GELETROL PRODUCTION

12. The expansion of production of this product is proceeding satisfactorily. Within munition establishments, special drying arrangements are expected to increase MELBOURNE production from 4 tons to 9 tons per week. Target date for maximum production figure is 1 Sep 45. Initial experimental batches have been completed by one of the two SYDNEY manufacturers. Tests will be conducted during this week.

POL

13. Developments of POL installatiers on LABUAN and BRUNEI IS are proceeding satisfactorily. Captured enemy road tank wagons have been adapted for bulk delivery between BPS and BIPOD, saving considerable labour in transport and repack. Captured enemy POL has been examined by DADS (POL), but found suitable only for use in malaria control and for hygiene purposes.

"SNIPERSCOPE" EQUIPMENT

18. This is also known as "Tabby" or infra-red equipment which comprises a telescope and lamp used for illuminating a target and aiming and firing a rifle in complete darkness. The light emitted is not visible except with the aid of special equipment. Two equipments fitted to Gun, sub-machine, Owen, have been sent to First Aust Army for field trials.

DOZER FOR CHURCHILL TANKS

19. Orders have been placed for 12 Dozers for fitment to Churchill Tanks. Investigations are proceeding on design and production, and it is expected that first off production equipment will be available by mid-October.

TYRE REPAIRS IN AEME WORKSHOPS

21. The estimated requirement of repaired tyres (i.e. retreaded, recapped and sectional repairs) from AEME workshops for the period 1 Apr 45 to 30 Jun 46 is 46,814.

22. For the period 1 Oct 44 to 7 Jul 45, 20,515 tyres were repaired by AEME Tyre Repair Workshops. With the improved supply of repair materials, and the installation of additional plant now coming to hand, it is estimated that the output of repaired tyres will increase sufficiently to meet the above commitment.

ORDNANCE SERVICE STATISTICS

23. Average daily deadweight tonnage figures for ordnance depots and ammunition depots for the fortnight ended 12 Jul 45 were :

WORKS

BORNEO - LABUAN

26. The following is extracted from a report submitted by DADS(PCL) Adv LEC on the bulk oil installation at LABUAN :

" The main operating portion of the installation has been completed and is operating. All buildings are erected, area almost completely fenced, road circuits satisfactory, one culvert to be remade, jetty completed to take Y tankers and the drum cleaning equipment 90% constructed. It is estimated that by Jul 20 the whole installation would be completed to specifications as laid down in GHQ Op Instrn 102, the area cleaned of debris and in excellent order.

After a detailed inspection it was considered that the whole installation is in excellent condition and reflects credit on the Detachment(4 Aust Bulk Petroleum Sup Coy) and the Engineers who constructed the installation - for in spite of difficulties the erection of the plant has proceeded rapidly and efficiently without any interruption to normal deliveries. At the present moment it is undoubtedly the most efficiently designed, finished and neat utility construction in the CECE SIX operation and rightly the area is the "show" place of LABUAN."

TIMBER - SAWN TIMBER PRODUCTION BY RAE UNITS

27. The total sawn timber production by RAE units in First Aust Army and 1 Aust Corps areas for the period 1 Apr 45 to 30 Jun 45 was 4,307,000 super ft. This represents a saving in shipping of approximately 12,300 tons, and freight charges of approximately £61,500. The mainland price of the sawn timber would have been about £101,000. Of this total production, two Forestry Coys (assisted by a third for one month) contributed 3,899,000 super ft or approximately 90%.

28. Details of the production by units is as follows :

LOCATION	UNIT	SAWN TIMBER PRO- DUCTION IN SUPER FEET	TOTAL SAWN TIMBER PRO- DUCTION FOR BASE IN SUPER FEET
A. FIRST AUSTRALIAN ARMY			
AITAPE	2/2 Aust Forestry Coy (No 2 Pl)	431,600	431,600
DAGUA	2/22 Aust Fd Pk Coy	30,200	30,200
PORT MORESBY	51 Aust Fd Pk Coy	205,800	205,800
LAE	2/3 Aust Forestry Coy	1,428,000	1,925,000
	2/1 " " "	497,000	
JACQUINOT BAY	2/2 Aust Forestry Coy (No 1 Pl)	734,900	734,900
TOROKINA	2/2 Aust Forestry Coy (No 3 Pl)	807,700	957,900
	7 Aust A Tps Coy	150,200	
		TOTAL:	4,285,400 s ft
B. 1 AUSTRALIAN CORPS			
TARAKAN	2 Aust Fd Coy	21,900	21,900

TOTAL OF A AND B: 4,307,300 s ft

29. The total sawn timber production by RAE units in the Islands from the commencement of milling up to 30 Jun 45 was 19,949,500 super ft. This is the equivalent of 57,000 shipping tons, on which freight charges would have been approximately £285,000. The price of the sawn timber on the mainland would have been about £465,000.

TIMBER - TOTAL SAWN TIMBER PRODUCED IN THE ISLANDS

30. The total amount of sawn timber produced in NEW GUINEA and the Islands from the commencement of service sawmilling up to 30 Jun 45 was 67,015,500 super ft. The distribution of this total is as follows:

	Super Feet
AMF	27,040,100
RAAF	1,995,600
US Forces	37,979,800
TOTAL	67,015,500 s ft

This represents a saving in shipping of 191,000 tons and freight charges of approximately £955,000. The mainland price of the sawn timber would have been about £1,575,000.

Details of the production in the quarter 1 Apr 45 to 30 Jun 45 have been forwarded to the DCGS.

(iii) BRANCH OF THE MASTER-GENERAL OF THE ORDNANCE up to 7 Aug 45

BUCKETS, TRIANGULAR

15. .. 3-gallon bucket of triangular shape has received consideration by the Army at the request of Army Inventions Directorate. Tests have revealed the following advantages of the triangular bucket over the standard circular bucket:

(a) It is more easily carried by personnel;

(b) It hangs better against a wall;

(c) It simplifies pouring;

(d) Considerable space is saved in the packing of quantities

16. Patterns have been sealed and bulk quantities are to be purchased as maintenance issues against the normal bucket 3-gallon.

C.PES, SHELTER

17. Owing to manpower difficulties and the inexperience of manufacturers which slowed down production, the delivery rate of Copes, Shelter, has not been satisfactory to date. Action has been taken to adopt alternative methods of manufacture, and deliveries in the past two weeks have exceeded 3,000 per week. Production is expected to increase gradually to reach approximately 10,000 per week during the latter part of the current year.

OIL FIRING OF COOKING EQUIPMENT

18. A requirement exists for oil firing of cooking apparatus owing to the nature of the wood found in operational areas. Action is at present in hand to convert the following to oil firing:

(a) Ovens, steam, field, double decked (Bakers ovens)
Pressure fed oil burners.

(b) Stoves, camp, portable (Fowler type)
Atmospheric drip feed type oil burner.

(c) Trailers, 4-wheeled (Coker) (Wiles Coker) (Aust)
Atmospheric drip feed type oil burner.

19. Drawings of all conversions are in hand and in respect of (c) samples of conversion kits have been despatched by air to 1 Aust Corps area. Pilot models have been tested for (a) and (b).

TENTS, 12' X 14' (AUST) MK 2

20. In order to supplement Australian manufacture, orders were placed in USA for 25,000 Tents, 12' x 14' (Aust) MK 2 made of 12.29-oz cotton duck, rotproofed and dark toned.

21. Quantities have arrived in AUSTRALIA of which a sample is now erected for examination at No. 1 Area before issues are made.

INSTRUMENTS RECONNAISSANCE MORTAR (AUST) MK. I

22. Instruments Reconnaissance Mortar (Aust) MK I are for the purpose of selecting a site for the Mortar from which local ob- struction such as foliage can be avoided.

23. Minor difficulties in production have now been overcome and 17 were delivered this week. Future production will be at least 20 weekly.

LIGHTENED RIFLE

24. The Australian pattern Lightened Rifle has been declared a requirement for the AMF. A total of 40,000 will be procured; 12,000 of which are required by 1 May 46.

25. The rifle will be known as Rifle No. 6 (Aust) Mk I and will be fitted with the standard brass butt plate and back-sight of the No. 1 rifle. It is also intended to fit the standard No. 1, Mk. I, bayonet modified to fit the No. 6 rifle.

SMALL CRAFT DELIVERIES

26. Deliveries of small craft for week ended 4 Aug 45 were :

Workboats 40' (Standard)	2
Lighters, Philippine, 100' (Standard)	1

AEME C.DETS

28. It is proposed that the Australian Cadet Corps should contain an AEME element.

With a view to working out the necessary details to achieve this end, preliminary conferences have been held at which representatives from Directorates of Military Training, Cadet Services and Reserves, and Mechanical Engineering have attended.

This proposed scheme envisages the formation of AEME sub-units comprised of senior students of Technical Colleges, etc., who are undertaking engineering courses.

(iv) ENGINEER IN CHIEF up to 8 AUG 45

DRAE

TECHNICAL INSTRUCTIONS

29. E in C Technical Instruction No. 32 - Mechanical Equipment - is in process of revision. Meanwhile, an amendment to this Instruction dealing with Mechanical Equipment Maintenance, which will form a section of the revised Technical Instruction, has been issued. This Maintenance Section, which is complete in itself, will become effective immediately.

WORKS

SOLOMON IS - BOUGAINVILLE IS

30. In the southern sector, all road construction has been delayed 10 days due to heavy rain and floods which caused extensive damage to bridges and culverts. HONGORAI R bridge was destroyed completely and McKINNA bridge was damaged.

31. Work has commenced on the 180' Class 24 Bailey bridge over MOBIAI R; EDC 17 Aug 45.

32. Road work progress is as under :

(a) MOTUPENA to POROREI R - normal maintenance with repairs to flood damage on road and bridges.

(b) POROREI R to HARI R - new road completed 28 Jul. Washed out culverts have been replaced by temporary Cl 9 bridges.

(c) HARI R to MOBIAI R - owing to deterioration, is now passable only to tractor trailer trains. Reconditioning of old road is in progress.

NEW GUINEA - WEWAK Area

33. Repairs have been made to the HAWLIN R and WLRINGE R bridges. Equipment bridging has been used to repair flood damage at EAST HAWAIN R, KILLING CK, and LITTLE PUS LAGOON on the BUT - WEWAK L of C.

34. Weather has slowed up construction of the WEWAK-MAPRIK road. Location has been pegged to W298002 and double width road exists approx half way to that point.

35. Aust Gen Hosp Construction

- (a) Stage 1 completed.
- (b) The following works in stage 2 are well advanced :
Operating theatre, dysentery ward and annexes, eleven service annexes, main kitchen, water supply, power house and electrical supply and internal roads.

36. Coverage

Coverage installations are proceeding satisfactorily.
Total coverage to date : 168,000 sq ft.

37. BORAM airstrip

Survey and design of airstrip are in hand. The governing factor in time to complete construction is coral surfacing. On completion of earthworks and consolidation of sub grades, RAE and RAAF will jointly determine minimum requirements in pavement thicknesses.

NEW BRITAIN

38. HENRY REID R bridge was completely destroyed by flood and BULUS R bridge damaged but is now passable.

Airstrip at UBILI is nearing completion.

Airstrip at TOL is completely cleared and stripped and forming is under way.

BORNEO - BALIKPAPAN area

39. (a) Airfields - SEPINGGANG : Construction is proceeding.
MANGGAR : Construction has commenced on road deviation and preliminary clearing and forming.

(b) Bulk Oil - Stage 1 has been completed; EDC for Stage 2 is 15 Aug, including pipe lines to SEPINGGANG and MANGGAR.

(c) Wharfage - EDC of Stage 2 for Liberty wharf is 9 Aug. This involves replacing the temporary HL pontoon neck with a 20 ft piled approach neck.

(d) Coverage - 14,400 sq ft of a total requirement of 152,300 sq ft has been erected to date.
