able to be examined and receive any further treatment that may be necessary for a cure before they are discharged in Australia.</p> <p>Lt. Col. RAFFAN has this in hand and will make the necessary arrangements after consultation with D.M.S., A.I.F.</p> <p>Weather. Very cold. Another shower of snow.</p>	see.

----- NOTICES. -----

1. PURCHASE of MEAT, BREAD, FLOUR from CIVILIANS.

flour

Owing to the shortage of ~~meat~~ it has been necessary to put
on civilians a ration which is only just enough for their needs. In every
case where British soldiers persuade a civilian baker to sell them flour
or bread they are depriving the inhabitants, mostly women & children, of
food. This also applies to meat which although not rationed is difficult
to obtain.

The Army Commander trusts to the honour of the troops not to buy
these foodstuffs which are only barely sufficient for the needs of the
families of their comrades of the Belgian Army.

2. Applications are invited from members of the A.I.F. with Engineering
or Technical qualifications with a view to their being trained for post
war employment in Australia in connection with the Commonwealth Arsenal.
Further particulars may be obtained on application to the Orderly Room.

3. LEAVE.

Lieut-Colonel J.A. James returned from 14 Days Leave to NICE on 15-2-19.

4. RAILWAYS. Damage to stock and removal of fittings. The following is

an extract from a report on the condition of a leave train on its arrival at the Base:-

Dirty-Many stoves missing-Many stove pipes missing where stoves have been left. Benches have been ~~XXXXXX~~ burnt in several trucks. First class French coach D.P.Y. 140 has been entirely gutted: not only have cushions been taken but the general structure of the inside of the coach has been destroyed apparently with an axe. All windows broken- sashes, straps, cords, and curtains cut out or in other ways destroyed. The coach is in a disgraceful state and is certainly of no use on the train.

The above is only one of many similar reports which have been received of damage being done to railway stock of trains employed for the movement of personnel both for demobilisation and leave. The damage usually takes two forms, either damage done by carelessness, such as broken windows and doors of passenger stock, or damage due to deliberate abstraction of fittings, such as stoves, seat cushions, etc.

The damage has lately reached such proportions that it is impossible to effect repairs, or to replace fittings sufficiently quickly to maintain the stock in condition, and considerable hardship is inevitably caused to troops who have subsequently to use the damaged trains, more particularly in cold weather. Damage of this character can be avoided. Deliberate damage is caused by a small minority who do not appreciate the hardships they inflict on their comrades by their action. Damage caused by carelessness is only the result of thoughtlessness. All ranks are therefore urged in the general interest to do everything in their power by loyal co-operation to maintain trains in the best possible condition.

4th. Aust. Div. H.Q. 4-2-19. AL-1-314.

Ref. Fourth Army Wire L-581 of 31st. Inst.
Leave had to be stopped recently and Demobilisation retarded owing to misconduct of men at CALAIS in which the leave men who left Calais on the night of the 30th. to rejoin Units. were involved. The conduct of leave men was particularly bad, and ringleaders have been arrested, and are being tried for mutiny. Requests of leave men were most unreasonable. They asked to be returned to England, and given 10 days extension because trains were not running on Monday night. Base Commandant, CALAIS, was prepared to inquire into the complaints of a few men who went on leave about the 12th. instant and have not been demobilised, but these men refused to submit their grievances. Take steps to bring to notice of Units to which these men are returning, the misconduct of their men.
