PERSONNEL.
OFFICERS. Capt. P.A.Morris went on leave early in the month and then to a post Graduate Course for Medical Officers in Cairo. Capt. F.H. Wallace arrived on the 27th and took duty in the Venereal Wards. The work at this time was very heavy; the necessity for Officers perform--ing small duties away from the Hospital such as attendances at Invaliding Boards at Anzac Training Centre, & Supply Boards at Moascar served to increase the pressure. An arrangement by which an Assis--tant Orderly Officer was detailed from "A" Details Camp, Anzac Training Centre was invaluable in enabling me to tide over the shortage of Officers.

OTHER RANKS. These now consist of 87 "A" Class A.A.M.C. men. 4 "B" Class A.A.M.C. men 22 A.A.M.C. men attached and 23 "B" Class men attached. The Sickness Rate has been high.

SUBSISTENCE. The cost of Officers for December was 3/5.194 per day and for other ranks 1/9.508 per day. The cost for January has been 3/9.839 per day and for other ranks 2/0.463. This increase in cost may be due in a slight degree to increase in the demands of the Medical Officers but is mainly due to demands being better met by the A.S.C. Supply Depot in January.
Since 28th January the Commissioner of the Australian Red Cross Society has arranged to supply 1000 oranges weekly for patients.

BUILDINGS. On 23:1:1919 information was received that an Open Air Stage would be erected at a cost of £197. The G.O.C., Canal Zone offering to find £150 of the cost if I could find the balance. I accepted the offery and arranged with Major J.H.Preston the Austra--lian Red Cross Commissioner to find the balance. At the time of writing (14:2:19) nothing more has been done and it is now felt that the expenditure would hardly now be justifiable.
On 16:1:1919 Huts for a "V" Block Operating Room and for Serious Cases arrived at Ismailia. These have not yet been erected.

LABORATORY WORK. Bloods for Wassermann Reactions have again been sent to the 14th Australian General Hospital since 27:1:1919. Citadel Hospital did not send its reports back for at least 8 and sometimes 10 days, and considerable difficulty resulted.

GENERAL REMARKS. The number of patients passed through the Hospital has been 618 admitted and 625 discharged. Of these 63 have been embarked for Australia; 147 have been transferred to the 14th Australian General Hospital. ~~68~~ 64 patients were awaiting embarkation on 31:1:1919.

SURGICAL SECTION .

Compared with recent months the amount of work is a little less; but casualties resulting from games especially football have been very numerous and often severe.

The work of the personnel has been excellent.

8B

MEDICAL SECTION.

The number of Malarial Cases admitted shews very little, if any, increase. All were relapses. The method of treating the original attack (i.e. quinine given orally or intramuscularly) does not apparently influence prognosis as far as recurrence is concerned.

Two cases of Bronchopneumonia ended fatally. Isolated cases of Influenza are still admitted. The provisional diagnosis being generally "Malaria". They have all been very mild . One patient was operated on (resection of ribs), for Empyema Thoracis. He is doing well. An epidemic of measles has broken out in the Camp. Some of the cases are undoubtedly ordinary measles, while others are typically Rubella and several seem to be rather a mixture of both. The number of admissions for Diphtheria is diminishing.

The ward orderlies have carried out their work satisfact-orily. I particularly wish to mention Smith Oxley & Horne.

see also notes following X Ray Report. (Sgd) W.G.FORDE Major.

PATHOLOGICAL DEPARTMENT.

The work was rather heavier than last month but though the Medical Officer in charge was absent on leave for 9 days Sgt Stephens carried on successfully.

Post Mortem dissections were made of two patients dead of Broncho pneumonia (7/1096 Tpr. Locke J. C.M.R., N.Z.E.F. on 25:1:1919 and 43744 Tpr. McLiver H.F. Engrs N.Z.E.F. on 27:1:19). In each the pathogenic germ appeared to be the pneumococcus but there was a rapid spread of other bacteria, in the first case of b.c.c. and in the second of a large saprophyte. No Malarial parasites and no evidence of adrenal disease were found in either case. The pulmonary inflammation was lobular double & extensive. The duration of illness in the second case was unusually short, less than forty eight hours. The table of Laboratory examinations is appended.

On 7;1;19 S/Sgt. W.E.Foster of this Unit reported sick and was admitted to Hospital. He has since been boarded for Australia. On 24;1;19 pte Robertson, Orderly of this Unit injured his ankle and was admitted to Hospital. He is still off duty.

S/Sgt. N.J.Clark went on leave on 31;1;19 and is to return on 9;2;19. His work is being done by S/Sgt. Glennie of the Dental Hospital Moascar. He has not been taken on the strength of this Unit officially but reports daily for duty.

The Metal Dental Chair on loan from the Dental Hospital Moascar has been returned it being replaced by a portable wooden one. At present the only equipment on hand which does not belong to this Unit is a student's Cabinet which cannot be replaced from Medical Stores.

With the exception of three men who are to have dentures made, all the patients who have been examined and who have reported for treatment voluntarily are under treatment.

The work done by the Unit for the past month is as above.

6. SPECIAL ORDER OF THE DAY. By General Sir H.H.H.ALLENBY. G.C.B., G.C.M.G., COMMANDER IN CHIEF, EGYPTIAN EXPEDITIONARY FORCE.

I wish to remind all ranks serving under my Command that during the trying & unavoidably extended period that must elapse before the demobilization of the EGYPTIAN EXPEDITIONARY FORCE can be completed, the good name of the British Army depends upon the individual conduct of each member of the Force in the various Countries now in our occupation.

Courtesy & consideration to the inhabitants of these Countries were never more essential, even during the period of active operations, than they now are, and I feel certain that I can rely on every member of this Force to maintain the traditions of the British Army in this respect.

In these Countries special temptations exist with regard to WINE AND WOMEN. Both must be resisted. Our Relatives and Friends are anxiously waiting our return Home, and they will expect to find all those of us who have escaped wounds in action withem our physical & our moral energies unimpaired. Treat all women with courtesy, but shun all undue intimacy. Remember the temptations, which, when encountered, is hard to resist, is often easy to avoid.

Final impressions are usually the more lasting; and on the behaviour of the Troops during the present period will depend the final impression left by the British Army on the inhabitants of these Countries.

The honour of the EGYPTIAN EXPEDITIONARY FORCE is in your Hands. I do not fear to leave it there.

(sgd) H.H.H.ALLENBY, General
COMMANDER IN CHIEF.
