Reference 2nd Anzac H.A. Order No. 111. dated 30/7/17.

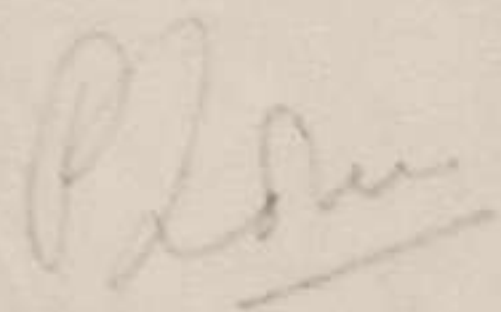

Hostile positions will be neutralized from from Zero to Zero + 2 hours as shown on attached time-table, as far as possible, one section on each.

Should visibility permit, there will certainly be many N.F. calls sent; Programme Targets will be dropped in favour of these calls, and fire will remain on N.F. for half an hour unless the N.T. call is sent down, in which case, programme will again be taken up.

Rate of fire for all targets 1 round per minute for 5 minutes, half this rate for next ten minutes and half this rate for the remainder of time.

As many of the programme targets as possible will be taken up as night lines.

It is essential that any hostile activity and barrage which may be put up during the night should be countered at once. Group Commanders will therefore ensure that fire is opened at once if any such activity is attempted, especially shortly before zero.
