or  
INTELLIGENCE SUMMARY.  
(Erase heading not required.)

Signal Troop. M. R. Bde.  
N.Z. & A Div.

Army Form C. 2118.

Place	Date	Hour	Summary of Events and Information	Remarks and references to Appendices
WALKERS RIDGE.	June 1st to 30th	1915.	<p>From a communication point of view, nothing important has taken place. Visual signalling is used only <sup>within</sup> Regiments - such as to Supply Depots etc. The mark III phones are working splendidly.</p> <p>The system of bridging lines should only be employed when absolutely necessary. Faults are hard to locate when bridges are employed and "testing" is rendered very difficult.</p> <p>During the month I was issued with 3 office phones. One was used to speak to Div.Hdqs and the other two were used between the Hdqs No 4 Section and the Hdqs outposts (Otago regt) with a simple circuit.</p> <p>The sketch of communications as submitted last month is practically the same except to the outposts. A sketch of the lines there is attached. During the shelling from 5 am to 8 am on the 27th inst. our trench lines were often cut. The method of laying the cable through the trenches require thought. I think this is a case where a few bridges should be used and am going to continue using them there.</p> <p>(Sgd) G.Hulbert. Lieut. Sigl. No 4 Section.</p>
