MORETAI	Nov 30		Advice has been received of recommendation for reposting of	
			T/Maj S.T. Stanton to NSW Ech & Rec. A memo from Hnd Echelon	
			advises recommendation for posting of Capt R J McLachlan as OIC	
			and Lts J R Whitmore, G McC Wilson and K L Philp to 6 Adv 2 Ech.	
			It was also suggested that reinforcements to make up deficiencies	
			in that unit may be available from the mainland. Information received	
			at Londons indicates that a call will be made for reinforcements	
			from the mainland to fill deficiencies in 3A Bde.	
			GENERAL	
			Reviewing the units activities over the last month, the main	
			feature has been the movement back to the mainland of approx 8900	
			personnel during that period which has necessitated the	
			forwarding of members personal records to home Ech & Recs,	
			and in consequence, this unit's routine functions have lessened considerably.

Extracts from above Instruction are repeated for information of all ranks:-

" Cases have occurred recently where personnel, whilst sailing small boats off the shores of Morotai have been carried out to sea by wind and tide and returned only with difficulty. It is not desired in any way to restrict the recreational activities of personnel but it will be appreciated that the wind and current in the vicinity of Morotai may lead to craft being in serious difficulties with resulting loss of life. In addition special craft have to be sent out as search parties and this may cost loss of life in other directions through such craft being away from their normal duties.

Personnel will not sail or row smallcraft beyond a limit of one mile from the coast. All small craft will return to the shore at Unit Lines by 1800 hrs each day. Personnel will have in each craft for use in emergency,a whistle and a torch. These articles are of great assistance to any searching craft. All craft will be equipped with two paddles or oars.

465 NATIVE CONTROL-UNLAWFUL TRADING BY SERVICE PERSONNEL

(Repeated from HQ 1 BASE SUB AREA ROs)

It has been brought to notive that natives on MOROTAI and adjacent islands are in possession of articles of service equipment stores and clothing.

2 Whilst it is a preciated that some articles may have been stolen by the natives, it is clear that many items have been traded by service personnel on barter for native goods, souvenirs and in some cases, black market trading.

3. Apart from the fact that this illicit trafficking with natives, of service equipment [illegible] lowers the standards of the white man and may have serious repercussions, it is an offence under AA Sec 24(1) to make away with or be concerned in making away with, arms, ammunition, equipment, instruments, clothing or regimental necessaries.

4. All ranks are instructed that the practice of trading with natives will cease forthwith, and before any replacement or new issues are made the circumstances will be fully investigated to ensure that the missing articles were not lost by culpable neglect or a wilful act of the member.

466 UTENSILS - ORs CLUB

(Repeated from HQ 1 BASE SUB AREA ROs)

Personnel are removing glasses and cutlery from the ORs Club. The loss has been so considerable recently that unless this practise ceases it will be necessary in future for visitors to the Club to take their own glasses and cutlery. Any glasses and utensils already removed from the Club will be returned forthwith.

467 AWL

(Repeated from HQ 1 BASE SUB AREA ROs)

Personnel AWL from MOROTAI to AUST will be returned to units from the mainland by the first available transport for disciplinary action.

	10		Signal despatched to O2E that his proposal was not advisable because such a scheme would delay completion of records for demob, queries of records, and units disbanding in area would be difficult to maintain, also adjustment of queries would be quicker and more satisfactory if records were in the area and the fact that xx little economy of manpower would be effected.

525 DISCIPLINE - PREVALENCE OF THEFT OF MILITARY STORES AND SUPPLIES

(Repeated from GRO 24/46 paras 1,2 and 6)

1. The offence of stealing and fraudulent misapplication of stores and supplies from military depots, installations, transportation service and even from fellow soldiers are still causing concern and the necessity for immediate and effective action still exists.

2. The use of terms such as "pilfering" "scrounging" etc to describe such offences tends to obscure their gravity and may cause them to be somewhat lightly regarded. On the contrary such offences must be viewed very seriously and offenders will render themselves liable to severe punishment.

6. As a general rule, no suspension or remission should be made in respect of any award or sentence imposed upon a member for any offence mentioned in this order.

560 VOLUNTEERS FOR FURTHER SERVICE
(Repeated from HQ AMF Instruction)

1. Volunteers are required for many branches of the Army, particularly to relieve those who have had to be retained for essential duty.

2. The conditions of additional service are:-

Guaranteed employment for a minimum of three months, beyond that, as necessiated by Army requirments.

Service will be in your home state only, unless you agree to serve elsewhere.

You can live at home in every case, where such is feasible. Every effort will be made to give you a posting which will faciliate this.

Efforts are being made to permit all ranks who serve beyond their normal time for discharge to draw, if they so desire up to 50% of the deferred pay due at the date of normal discharge, without any restrictions whatsoever. If these efforts are successful they should remove many financial worries which you might have as to the immediate future if you continue to serve. Youcan at present draw up to 50%, but the amount is repayable over a period.

Efforts are also in hand to make volunteers eligible for the benefits regarding War Service Homes.

3. Civilian life is different now from the prewar days. With possible difficulties of employment, housing, the high cost of living etc, weigh carefully the financial difference between army life and your probable civil pay. In many cases, the latter will be much less.

4. Remember that the army gives you clothing, food, accommodation medical and dental treatment.

5. If you have not got a job to go to, consider these advantages before taking your discharge.

6. You can apply now for further service, in which case you proceed on ARL,or, and particularly in the case of those from overseas, you might find that at the end of your living out period, the work that you want is not available, in which case you might desire then to volunteer. If so, the LOP is deducted from your ARL and further leave is granted if required.

In any case you may apply before moving into Discharge Depot.

554 MALARIA PRECAUTINS - MOROTAI AREA
(Repeated from HQ Morotai Force AQ301.32 of 6 Feb 46)

1. During recent weeks there has been evidence of a greater incidence of mosquitoe breeding in the MOROTAI area.

2. It has been anticipated that a further increase will become manifest for the following reasons:-

(a) The vacation of several old camp sites where wheel ruts and depressions provide ideal breeding places.

(b) The shortage of properly trained malaria control personnel both in 11 Malaria Control Unit and other units.

3. Furthermore an increase in the transmission of mosquitoe borne diseases (malaria and dengue) is possible because of para 2 above and the fact that a reservoir of potential infection is present in the Japanese surrendered personnel, natives, and probably in members of 34 Inf Bde who have been transferred from 6 Div area.

4. It is therefore imperative that all unit commanders ensure strict adherence to the provisions of GRO 321/44 and Adv HQ AMF Orders for dress issued on 23 Nov 45 para 2,3,and 4 of which are repeated hereunder:-

Dress will be as follows:
Hat - Khaki Fur
Shirt - KD or Jungle Green
Trousers - KD or Jungle Green
Gaiters or anklets web
Boots.

Officers may wear caps in evenings. Safari shirts may be worn by members specified in GRO 12/45.

Between 0630I and 1830I shirt sleeves may be rolled up or shirts may be removed whilst engaged in hard manual labour, and in unit lines at discretion of CO. Indiscriminate movement throughout the area without shirts will not be permitted.

Suspension of orders for dress will NOT under any circumstance be granted to drivers MT (whilst actually engaged in driving duties) Kitchen personnel must wear either singlet or shirt.

Instances have occurred where members of the AMF from MOROTAI have visited the Japanese concentration area at KAOE BAY in HALMAHERA and NICA establishments at GALELA and TOBELO in NE HALMAHERA.

HALMAHERA ISLAND is out of bounds to all AMF personnel except as authorised by HQ MOROTAI FORCE.

Both the Japanese and the Dutch have been instructed to signal HQ MOROTAI FORCE immediately, should any AMF personnel arrive in their areas without prior signal advice from HQ MOROTAI FORCE.

548 PREVALENCE OF TRAFFIC ACCIDENTS
(Repeated from HQ Morotai Force R/O Part 1 of 4 Feb 46)

Far too many serious traffic and other accidents, resulting in death or permanent invalidity, have occurred in recent weeks on MOROTAI. They have been due mainly to disobedience of orders, careless and dangerous driving, and lack of plain caution and commonsense.

The wet weather has caused deterioration in safety of roads and has reduced visibility. Additional caution on roads by drivers and pedestrians is therefore essential. Pedestrians will walk close to the right of the road, facing oncoming traffic.

It is particularly stupid to risk or endanger life at this stage, when the stay of all ranks on MOROTAI is nearing the end, and ~~x~~ personnel will shortly be returning home or going to JAPAN.

543 DENGUE FEVER
(Repeated from HQ Morotai Force AQ510 of 30 Jan 46)

Many units are providing ideal breeding places within their own lines for these mosquitos by not attending to water in tins, drums water tanks, fire buckets, bottles, opened coconuts, old motor tyres etc.

All unit comds will immediately ensure that all water storage drums and tanks, fire buckets and barrels are examined at weekly intervals for evidence of breeding. All such containers should be screened. All tins, bottles, coconuts or other debris capable of holding water will be immediately buried.

Where mosquito larvae are found in water storage containers, the water will be treated with kerosene using approximately two fluid ounces to cover the water in a 44 gallon drum.

Advice on further methods of control may be obtained from 11 Malaria Control Unit, telephone Medico Staging Extension 20.
