CLOTHING & EQUIPMENT - KOREAN SERVICE

Ref: Army Headquarters 247/1/2006/20952 of 26 Oct 50 to BCOF
AMF Component Instr 178 of 22 Sep 51
HQ BCOF QG/460.105/Maint of 28 Sep 51

1. In accordance with current instructions special issues of clothing and necessaries, including replacements and repairs, resulting from service in KOREA are made without debit to members accounts. At the same time the normal clothing allowance continues to be paid.

2. At the present time it is the practice to bring members up to the full Australian Temperate Scale of clothing at Aust Coy BRITCOM Rft Base Depot after return from KOREAN Service. Those items of this Australian Scale which are laid down in component orders for use in KOREA are replaced at public expense.

3. It is felt that this practice is open to abuse. In the last month, issues were made to approximately 48 members rekitted at BRITCOM RBD after KOREAN service. These issues involved 30 separate items in varying quantities to replace articles deficient. Examples were :-

Hats K F	- 5
Boots AB	- 11
Brushes Hard	- 34
Combs	- 12
Handkerchiefs	- 222
Towels	- 9
Socks pairs	- 128.

These issues were in addition to issues made to replace unserviceable items. It is appreciated however that some of the items may have been written out of members' AABs 83 by the unit in KOREA due to unserviceability and lack of replacement stocks. The practice of writing items out of AABs 83 and at the same time allowing members to retain the items is not considered desirable.

4. It is proposed therefore to issue an instruction to provide that no issues or replacements at public expense will be made at Aust Coy BRITCOM RBD to members returning from KOREA unless a certificate is furnished from the unit in KOREA to the following effect :

"Member is deficient the following items due to non availability of supplies in KOREA :-

Member is in possession of the following unserviceable items due to non availability of supplies in KOREA :-

Member is entitled to replacement of the above items at public expense."

5. It will then be the responsibility of the unit in KOREA to ensure that a member leaves KOREA fully equipped to the scales of clothing for KOREA laid down in component orders less those items not available from stocks.

6. It is stressed also that no free replacement of items should be made either in KOREA or JAPAN in cases where the item is lost or damaged due to the member's neglect.

7. It is advised that component scales of clothing and equipment issued by this Headquarters for service in JAPAN and KOREA are being revised and will be reissued at an early date. These scales will specify clothing to be taken to KOREA which will be the subject of free replacement as above.

8. It is requested that comments on the above proposals after examination in conjunction with the scales when received be submitted to reach this Headquarters as early as possible.

[illegible] - [illegible]

I have been asked to advise on the question of the legality of "Japanese divorces" and their recognition and effect on status as far as members of the Australian Military Forces are concerned.

DOMICIL

Domicil is defined to be [illegible] Dicey. It has been described as "a conception of law" and one which the law derives from the fact of a man's residence in a particular place with an intention of continuing to reside there for an unlimited time.

Domicil is nevertheless more than something that something is an intention to make a home and remain there. Domicil must be distinguished from nationality. The latter depends on political allegiance and affects political status. Domicil on the other hand affects civil status. Nationality or political status may arise, apart from naturalisation, upon the place of birth or upon parentage. Civil status, is constituted by personal residence in a country with a present intention of remaining there indefinitely.

Political status may depend on circumstances that in different countries. Civil status is governed throughout by one single principle, namely, that of domicil, which is the relation established by law for the purpose of determining civil status. It is on this basis that the personal rights of the party, that is to say, the law which determines the majority or minority, the marriage, succession, testacy or intestacy, must depend.

A member of the Military Forces who, for example, has his permanent home in Victoria, that is where he always retains his Victorian domicil notwithstanding that temporary residence in Japan. If that member marries a Japanese wife before returning to Australia and setting up a permanent home in Victoria his domicil remains unaltered. If he intends to return to Australia and make his permanent home elsewhere in the world he will acquire by choice the domicil of that other State. In the period of transition he will retain his domicil of origin, namely, the Victorian domicil.

Effect of Marriage - [illegible]

Under British law one of the effects of marriage is to give to the spouse a certain domicil - the domicil of the husband. It is impossible now the rule [illegible] during the subsistence of the marriage a different domicil from that of the husband

Jurisdiction [illegible]

It is not [illegible] that the courts of jurisdiction an Divorce [illegible] the only courts [illegible] termination are the Courts of the [illegible] situated - viz the courts of the [illegible] principle that are married [illegible] and a Japanese national [illegible] - that is by the [illegible] matrimonial State.

Recognition of Foreign Decrees

The question of the validity of [illegible] depends on the law in [illegible] is again well established that the decree of a court will be recognised as [illegible] Court of the country in which the parties [illegible] the proceedings [illegible] domicil and what is [illegible]

The law [illegible] conception of what [illegible] to whether the [illegible] Japanese domicil [illegible] he has obtained [illegible] lar Australian [illegible]

Similarly [illegible] other tribunal, [illegible] nised in the [illegible] is domicil, the [illegible] the decree will [illegible] in Japan according [illegible]

Japanese Marriages and Divorces

As Australian [illegible] Forces is domiciled [illegible] on marriage [illegible] NO JURISDICTION [illegible] the Australian [illegible]

EFFECT of a Japanese [illegible] on Australian Marriages.

1. A Japanese [illegible] member of the [illegible] not recognised [illegible] has no effect [illegible] and during the [illegible] Australian Court, [illegible] another woman [illegible] could not [illegible] could render the [illegible] labour for seven [illegible]

2. If such a [illegible] under Japanese [illegible] could remarry [illegible] the wife of the [illegible]

3. It is [illegible] or the party [illegible] and approximates [illegible] doubt. The [illegible] seeking a divorce [illegible] the bringing [illegible] apply to divorce [illegible] party would have [illegible] by his wife without [illegible]

4. The same [illegible] then she will [illegible]

of the relevant Australian State. If she is deserted and left in Japan unless she has considerable financial resources her position is extremely difficult. The position of the deserting husband is equally difficult because as he is the guilty party he has no grounds on which to petition and unless his desertion ends after six years a divorce recognised by Australian law he will remain married to her for as long as she lives.

5. If the wife is successful in obtaining a decree in an Australian Court the normal rule is for costs to be awarded against the husband.

DEPENDANTS IN JAPAN

1. A number of officers and other ranks have brought wives and in some cases families from Australia to Japan at their own expense.

Again at their own expense they have rented Japanese houses for their wives and families.

2. A number of such personnel have now discovered that their normal domestic expenses in Japan are much in excess of the amount for which they were prepared.

3. It is realized that this is entirely a personal matter for the individual concerned. However this situation has another effect. Because of shortage of ready funds some individuals have found that they were not able to accummulate sufficient money for the return passages of their wives and families. As a result applications have been made to the CPM to draw on War Service Leave in anticipation.

4. It is understood that withdrawal of pay in lieu of War Service Leave in Japan is not in accordance with AHQ Policy.

5. It is therefore recommended that in all cases where members desire to bring wives and/or families to Japan that they should be required before leaving Australia to deposit an amount equivalent to the return fares of such wives and/or families with the CPMs in Australia.

   Knew soldier from 1946 - 1952. Son born in 1950. Soldier aged 56 was a widower with family of 11. He spoke of marriage and wrote her on voyage to Aust. She has not received any news since 1952. Her employment at SHITOOM Gen Hospital as a house girl ended six months ago. Her gratuity has now expired and she has no money. She now has employment. She seems a fairly good type of person and gives good care to her son. Her age is 34 (37?)

DESERTED WIVES OF AUST SERVICEMEN

1. Yoshiko YOKOTA :

Was married to an Australian Soldier named EDWARDS. He returned to JAPAN as a civilian and subsequently disappeared. Col GEDDES of Salvation Army and Chaplain NICHOLSON of Eastern Command are in touch with this case. I believe she is an excellent type of person. She was issued with a British Passport.

2. Miyako TANAKA :

Married a soldier named MACDONALD, a NEW ZEALANDER who enlisted in the Australian Army. He cannot be traced in Australia. Her mother-in-law in NZ has asked her to go to NZ but I think the girl wanted to go to Australia to find her husband. Failing this, she may go to NEW ZEALAND. She needs to go to Australia to establish domestic harmony at her place of domicile.

There are five others I have heard of but at present cannot trace. I can recommend the abovepeople in regard to character.

MFO CONSIGNMENTS - JAPAN TO AUSTRALIA

... 1. Herewith a copy of HQ 1 MC Gp 836 of 23 Sep 55 relative to MFO consignments from JAPAN.

2. All units in this Command have been instructed that baggage sent through MFO channels will not exceed 40 cu ft per officer and 20 cu ft per OR (Copy of this HQ AG 261.2 of 13 Apr 55 attached refers).

3. However, certain cases arise where a member is RTA suddenly on emergency leave or for other reasons, leaving his heavy baggage for onforwarding e.g. 2/1570 Sgt PIKE H BRITCOM Salvage & Disposal Unit - his baggage consists of five cases totaling 23 cu ft. No person is entitled to open this baggage to reduce it to 20 cu ft.

4. In such cases, the only practicable means of forwarding the baggage is to grant authority for movement through MFO channels and to debit the member for the amount in excess of his entitlement.

5. It would be appreciated if approval could be given for the procedure contained in paragraph 4 above to be continued.

AMF PAY CODE - PROVISION AND SEPARATION ALLOWANCE

Ref: FA 305 of 1 Nov 55

1. It is considered that members of the Aust Army Component BCFK cannot be considered as "living out" within the meaning of the AMF Pay Code.

2. Members who are permitted to sleep out of barracks with their wives must do so in Japanese accommodation provided from their own resources. This accommodation in the majority of cases has no adequate facilities for bathing or storing personal clothing and equipment and no means of communication with units. Members therefore need to retain quarters in their respective messes.

3. In addition many of such members are required to have two meals a day in barracks and three when performing orderly duties or when on shift work.

4. It is considered that the above considerations make the position analogous to that which exists in many units in Australia at the present time, where rations are drawn for individuals and the Commanding Officer grants permission for them to spend time out of barracks with their wives in the same locality.

5. It is considered therefore that members permitted to sleep out with their wives should be entitled to rations and other facilities available to members living in.

GENERAL

1. The general standard of bearing turnout and smartness of Warrant Officers and Senior NCOs in Headquarters and Base Units in JAPAN leaves much to be desired.

40th ANNUAL CONGRESS OF THE RSS & AILA

1. Subtended for information and necessary action in respect of all Australian members is memorandum dated 17 November 55 received from the MA to the Commander in Chief.

"1. The C in C BCFK sent the followingmessage which was read at the official opening of the 40th Annual Congress of the RSS & AILA at Brisbane on the 24 Oct 55.

"On this occasion I should like to convey to the congress greetings from Australian Servicemen serving in British Commonwealth Forces Korea.

There are one or two of us who saw or remember the inception of the League. It therefore comes as a little shock to realise this is the 40th Annual Conference.

I believe we can say without being smug that in the years between wars the League has played a tremendous part in shaping our national destiny. The young soldier on the Imjin desires this role to be maintained, that, as in the past no sectional interests be pursued but our efforts directed to playing our part in adequately moulding the Australian way of life and thinking.

We would wish this Congress every success. Good luck to all."

2. The C in C has received the following reply from the General Secretary.

"The Federal President and all delegates to the 40th Annual Congress will be most greteful if you will accept and convey warmest thanks for the good wishes to Congress sent by you on behelf of those good Australians serving with you.

We know full well that the men of your Command are defending our liverty and ideals with traditional efficiency."

3. Would you please inform the members of the AFF serving in Japan and Korea the warm thenks of the Federal President to the message sent by the C in C on their behelf."

MINISTERIAL INQUIRY - BRITCOM CE
2/4293 DVR CARPENTER R A

Ref: AHQ C/A2/347 of 5 Oct 55
Aust Army Component A 1674 of 14 Nov 55

1. Careful investigation has been made into the complaints made by Dvr CARPENTER relating to BRITCOM Corrective Establishment.

2. The following facts emerge :-

(a) Dvr CARPENTER was admitted to the Corrective Establishment on 17 Aug 55 to serve a sentence of 45 days detention, and was released on 20 Sep 55 having earned eight days remission out of a possible eleven days.

(b) Dvr CARPENTER's weight on admission was 164 lbs, and on release 165 lbs, a gain of one lb in 34 days.

(c) The diet on issue to soldiers under sentence in the Corrective Establishment is the scale authorised in BCFK KB 3601/3 ST of 14 Jun 55 "Scale of issue of Rations for soldiers undergoing imprisonment in BRITCOM Corrective Establishment". This scale is attached at Appendix "A". The commodities issued at each meal are shown at Appendix "B".

(d) Dvr CARPENTER made no complaints about the food while serving his sentence. He had the opportunity to make complaints either to the Commandant or the weekly Visiting Officer. On release Dvr CARPENTER stated that he had no complaints about the treatment while serving sentence.

3. As a result of investigations ordered by BCFK and carried out by the APM, SCF (C of E) UK, and ADMS, the following conclusions have been communicated to this Headquarters by the AAG BCFK :-

"The points which emerge are :-

(a) The treatment of SUS is firm but fair, not harsh; there is no shadow of a suspicion of any "bullying"

(b) The food is plain but not bad in quality. The diet is deterrent one - it is no doubt monotonous - but it is balanced and considered adequate from a medical aspect (though possibly in the hot weather a little more Vitamin C and salt may be desirable). This is borne out by the good physical condition of SUS and low incidence of infective conditions; there is no evidence of nutritional deficiency

In general I feel that the MCE attracts so much notice and is visited so frequently by so many capable critics, that there is probably little wront with it - or more and greater complaints would have been heard. It is, after all, an integrated unit and therefore may not represent the exact system in force in any particular Commonwealth country."

4. Reports submitted to this Headquarters by the three SCsF (Aust), all support the contention that the food is inadequate and that the treatment and conditions at the Corrective Establishment are generally too harsh.

5. The opinions of the Australian chaplains are undoubtedly based on conditions and scale of rations which exist in detention barracks in AUSTRALIA. It is considered however that in an integrated theatre such as this, where the UK component predominates, variations from these standards must be accepted, as the approach to the problem of treatment and rations for soldiers under sentence does not necessarily coincide in the two countries.

6. As a result of the investigations it appears that the food at BRITCOM Corrective Establishment is adequate from the medical point of view.

7. It has also been established that there is no discrimination in treatment at the MCE between components. There is no justification therefore for Dvr CARPENTER's complaint that Australians are severely and unjustly treated.

8. In view of all reports submitted on treatment and rations at the MCE the following conclusions have been reached.

(a) Treatment is firm and severe but fair and not harsh.

(b) Rations are monotonous and plain but the diet is balanced and unlikely to cause physical harm to the individual.

(c) As soldiers in the MCE are under sentence it cannot be expected that they should receive the same treatment as well behaved soldiers.

9. It is recommended that no further action should be taken in this matter.

ADOPTION OF ILLEGITIMATE JAPANESE CHILDREN BY MEMBERS OF AUSTRALIAN MILITARY FORCES

Recently we have had enquiries from two soldiers who wish to adopt their illegitimate children whom they have had by Japanese nationals.

2. The Australian Embassy has tentatively advised that there should be no difficulty in bringing such children to Australia if they were legally adopted.

3. It is understood that the mothers will consent to the adoption of the children.

4. One of the soldiers, on the advice of the legal officer at this Headquarters, sought an opinion from Mr UEYAMA, a Japanese lawyer practising in Kure and Hiroshima.

5. Mr Ueyama requires a certified statement for the Japanese Courts that Australia will recognise the adoption of foreign children. In these cases the law of New South Wales would appear to be the relevant law. He also requires three certified copies of the statute or the reference to the law.

6. The Legal Officer at this Headquarters is of the opinion that it is the law of the domicil of the mother that determines the question of adoption. He is further of the opinion that if the Japanese Courts will grant adoption in these cases that the law of the several States would recognise that adoption. He has also advised that, in his opinion Australian adoption laws only apply to British subjects.

7. Your advice is sought on this problem and in particular to para 5 above. Both the soldiers concerned merit assistance. In both cases they are supporting these infants whom the mothers have deserted. If adoption is not possible the fate of the children would appear to be grim.

8. There is a third case of a soldier who has an illegitimate child but has applied to marry the mother. Your advice is also sought as to whether subsequent marriage will have the effect of legitimising this infant.

9. It is appreciated that these matters are not within the bounds of military law. However, the position of the Force in this country does, it is felt, give the issue somewhat of a military flavour. For this reason the matter is referred to you either for your advice or for onforwarding to the appropriate Civil Department as you in your discretion may deem fit.
