FIRST ARMY ADMINISTRATIVE INSTRUCTION No 25

To be read in conjunction with First Army
Administrative Instruction No 22 dated 1 Sep 45.

GENERAL

1. This instruction defines the Administrative policy for the transfer to and establishment at RABAU of 5 Base Sub Area.

PHASES TWO AND THREE

MOVEMENT

2. Movement will be effected by 11 Div with water transportation resources allotted from time to time.
3. Units at JACQUINOT BAY included in the projected OOB of 5 Base Sub Area as notified in Appendix C2 to First Army G39518D of 26 Sep 45 will be moved to RABAU less such units and detachments of units as will be required for the servicing of RNZAF and other elements remaining at JACQUINOT BAY and for the care and custody of stores and equipment remaining at JACQUINOT BAY for final disposal.
4. Units will move complete with personal arms and equipment and unit equipment.
5. Depot stocks, vehs, ammunition, stores and equipment not required at RABAU will be held at JACQUINOT BAY for evacuation to AUSTRALIA or other disposal as may be advised by HQ First Army. Particulars of such surplus stores etc will be notified to HQ First Army as soon as possible.

ENGR WORKS

6. Particulars of authorised works and priorities of construction are contained in First Army CE Technical Instruction No 21 of 10 Sep 45. 11 Div will be responsible for execution of all works in accordance therewith.
7. Civil construction works will not be undertaken without the specific authority of HQ First Army.
8. Maximum use will be made of local resources and bush timber and roofing.
9. To the extent practicable, caves and underground storage facilities previously occupied by JAPANESE forces will be used with a view to reducing new construction to a minimum.

MAINTENANCE

10. Reserves will be maintained at the scales set out in Appendix "A" hereto and will be held in depots at JACQUINOT BAY and RABAU according to the strengths in each area, but subject to such modification of this distribution as may be deemed by 11 Div to be expedient in the circumstances.

11. ACKNOWLEDGE.

Time of Signature 2100hrs

FIRST ARMY ADMINISTRATIVE INSTRUCTION NO. 24.

SCALE OF RESERVES - FIRST ARMY AREA

1. First Army Administrative Instruction No. 17 dated 25 May 45 (as amended) is cancelled.
2. Reserves in First Army will be maintained as indicated in Appendix A attached.
3. Maintenance will be by direct shipment from AUSTRALIA except in the case of MADANG, MILNE BAY, BUNA and FINSCHHAFEN which will be maintained from LAE.
4. HQ First Army is responsible for the maintenance of MADANG. LAE Base Sub Area is responsible for the maintenance of MILNE BAY, BUNA and FINSCHHAFEN.
5. The target strengths shown in Appendix A are based on the First Army Projected Order of Battle as at 31 Dec 45 and until such time as the Force is reduced to this strength monthly maintenance will be calculated on the actual strength in the respective areas.
6. ACKNOWLEDGE.

UNIT MAINTENANCE

FIRST ARMY MONTHLY CIRCULAR NUMBER 6

1. Recent inspections disclose that whilst unit maintenance has improved, a much higher standard is necessary and can be attained.

2. The following items of neglected maintenance are listed for attention during Oct :-

(a) Vehicles MT

Serial No	Item	Faults	Correct Method of Maintenance
1	Lights	Filaments Faulty	Must have two high and two low beams.
2	Windscreen Wipers	Blades U.S. Motors In-operative	Replace blades. If motors faulty and cannot be repaired replace with hand wipers.
3	Brake Reservoirs	Level of lubricant Sludge	Clean out master cylinder, refill with clean brake fluid to correct level.
4	Air Cleaners	Dirty level, Low water in bowl	Under dusty conditions change oil every 100 mls or more often. Clean thoroughly.
5	Petrol Lines	Leaks	Tighten unions where necessary.

Attention to detail by drivers and more careful checking by transport NCOs is necessary. Weekly inspection of vehicle tools and equipment and recording on F78's as directed by GRO 386/44 must be carried out.

(b) Mechanical Equipment

Serial No	Item	Faults	Correct Method of Maintenance
1	Fire Extinguishers	Not fitted	Units to indent for requirements and fit to equipment.
2	Tools and Equipment	Inadequate for thorough maintenance	Units to indent for deficiencies
3	Crankcase oil level	Oil level low and condition of oil unsatisfactory	Engine oil to be checked before the commencement of each shift and topped if necessary. Where condition of oil is doubtful, drain and refill crankcase.
4	Brake lines and linkages	Not securely held and lack of lubrication	Brakes lines and linkages to be checked daily for security, and all connections oiled with an oil can.

a	b	c	d
5	Cleanliness of Engine	Oil leaks and dirty	Engine to be inspected daily for oil leaks, and engine to be kept clean.
6	Frame and Attachments	Loose bolts and nuts	Frame and attachments to be checked for security by tightening all nuts and bolts, this to be done after each shift.

(c) Watercraft

See Attached Appendix A.

APPENDIX A

First Army Monthly Circular

Number 6

WATERCRAFT

1. Inspections of watercraft maintenance for September reveal that the following are the six most neglected items of maintenance:-

<u>Item</u>	<u>% Maint Efficiency</u>
1. <u>Fire Fighting Equipment</u> -	
Stowage, Condition and periodic tests	10%
2. <u>Anchor Cables and Chains</u> -	
Cleanliness, stowage and rust prevention	20%
3. <u>Log Books</u> -	
Correct entries, accuracy, and proper records kept	27%
4. <u>Landing Craft Door and Anchor Winches</u> -	
Cleanliness, rust proofing and lubrication	44%
5. <u>Landing Craft Doorcables and Safety Chains</u>	
Lubrication, rust proofing and security of safety chains.	59%
6. <u>General Paint Condition</u> -	
Freedom from Rust and proper application	59%

2. For the guidance of units having watercraft on charge the following comment is made on these items :-

Items 1 and 2

Refer September Maintenance Circular

Item 3

Log Books must show progressive running hours of engines as well as trip hours. With multi-engined craft record of progressive engine hours must be shown separately for each engine. All engine maintenance is based on running hours and this information must be readily available.

Fuel and lubricants used must be clearly shown and should be frequently checked, as fuel and oil consumption give a good indication of engine condition and any sudden increase should be investigated. All inspections carried out must be entered in log books showing date of inspection, remarks, and signature of person inspecting.

Item 4

Door and Anchor winches on landing craft must be regularly cleaned, painted and lubricated. There is a tendency to neglect the anchor winch more than the door winch, since it is not so frequently used.

Item 5

Door Cables and Safety Chains on landing craft are generally neglected. Cables must be kept lubricated with special Grease Wire Rope or graphite grease. (Refer MGO Equipment Order No.50 - Table of Lubricants - Small Craft).

Cables must be free from chafing and sharp kinks, and must be wound evenly on drums and not bunched or crossed when being wound on.

Weak and faulty safety chains can result in the total loss of the craft. In 20 craft inspected recently, only 4 had sufficient safety chains on ramp doors. This means that the total weight of the door is taken on the winch pawl, and if this fails whilst craft is operating, it could have serious results. Both safety chains must be secure and always used when door is up.

Item 6

General Paint condition is only 59% efficient. On weekly maintenance all rust spots, internal and external should be chipped, and red lead and paint applied. If special marine paints are not available, red lead only can be used as rust prevention is more important than appearance.

Q 5341

Subject: RETURN OF STORES AND EQUIPMENT TO QM STORE

All Branches and Services

1. Officers and other ranks who have been issued with Stores, other than personal arms and equipment, will ensure that such items are returned to QM Store before marching out from this HQ.
2. This applies to all ranks who are transferred to units within First Army area, or who move out of First Army Area, for any reason.
3. Although pistols revolver, are a personal issue, they will be returned to QM prior to movement out of First Army Area, excepting that personnel marching out on transfer to another unit will retain possession. This is designed to prevent theft of pistols whilst personnel are in transit.
4. Particular attention will be given to the return of binoculars, compasses, watches GS and wristlet, and pistols.
