3.10 AM 3¹/₂ Battery R.F.A

The smoke Barrage put up at commencement of attack was a great success & it completely covered the approach of the tanks which operated with the Infantry very successfully.

The Barrage was excellent & the shooting was very good & the lifts were done very neatly our infantry spoke very well of the shooting, one tank got too close to our barrage & was hit & put out of action.

6.0 AM

The enemy shelled the ground taken by us rather heavily at first but the firing died down & eventually stopped at 8 AM.

Our aircraft co-operated ~~with~~ well with our Infantry

21
flying very low & using their
handheld guns freely upon the
enemy. They also supplied the
Infantry with ammunition, drop
from above connected to a parachute.

Our Infantry consolidated the 3rd
objective & held the line firmly.

No enemy aircraft were seen until
about nine o'clock A.M.

Only a few S.O.S. Rockets were
sent up from the enemy's line
suggesting the attack came as
a complete surprise to him,
& his Artillery support at
first was very poor indeed
but gradually strengthened.

Enemy planes directed fire on
to the damaged tank but did
not hit it.

Enemy shelled Hamel with
5'9" bearing taken of shelling
113° grid.
