E33/2

Place	Date	Hour	Summary of Events and Information	Remarks and references to Appendices																												
MEJDEL (Palestine) (Aerodrome)			<p>The Unit was stationed at an Aerodrome 2 miles North-East of the town of MEJDEL near the shores of the MEDITERRANEAN SEA throughout the month of FEBRUARY, 1918. This aerodrome is undulating, and is situated in a small ridge of hills which stand higher than the surrounding country, consequently it drains well, and on no occasion when weather was otherwise favourable was it impossible to carry out the work owing to having wet ground. The aerodrome and camp site is sandy - the surrounding flat country is a dark clay soil and very sticky.</p>	Appendix 10.																												
(Organisation of Flying Corps on Palestine Front)			<p>The following is the organisation of the Flying Corps on the Palestine Front during the month:-</p> <p style="text-align: center;"><u>PALESTINE BRIGADE, R.F.C.</u></p> <table style="width: 100%; border-collapse: collapse;"> <tr> <td style="text-align: center; border-top: 1px solid black;">I</td> <td style="text-align: center; border-top: 1px solid black;">I</td> <td style="text-align: center; border-top: 1px solid black;">I</td> <td style="text-align: center; border-top: 1px solid black;">I</td> </tr> <tr> <td style="text-align: center; border-top: 1px solid black;">40th (Army) Wing, R.F.C.</td> <td></td> <td style="text-align: center; border-top: 1px solid black;">5th (Corps) Wing, R.F.C.</td> <td></td> </tr> <tr> <td style="text-align: center; border-top: 1px solid black;">I</td> <td style="text-align: center; border-top: 1px solid black;">I</td> <td style="text-align: center; border-top: 1px solid black;">I</td> <td style="text-align: center; border-top: 1px solid black;">I</td> </tr> <tr> <td style="text-align: center;">No. 111 Squadron, R.F.C. WAR DIARY

FEB. 1918

APPENDIX - 1 -

(MONTHLY REPORT.)

Report on No.1 Squadron, A.F.C.,
for
Month of February, 1918.

E 33/16
FEB 1918

1. DESIGNATION. During the month the name of the Squadron has been altered from :-
No.67 Squadron A.F.C. to No.1 Squadron, A.F.C.
2. LOCATION. Throughout the month of February the Squadron has been stationed at MEJDEL.
3. OPERATIONS. The work of the Squadron for the month has consisted of, Strategical Reconnaissance, Bombing, Photography and escort to same.
Weather prevented flying on 9 days during the month.

1. Strategical Reconnaissance.

The areas reconnoitred were :-

- (a) Country behind the enemy line to the line TULKERAM-NABLUS.
 - (b) DEAD SEA-JORDAN-JERICHO-SHUNET NIMRIN area.
 - (c) KERAK-KUTRANI-TAFIL area.
- (a) and (b) were reconnoitred on alternate days except from 20th-24th when (b) was reconnoitred when possible twice daily in co-operation with operations by Desert Mounted Corps and 20th Army Corps against JERICHO.
(c) was reconnoitred three times.

2. Bombing.

Bomb raids, consisting usually of 6-7 machines and escort were carried out on the following objectives :-

<u>Date.</u>	<u>Objective.</u>
3.2.18.	Camps at MISKE.
4.2.18	"
12.2.18	Station and Camps at KUTRANI (HEJAZ Rly.)
13.2.18	do.
20.2.18	Camps and Dumps at SHUNET NIMRIN.
25.2.18	Billets and troops at KERAK.

3. Photography.

The demand for Photography this month has been smaller and the weather less favourable than last month.

Eighteen photographic reconnaissances were carried out and approximately 194 square miles of country covered in addition to a number of aspect photos of various places of importance.

4. Artillery Co-operation.

Throughout the month 14 stations have been maintained from the unit working with batteries of the R.H.A., R.F.A. and R.G.A. on this front - an increase of two stations over January.

In addition to the above Artillery Co-operation the following Wireless work has been carried out :-

The usual continuous watches for Hostile Aircraft warnings have been kept and Press News received from Transocean (BERLIN), Horsea (ENGLAND), MALTA and G.H.Q. All H.A. warnings are now obtained for the Wing by this unit.

Experiments were carried out with a high power wind driven aeroplane transmitting set and communication obtained up to a distance of 60 miles.

/4. Hostile Aircraft

FEB 1918 E 33/17

4. HOSTILE AIRCRAFT. The work of the Squadron has not been interfered with during the month by Hostile Aircraft. When met, enemy machines have either made off at once or have done so at the first sign of fight from our Escort Machines.

5. EQUIPMENT. During the month all remaining R.E.8s and B.E. 12As have been handed over to various R.F.C. Squadrons and at 28.2.18, the unit was equipped as follows:-

- 11 Bristol Fighters (Mark I Rolls-Royce)
- 4 Martinsydes (160 HP. Beardmore)
- 1 B.E.2E (not a service machine.)

It is expected to replace Martinsydes and to complete the establishment up to 18 by the receipt of Bristol Fighters (Mark III Rolls-Royce Engines).

6. OFFICERS. (a) Movements
Lieut. W.A.Coates, E.O.(Stores) proceeded to Port of Embarkation for England on 20.2.18.

The following Officers, having completed their Training, reported for Duty:-

Observers: Nil.

Pilots:

- Lieut. F.W.F. Lukis
- " E.S. Headlam
- 2/Lieut. H.A. Blake
- " D.R. Dowling
- " J.M. Walker
- " S.W. Robinson
- " R.S. Adair
- XXI " R. Burton

(b) Promotions
The following promotions were notified during the month :-

<u>To be Lieutenants</u>		
2/Lieut. L.E. Taplin		29.12.17
" S.A. Nunan		1. 1.18
" G.L.F. Rutledge	14.12.17	
" J.K. Curwen-Walker	20.12.17	
" L.P. Kreig	20. 1.18	
	(8th Light Horse, attached.)	

(c) Gradation
The following, having qualified, were graded as qualified Observers:-
Lieut. E.B.S. Beaton

7. REINFORCEMENTS. On the 25th February, 47 Other Ranks proceeded to Moascar to await embarkation to England, having been relieved by reinforcements from Australia and England referred to in the report for January.

8. CASUALTIES. 13.12.18. 2/lieut. H.S.R. Maughan (Pilot) Wounded remaining at Duty (Aeroplane accident). Hand burnt through accidental explosion of Very's cartridge in the machine in the air.

9. HONORS, AND AWARDS etc.
The following were mentioned in the despatches of General Sir A. Murray dated 28.6.17:-
Major R. Williams, D.S.O No. 1 Squadron, A.F.C.
Captain A.W.L. Ellis, M.C. do.
Capt. A.M. Jones, M.C. do.

RESUME OF OPERATIONS OF THE 40TH WING

ROYAL FLYING CORPS.

1.2.18 to 7.2.18.

E 33/25

FEB 1918

1. GENERAL.

Weather entirely prevented reconnaissances on two days during the week, and seriously interfered with it on the third.

2. RECONNAISSANCE.

Owing to weather conditions only two full reconnaissances of each area were carried out.

JERICHO-JORDAN AREA.

JERICHO camps were practically stationary; these numbered 110 Tents and Shelters on the 31st., and were seen to contain 100 Tents and Shelters on the 1st.

The camps at GHORANIYEH were reported diminished on the 3rd (200 Tents and Shelters as against 300). No other important changes were reported in camps. KABN EL MUJAHID was reconnoitred on the 3rd but no dumps were seen, and the road between this place and GHORANIYEH shows no sign of heavy traffic; it is reported as a good dry weather road but not metalled. As last week very little transport movement was seen in the area, and this was entirely horse transport. A few small bodies of cavalry, numbering between 20 and 50, were seen at various points between TALAT ED DUMM and the JORDAN, the only important infantry movement being 150 infantry who were proceeding West on the TALAT ED DUMM-JERICHO Road on the 1st.

ATTARA - SEBUSTIE - RAMIN AREA.

NABLUS remains normal and no important changes of camps are reported.

Very little motor transport was reported on the roads; altogether only 14 being seen between ATTARA and NABLUS in the two reconnaissances. On the other hand an unusual amount of horse transport was observed.

ANTOTA - TULKERAM - KALKILIEH AREA.

Camps at MISKE were seen to have been largely increased; on the 2nd there were 400 Tents and Shelters around this place (an increase of 150) but after the bomb raid which took place on the 3rd, a portion of the MISRE camp appears to have been moved to the IRTAH - FUNDISIA - FERON area, an increase of 150 Tents and Shelters being reported there and a corresponding decrease at MISKE.

The RAMON trenches are reported as being strengthened and communication trenches are being made to the North.

Transport movement in the area consisted almost entirely of horse transport, though quantities of motor transport continued to be seen parked both in this area and around NABLUS.

/On

E 33/26

FEB 1918

On the 4th as many as 120 horse transport were seen on the road between TULKERAM and KALKILIEH, of which 60 per cent were moving North. New horse lines were seen for 140 horses one mile North of HASLEH. No troop movements were reported.

The following rolling stock has been reported during the week :-

<u>STATION IN</u>		
<u>098.D.33.</u>	2.2.18	nil
	4.2.18.	20
<u>098.D.22.</u>	2.2.18.	20
	4.2.18.	40
<u>TULKERAM.</u>	2.2.18.	30
	4.2.18.	40
	6.2.18.	15 (no engine).
<u>NABLUS.</u>	4.2.18.	nil
<u>JENIN.</u>	6.2.18.	nil
<u>KALKILIEH.</u>	6.2.18.	5

3. BOMBING.

On the 3rd five machines dropped 56 20lb bombs on camps and troops at MISKE with exceptionally good results; 32 direct hits were obtained on camps. The objective was a new camp which had been reported on the previous day.

On the 4th five machines dropped 56 20lb bombs on the same objective, obtaining 18 direct hits.

4. COMBATS IN THE AIR.

On the 1st a BRISTOL FIGHTER, which was acting as escort to the Photographic Reconnaissance, was attacked by a Scout machine of a formation of four. The Scout dived on his tail and opened fire with double guns, but on the Observer of our machine firing a burst he was driven off and withdrew Northwards with the remaining machines of the formation.

On the same day the pilot of a S.E.5a, while on patrol duty near ARSUF, saw four enemy aircraft and gave chase. The enemy immediately began to descend Northwards, and the S.E.5a attacked the rear machine which spun and was lost to sight. Our machine then engaged two others, pursuing one to a distance of 20 miles N.E. of TULKERAM, when the pilot of the S.E.5a was obliged to give up the chase owing to gun trouble. Three of the enemy machines appear to have descended in the neighbourhood of TULKERAM aerodrome, whilst the fourth seems to have been making for either EL FULEH or JENIN.

5. PHOTOGRAPHY.

During the past week owing to low clouds and heavy rain photography was only possible on three days. In spite of this, a large area of country was photographed in the DEIR DIWAN - SINJIL and JERUSALEM - JERICHO areas.

Number of photographic reconnaissances	-	8
Number of negatives registered	-	192
Number of prints turned out	-	994.

RESUME OF OPERATIONS OF THE 40th WING - ROYAL FLYING CORPS.

8.2.18 to 14.2.18.

E33/28
FEB 1918

1. GENERAL.

Weather entirely prevented reconnaissance on 4 days during the week.

2. RECONNAISSANCE.

There were 9 reconnaissances carried out during the week.

Two reconnaissances of EL KERAK - KUTRANI Area. GHOM EL RADITE appears to be practically deserted, no movement of any description seen. Road from EL LEJJUN to KUTRANI is reported as probably fit for light wheeled transport and as being metalled in parts. Slight cavalry movement reported between LEJJUN and KUTRANI. KUTRANI is surrounded by light earth works and contains a cavalry camp of 40 tents and shelters and 100 horses and an infantry camp of 50 tents and shelters. 300 yards North East of station one hangar and one enemy two seater was seen.

JERICHO-JORDAN AREA.

JERICHO camps show a slight decrease on 13/2/18. 2 new camps, total 70 bell tents were reported at KURUNTUL on 13/2/18.

15 dumps were reported to have been removed from RIJH EL BAHR and tents and shelters to have decreased by 20 13/2/18.

A decrease of 20 tents and shelters was reported at GHUZZE MIERTS on the 13th.

JERICHO-JORDAN ROAD reported very bad in places. Throughout area very little movement.

ATTARA-NABLUS.

Camps remained normal. Increase of motor transport movement, 14 reported between HUWARA and NABLUS on the 12th. Considerable movement in area on both 10th and 12th. Largest bodies seen were column of 800 infantry, 600 cavalry, 20 horse transport facing South 12/2/18 and 600 infantry stationary in column in NABLUS. Horse transport in small columns were seen at fairly frequent intervals. Only one really good road was reported running East from the main road towards the JORDAN and that runs North East from HALAFA. Another well used but very cut up road runs East from LUBBAN.

NABLUS exclusive-TULKERAM.

HAFIDIK-EL FUNDUK ROAD first 2 miles bad and remainder reported as being in excellent condition.

A siding is reported just West of ANEETA close alongside road.

Increase of 20 tents and shelters at TULKERAM between 10th and 12th inst. and a further increase of 20 tents and shelters on the 14th. Remaining camps and dumps appear normal.

KAKON-KALKILIEH SREA.

Work is being continued on trench system running East and West through KAKON; short lengths of trench are gradually being extended towards each other and communication trenches being elaborated behind the main lines. The only tents and shelters reported along this line are at KAKON. There is no apparent reason for the Railway line from TULKERAM through KAKON being

/in

in disuse but no rolling stock have been reported.

A camp of 70 tents and shelters was reported at SHUWEIKE on the 10th and confirmed on the 11th.

A slight decrease in shelters was reported in area 084-Q.R.S.T on the 12th, also a decrease of 50 tents and shelters at MISKE. An increase of 20 tents and shelters was reported at HABLEH, and a decrease of 30 at HULUNSAWIE on the 14th.

Considerable infantry movement was reported at EL TIREH and 200 cavalry going North on the 18th.

Roads leading from main road to ET TAIYIBEH appear to be very much used; very little progress appears to have been made in repair to main road just North of KALKILIEH.

The following rolling stock has been reported during the week :-

<u>KALKILIEH</u>	10/2/18.	10	
	12/2/18.	4	
	14/2/18.	3	
<u>KAKON</u>	10/2/18.	6	
<u>TULKERAM</u>	10/2/18.	6	
	12/2/18.	50	
	14/2/18.	48	(made up train of 28 with engine facing South).
<u>STATION IN 098.D.35</u>	10/2/18.	Nil.	
	12/2/18.	19.	
<u>STATION IN 098.D.22.</u>	10/2/18.	20	
	12/2/18.	17	
<u>STATION IN 098.N.31.</u>	12/2/18.	Nil.	
<u>ANEETA.</u>	12/2/18.	1	
<u>EL KUTRANI.</u>	12/2/18.	46	(approximately)
	13/2/18.	90	(all carriages)
	13/2/18.	25	(train of moving N, carriages).

3. BOMBING.

On the 12th 5 machines dropped 52 20lb bombs on camp and rolling stock at KUTRANI with good results :- 14 direct hits being registered on railway line, rolling stock, railway buildings and camps.

On the 13th the above raid was repeated but only two machines reached the objective owing to heavy clouds and engine failure, 24 20lb bombs were dropped, 2 direct hits were registered and 4 within effective range.

4. COMBATS IN THE AIR.

On the 12th a BRISTOL FIGHTER whilst on patrol North of LATRON engaged a formation of 2 two-seaters and 5 scouts. The latter opened the engagement by diving out of the sun, the Observer of the BRISTOL FIGHTER opened fire and the leader went down in a spin (probably controlled). The BRISTOL FIGHTER then opened fire with front gun and another H.A. went down spinning, a third made for home. The Pilot of the BRISTOL FIGHTER then attacked the 2 two-seaters who dived towards TULKERAM into the clouds, the remaining 2 Scouts, when attacked, escaped by climbing away towards the North and the BRISTOL FIGHTER returned to his patrol.

5. PHOTOGRAPHY.

FEB 1918

During the past week, photography was only possible on two days.

An area West of the JERUSALEM-NABLUS ROAD between AIN YEBRUD and EL LUBBAN was photographed, and also aspects were taken of the Bombing raid at EL KUTRAM.

No of photographic reconnaissances	7
No of negatives registered	116
No of prints made	2,096.

RESUME OF OPERATIONS OF THE 40TH WING ROYAL FLYING CORPS.15/2/18 to 21/2/18.

E 33/31

FEB 1918

1. GENERAL.

Weather was good at beginning of the week, gradually getting worse till 21/2/18 when no reconnaissance was possible.

2. RECONNAISSANCE.

There were 12 reconnaissances carried out during the week.

(a) WESTERN RECONNAISSANCE. (visited 3 times).

Camps throughout area have remained normal with the exception of a slight decrease at MISKE and KHAN LUBBAN on 15/2/18, and a slight increase in FERON area on the same day.

A new camp was reported at DEIR AZFIN of 160 Tents and Shelters on 17/2/18, and a new hospital in O98 L 20.

The 30 dumps and railway siding usually reported at KAKON are in reality at a small unmarked village in O84 U lld. KAKON is still reported as 20 Tents and Shelters.

TRANSPORT. Considerable increased activity has been observed in transport movement; the largest column reported consisted of 68 horse transport moving down the TULKERAM-NABLUS ROAD. A count of horse transport and motor transport observed on roads and parked shows 15/2/18 118 motor transport and 320 horse transport, and on 17/2/18 144 motor transport and 200 horse transport.

ROADS. ATTARA-NABLUS ROAD reported to be very cut up.

NABLUS-TULKERAM ROAD under repair throughout its length. The most used road leading West from the TULKERAM-KALKILIEH ROAD runs from Y 5b to DEIR ASFIN.

TRENCH LINES. Sketch plan of KAKON system was submitted corrected up to 18/2/18.

O98 J 27-113 O 23, an almost continuous line has been made (reported 20/2/18).

EASTERN RECONNAISSANCE. (visited 7 times).

Area has gradually changed owing to tactical machines covering more country on account of present operations.

CAMPS. At the beginning of the week JERICHO camps were normal, and on the 19th showed signs of decreasing. Camp round JORDAN BRIDGE remained normal.

Camps at HIJM EL BAHR remained normal until 19/2/18 when they were reported to be decreasing and on 20/2/18 largest shed and one large boat reported to be burning. Towards the end of the week the boats were being removed to the North East corner of the DEAD SEA and anchored there.

SHUNET NIMRIN camps have gradually increased and on the 20th were reported to be 250 Tents and Shelters, 13 Marquees and numerous small dumps, this camp straggles along road side from 127 O 29-P 24.

On 13/2/18 square cuttings were observed on either side of the JORDAN about 100 yards North of main Bridge, and on 19/2/18 a Pontoon Bridge was reported to have been erected between these two cuttings.

Various new pieces of trench line have been reported as follows :-

19/2/18	between	127 P 16 and 23.
19/2/18	"	113 L 10 and is astride road.
20/2/18	127 P 12-U 19-W 9	with 200 men working on them.

/No

: FEB 1918

E 33/32

No movement has been reported on any roads leading to JERICHO from the North or North West although machines have been specially detailed to watch this area as far North as a line drawn East and West from NABLUS to JORDAN RIVER.

The only movement reported on the SHUNET NIMRIN RS SALT road was 6 horse transport on 20/2/18.

The following rolling stock had been reported during the week :-

<u>STATION IN</u>	15/2/18	13 (1 engine)
<u>098 D 35.</u>	17/2/18	16
	18/2/18	10
<u>STATION IN</u>	16/2/18	40
<u>098 D 22.</u>	17/2/18	30
	18/2/18	30
<u>STATION IN</u>	15/2/18	Nil.
<u>098 H 31.</u>		
<u>ANESTA</u>	15/2/18	5
<u>TULKERAM</u>	15/2/18	30 (2 engines)
	17/2/18	30
	18/2/18	10
<u>KALKILIEH</u>	17/2/18	14
	18/2/18	10

3. BOMBING.

One raid was carried out on 20/2/18 by seven machines in very bad weather. Two machines landed with engine trouble and one was crashed. Four machines reached the objective :- (SHUNET NIMRIN CAMP) and dropped 36 20 lb. bombs obtaining 8 direct hits.

4. COMBATS IN THE AIR.

On 16/2/18 2/Lt. PERCIVAL, whilst on patrol East of LUDD in an S.E.5a machine, engaged a hostile formation of five single seaters and 2 two-seaters. Our pilot opened fire on the two-seaters and then turned to engage the five scouts who were all diving on him. On seeing him turn they all turned North and the S.E.5a followed and opened fire on one of the scouts. The hostile leader and two others then turned and dived on him, a good burst was obtained on the leader and the S.E.5a's gun stopped with a No.3 stoppage. Whilst correcting this the machine got into a spin and when pulled out found that the scouts had got away to the North and the two-seaters to the South.

On 17/2/18 two NIEUPORT SCOUTS (Pilots Lts. GREEBY & GLEDHILL) engaged an enemy two-seater over SAMARIA. On seeing the NIEUPORTS the H.A. dived for the clouds. Both scouts got bursts of fire into him but he managed to escape into the clouds.

Major STENT flying an S.E.5a on patrol over JERICHO area on 19/2/18 met a H.A. two-seater who had apparently completed his reconnaissance. Flying head on, the S.E.5a opened fire and held on to his course forcing the H.A. to turn, S.E.5a immediately closed in under his tail and shot him down with his top gun. H.A. crashed $1\frac{1}{2}$ miles North of BIREH.

E 33/33

5. PHOTOGRAPHY.

FEB 1918

During the past week, photographs were taken with a view to completing the area West of the JERUSALEM-NABLUS ROAD between AIN YEBRUD and EL LUBBAN, and in spite of the heavy winds this object was achieved.

Photographs were also taken of a narrow strip of country between NUMMON and JALUD.

The photographs have been supplied to the Survey Coy R.E., for the purpose of map production.

Number of photographic reconnaissances	5
Number of negatives registered	164
Number of prints made	3492

RESUME OF OPERATIONS OF THE 40TH WING, ROYAL FLYING CORPS.22.2.18 to 28.2.18

E 33/34

FEB 1918

1. GENERAL.WEATHER.

Rain clouds and storm entirely prevented reconnaissance on three days, and seriously interfered with it on three others, so that only one reconnaissance was carried out under favourable conditions for observation.

2. RECONNAISSANCE.

(By No.1 Squadron, A.F.C.)

THE EASTERN AREA. On the 24th a reconnaissance of the Jordan District reported the camps at SHUNET NIMRIN apparently normal. Further work was seen to have been carried out on the trenches East of SHUNET NIMRIN between 127 U 19 and W 8 and there appeared to be an increase behind these camps but most of the area was obscured by cloud. The pontoon bridge North of GHORANIYEH was seen to have been removed.

On the following day it was possible to make a detailed count of the Camps to the East of the Jordan and they were seen to have increased considerably. There were 100 tents and shelters in 127 U 35 and 31 to the South East of SHUNET NIMRIN and the SHUNET NIMRIN Camps aggregated 369 tents and shelters. The GHORANIYEH Camps amounted to 72 tents and shelters and the gun positions in 127 O 27A and Q2A were seen to be occupied.

No important troop movements were reported in the area.

During the bomb raid on KUTRANI (23.2.18) by a machine from 142 Squadron, R.F.C., 100 Rolling Stock were observed at the station. The hangars at the aerodrome had increased to five and two machines were seen on the ground.

THE WESTERN AREA. Owing to unfavourable weather conditions it has been difficult to follow changes on camps. No important increases or decrease have occurred. The following new trenches were observed :- at HAFIBIA two short lengths in 098 U 3 and 4 facing South, and a new trench running along the gardens to the South of KAKON. The KAKON System is being worked on and extended. On the 24th two bodies of cavalry amounting in all to 110 were seen moving South on the road between NABLUS and ATTARA. Otherwise no troop movements were reported. Motor and horse transport movement was normal.

The following rolling stock was observed :-

<u>STATION IN</u>	24/2/18	50 (approximately).
<u>098.D.23</u>	26/2/18	Nil.
	28/2/18	30
<u>Between FURDISIA</u>	24/2/18	10 (1 train of moving N.)
<u>and TAIYIBEH.</u>		
<u>098.H.31.</u>	24/2/18	Nil.
<u>KALKILIEH.</u>	24/2/18	50 (at station).
<u>ON LINE</u>	26/2/18	20 (train of moving in
<u>N. of D.23.</u>		direction of D.23 station
<u>STATION IN</u>	23/2/18	55
<u>098.D.50.</u>		
<u>TULKERAM.</u>	25/2/18	30
<u>KUTRANI</u>	25/2/18	100

/3. BOMBING

E 33/35

3. BOMBING.

- FEB 1918

On the 25th two machines from No.1 Squadron, A.F.C. attacked the citadel at KERAK dropping 2-112 lb bombs and 12-20 lb bombs. One direct hit was obtained on the citadel with a 112 lb bomb.

On the same day one machine from No.142 Squadron, R.F.C. dropped 8-20 lb bombs on EL KUTRANI station and aerodrome, three direct hits being obtained on the station.

4. COMBATS IN THE AIR.

On the 23/2/18 pilot of a Nieuport Scout (Capt.R.M.Drummond, D.S.O., M.C., No.111 Squadron R.F.C), observed three Albatross Scouts flying South in the neighbourhood of RAMLEH so attacked them from above and behind whereupon all three machines dived at great speed for TULKERAM. Capt.Drummond followed and fired about 90 rounds into one machine which went down in a vertical dive apparently out of control and was last seen still diving at a low altitude about 8 miles North of KALKILIEH. Our pilot continued diving upon the other two which he overtook, but being unable to change his drum owing to the speed of travel, he had to pull out of the dive and afterwards had to return owing to shortage of petrol.

On the same date (2/Lt.R.J.P.Grebbs No.111 Squadron R.F.C) piloting a Nieuport Scout engaged two enemy two-seaters over our lines in the neighbourhood of NAHR SUKEREIR. The first made straight for his own lines and an engagement occurred with the second during which about 200 rounds were fired from our machine which finally had to break off the fight owing to lack of petrol.

5. PHOTOGRAPHY.

(By No.1 Squadron, A.F.C)

During the past week photography was only possible on two days. Photographs were taken with a view to completing the area covered by the two new additions of the 1/20,000 map of MUKHMAS and MUGHEIR which have been issued provisionally, but owing to low clouds this area was not quite completed.

Aspect photographs were also taken of KERAK, POINT COSTIGAN, DURA and country West of the DEAD SEA.

E 33/87

Squadron: No. 67 Squadron, A.F.C.

Date: 1.2.188

Type and No. of Aeroplane: BRISTOL FIGHTER 1148

Time: 1445

Armament: 1 Vickers, Double Lewis (Observer's)

Duty: Escort Photography

Pilot: Lieut. J.H. Butler

Height: 12,500 feet

Observer: Col. Borton D.S.O.

Locality: DEAD SEA, S.E. JERUSALEM.

Remarks on Hostile Machine:—Type, armament, speed, etc.

1 two-seater, 3 scouts DIII type.

Narrative.

While escorting 1 R.E.8 and 1 Martinsyde on photography, Colonel Borton and I were attacked by 4 machines (hostile). 1 machine, a scout, dived on our tail and opened fire with double guns. Colonel Borton opened fire on this machine with double Lewis guns and drove him off. The other machines did not dive, remaining at 500 to 800 feet above us. The 4 machines remained above for a minute or so and then picked up formation and headed North up the JORDAN VALLEY.

(Signed) J.H. Butler LIEUT.
Pilot.
