and the Staff Manual respectively. Title pages will be prepared in manuscript. (Erase heading not required.) Remarks and				aries and Intelligence	PIELD AMBELANCE.				
Sautain Sautain The Ambulance began year 1919 with a personnel much reduced in numbers. The work to be carried out consisted of clearing a very large and scattered area and evacuating to C.C.S. at Charleroi or Mauberge distances respectively 35 and 30 Kilometers. A hospital of 50 beds maintained at Sautain for cases which were likely to recover quickly. One Section equipment and horses less 2 G.S. wagons handed in This relieved somewhat the strain of obtaining transport personnel. The section equipment had later to be recovered (less harness already sent to Base) and had to proceed by road to Abbeville. This changing of plan, necessitated considerable difficulty. Education Scheme although continually suffering loss from return of men and instructors to Australia, has nevertheless carried on with great success. A large number of well attended classes being available. Library and gear also very satisfactory. Authority given and used in making 1 Sgt. and 2 Cpls. with extra regimental rank. A station for 50 beds and Blue Light establishment opened at Beaumont by this ambulance. The staffing of the station presented difficulties owing to shortness of personnel but was very satisfactorily carried on though with such limited numbers. Demobilisation. Demobilisation. The strength of Unit at this time approximately 4 off. and 100 O.R. 32nd Dental Unit. The strength of Unit at this time approximately 4 off. and 100 O.R. 32nd Dental Unit.
