CONFIDENTIAL.N.S.W. L. OF C. AREA RECORDS OFFICE.ADDRESS BY OFFICER IN CHARGE RECORDS TO OFFICERS, WARRANT OFFICERS
AND SECTION LEADERS --- 8 JUNE, 1943.

I have called you together this evening for the purpose of reviewing the position in which this unit finds itself today, to consider past achievements, to anticipate the future, and to give some thought to present requirements in order to achieve the state of general efficiency necessary for the proper conduct of the unit.

You are the Officers and leaders in authority over the rest of the staff. You carry added responsibilities; and I expect from you some extra interest, some added thought above the average which will enable you satisfactorily to fulfil the requirements of your respective appointments.

UNIT ACHIEVEMENT.

We should in no way belittle the achievement of this unit. We have fulfilled a big task under much difficulty and there is much that entitles us to a sense of satisfaction. There is, however, a great deal that causes me some concern. We know that at times it has been necessary to concentrate on one particular item at the expense of others - essentials have been given preference over non-essentials. The result has been a certain accumulation of work in some quarters. We have been unable to keep pace with the ever growing demands; we have been required to increase strength with untrained staff and up to the present we have not had sufficient Officers to ensure satisfactory control and supervision. It has been impossible also fully to instruct staff in their duties.

RETROSPECT.

Let us go back to October 1941 when this Office was required to take over the records of Militia units at two weeks notice. From that date there followed a series of events which has led us on to a falling off in efficiency. From that time on for six months those in authority were anxious to remove Records to a country location and much of the time of the senior Officers was taken up in conducting reconnaissances in country centres and preparing submissions in respect of proposed removal. Actually the unit moved to its present location in February 1942 and this may be regarded as a retrogressive step which has substantially adversely affected the efficiency of the unit.

In December 1941 Japan entered the war with consequent change of strategy on the part of our Forces resulting in withdrawal of the A.I.F. from abroad and vast movement of troops for many months through N.S.W.

We had the Malayan disaster and all that it entailed.

At the end of 1941 there was a change in command of D.R.O. and also a new War Establishment was issued which deprived the unit of an official 2.i/c. About that time large shipments of soldiers' effects were received from overseas. We had to cope with the complicated process of transfer C.K.F. to A.I.F. The Maintenance Section with its 2nd Echelon activities was established. There was also the work entailed from the reproduction of Personal Data Sheets for Militia units, the originals of which had been condemned by the Statistician.

We have been faced with vast Army reorganisation and changes in control in high offices with a changing procedure developing by trial and error.

All this has placed a tremendous strain on the resources of the unit, but the unit has held together and remains under control.

PROSPECT.

We have now reached a stage where the prospects of the unit have become brighter. After many months of agitation we have at last been given approval to remove to a more suitable location. This new

premises, although not ideal, will be superior to our present building in many respects and will contribute to the improved results which we anticipate.

We have recently gained several new Officers, young men who will bring fresh ideas and fresh energy. I had hoped to gain recognition for some of the older members of the unit but met a very rigid application of new policy which has fixed an upper age limit for Officer promotions. While I sympathise with these Officers, who have to be passed over, it is no doubt a wise policy in its general application, and we must face the position.

Each one of us today must be prepared to carry his full share of the burden and if we are not able to measure up we must make way. This rule will be applied; and while I have the greatest respect and a sense of gratitude to those old soldiers who gave their services in the early days of the war and helped to build this unit, I feel sure that they will realise that we all must at one time give way to younger personnel.

As a temporary relief to the present congested condition of the unit and pending removal, accommodation adjacent to our main building has been obtained which will permit one section to move out of the main building and will also provide accommodation for luncheon room and lecture room.

STAFF INSTRUCTION.

One weakness today is the lack of instruction to staff. I propose immediately to institute a series of staff lectures which will be held in this room. Some portion of the staff will be called into conference for one hour each day. The whole staff will receive instruction in the organisation of 2nd Echelon and Records Offices, so that they will have an idea of what a Records Office is and the place it fills in the administration. A syllabus will be drawn up allotting times for each section lectures. Members of the staff will be appointed to prepare the papers which will be checked by O.I/c or 2.I/c. Discussion on the subjects will be encouraged. This method of instruction will stimulate interest as well as imparting knowledge and I invite you all to give this movement your full support.

CONSERVING MANPOWER.

There is a constant demand from sections for additional staff. I want you to know that I have received instructions that the War Establishment be reviewed to test the possibility of reducing the Establishment. It is, therefore, necessary for us to completely overhaul our organisation to effect whatever economy can be achieved. Economy in effort means added efficiency with less staff and this is what we must look toward.

The Investigation Section has recently been established and is proving most valuable. This Section has been introduced not as an inquisition but as a means of improving the efficiency and organisation of the unit and to assist in the application of procedure. Representatives of this section, therefore, should receive full assistance from all sections. You should anticipate a visit from the Investigation Section at any moment and consequently should take whatever steps you may consider necessary within your section to prepare for such an event. I am quite sure that there are many activities within the unit that could with advantage be dispensed with. I am sure also that there is much duplication of effort and overlapping of duties. All these we must eliminate. I ask you to overhaul the procedure in your sections and organisation and put forward to your next senior officer any suggestions you may have for the benefit of the unit in general and your section in particular. When economy of effort has been effected every possible encouragement should be given to those under you to take an intelligent interest in their work.

SUPERVISION AND CONTROL.

It is necessary for you as leaders to maintain strict supervision within your sections, to maintain a tally of the work that is done, to assist the staff with their various difficulties and at the same time to insist on a strict observance of discipline.

By observing these principles we can maintain that economy which will enable us to restrict staff demands to a minimum which today is such a vital necessity.

INDIVIDUAL RESPONSIBILITY.

Many matters recently brought to the notice of the O.i/c revealed a serious lack of supervision. It is obvious that errors have been overlooked by those in authority and in certain cases errors have been covered up. I feel sure that there are certain clerks who are afraid in turn to go to those in authority with their difficulties. These acts and omissions reflect on all those holding responsible appointments. From now on each Officer, Warrant Officer and S/Sgt will be held responsible and answerable for the duties performed by those subordinate to him. Each must carry his share of responsibility proportionate to his appointment. You must insist on the proper performance of duty in accordance with procedure laid down. Officers are well informed, instructions are issued by Routine Orders or Office Instructions. It is incumbent upon all those holding responsible positions to ensure that those under their control receive and understand the instructions relevant to them. Those who are found incapable of carrying responsibility or who are not prepared to accept the responsibility of their rank will not remain with this unit. There may be those who are diffident in correcting staff, they must, however, learn to control and to command respect and obedience.

These matters should be freely discussed and problems should be taken, if necessary, to higher authority, to the 2.i/c or even to the O.i/c. If each will carry his share the task of the unit is not insurmountable. We must go after efficiency and not let up until a satisfactory state is achieved.

Recently staff were invited to submit suggestions which might be to the benefit of the unit. These suggestions, if the member so desires, may be sent to me personally in confidence. I want you to encourage your staff in this matter for in this way we may gain ideas of value.

I know that I may rely on the full support of all members of the unit and am confident that you, the unit leaders, will fully play your part.
