ADDRESS TO 1 AUST BASE SUB AREA

by

Lt-Gen Sir L.J.Morshead, KCB, KBE, CMG,DSO, ED

STRATHPINE - 15 JAN 45

Brigadier Wrigley, Officers, Warrant Officers, NCOs and Men.

I am very glad of this opportunity of being with you this afternoon, seeing you on parade, and of being able to compliment you very warmly on your splendid turn-out, your steadiness, and particularly on your soldierly bearing.

This parade, which represents little more than half of your total strength, gives some idea of the size of the 1st Australian Base Sub Area. Numerically it is stronger than a division. It comprises a large number of units and sub units each with its own particular job, yet all with a common purpose. On you, on every unit and sub unit according to its role, the Corps depends for maintenance in all its forms. You can discharge that important and vital responsibility only by proper co-ordination and co-operation - and that requires real team work - and by constant endeavour and devotion to duty.

I am very happy that you are now part of the Corps, and I look forward to the time when we are all together, playing our full part in hastening the end of the war and in the complete and utter defeat of the enemy. While you may not be assault troops, you are none the less an integral part of the Corps, charged with supplying all their many and various needs promptly and surely, whatever the difficulties and however hard and sustained the effort. Without you the fighting scope of the Corps would be seriously restricted, and without you, in fact, the Corps could not properly exist.

Even though you may not be required to go forward in the attack I want you always to remember, always be mindful that first and last you are soldiers, and being soldiers you must at all times be ready and prepared to fight, and to the death, if ever and whenever the need arises. There are two possibilities at least when you might be called upon to fight. Firstly, if the enemy adopts his present tactical doctrine and lands and attacks the base. Secondly, if the enemy should happen to break through the forward areas and advance to the base. I am sure that in either or both events, or in any other event, you will first stand firm, and then at the first appropriate opportunity go forward against the enemy boldly and resolutely.

In battle nothing more surely and more quickly wins the day, nothing pays such high and certain dividends as bold action. To be able to fight requires not only those personal qualities which we always expect of the soldier, but also the necessary knowledge and practice, and so I trust that all Commanding Officers are seizing every opportunity fully to train their units in active warfare.

I wish you all the very best of luck, and I hope that in the eventful and strenuous days which lie ahead you will win for yourselves that innermost satisfaction which comes from never failing to give completely of your best.

AUSTRALIAN MILITARY FORCES

Routine Orders, Part 1

by

BRIGADIER H. WRIGLEY, C.B.E., M.C.
COMMANDING, 1 AUST BASE SUB AREA (AIF)

HEADQUARTERS,
1 AUST BASE SUB AREA (AIF)
2 Feb, 1945

General Staff.

NIL

Adjutant and Quartermaster General's Branch

A 46. AMENITIES SERVICE.

1. Para 6 of this HQ RO A171/44 is amended by inserting, after Para (b) thereof, the following :—

(c) Amount advanced out of Unit Trust Fund for the purpose of financing Unit Canteen, etc.

(d) Usual monthly income derived from distribution of profits of the AACS.

2. Attention is drawn to para 6 of this HQ RO A171/44. Units failing to comply therewith will not receive any further issue.

A 47. OVER-AGE OFFICERS.

This HQ RO A40/45 is amended by omitting the letters AMF and inserting in lieu thereof the letters PMF.

A 48. PERSONAL DOCUMENTS—AAB 83.

(GRO A720/43)

1. Instances have occurred where personnel have been evacuated to hospital without being in possession of AABs 83.

2. This practice will cease.

3. The AAB 83 is a personal document, and will be carried by the soldier at all times.

A 49. CHAPLAINS.

1. Attention is drawn to GRO 480/44.

2. The following Chaplains are posted to this HQ and are located as shown hereunder:—

C of E - VX91395 Chaplain C H DUNCAN, 2/26 Aust Sup Dep Coy.
RC - VX135783 Chaplain G L SAIT, 60 Aust Corps Fd Pk Coy.
UC - VX30779 Chaplain R H DEAN, 1 Aust ARD.

A 50. AAF MOB 3 (NOMINAL ROLL OF DRAFT) AND AAF A232 (NOMINAL ROLL OF REINFORCEMENT DRAFT).

1. Attention is again directed to GRO A384/44 and this HQ ROs A74/44 and A18/45.

2. The practice of units receipting AAFs A232 in respect of conducted drafts and returning them to 1 Aust Base Sub Area Details Depot or other originating unit, is unduly prevalent.

3. The procedure laid down in Appendix B of GRO A384/44 will be strictly complied with in future, and any further breaches thereof will be referred to this HQ for action.

A 51. CONFIDENTIAL REPORTS ON COMPASSIONATE INVESTIGATIONS.

1. Instances are still being reported in which the contents of confidential reports furnished by investigating officers have been disclosed by units to applicants for compassionate discharge, transfers or leave.

2. It must be appreciated that in obtaining such confidential reports the Army frequently utilises civilian organisations, members of which will be reluctant to supply candid reports unless satisfied that in no circumstances will the applicant be informed of or allowed to ascertain the contents of such reports.

3. In some instances although not directly acquainting applicants with the contents of confidential reports, units do not observe the degree of security which such documents require and applicants either obtain access to the file concerned or experience little difficulty in acquainting themselves with its contents.

4. The repercussions of such disclosures may not be apparent to all units. In Queensland recently an ex-member of the AMF assaulted a Dairy Inspector of the Queensland Department of Agriculture and Stock. In a subsequent civil action the defendant stated in evidence that he had received from the military authorities a copy of an adverse report which had been submitted by the Dairy Inspector relative to his application for discharge. As a result the Public Service Commissioner has raised the question as to whether reports by Departmental officers can continue to be made available. When confidential reports are made available to units it is to permit the CO to be informed of the full facts. If further instances occur of deliberate or negligent disclosure of the contents of such reports, no more will be supplied to units.

5. LHQ has directed that severe disciplinary action be instituted against any officer or soldier who has been responsible for the deliberate or negligent disclosure of the contents of such reports to any unauthorised person.

6. Commanding Officers will ensure that the confidential nature of reports is rigorously safeguarded. They will instruct all members whose duty it is to handle them of serious view taken of negligence in dealing with these reports which are of highly confidential nature.

7. While the letter of the foregoing might be observed the spirit of it is breached if the subject of the report is informed, or is allowed to ascertain, the source of the information.

8. Neither the details, the substance nor the source of the report will be disclosed to the persons reported upon.

A 52 DRIVING LICENCE.

1. Recent traffic checks indicate instances where MT personnel are not in possession of a driving licence (AAF G11) whilst in charge of an army vehicle.

2. Attention is drawn to SODMV para 3. Disciplinary action will be taken in future cases.

(To be republished in Unit Routine *Orders*).

Q 53. RETURN OF MT TO ORDNANCE VEHICLE PARKS.

1. Units are not complying fully with the terms of GRO's 232/44 and 386/44 when returning vehicles to Vehicle Parks.

2. Vehicles being returned must be accompanied by an AAF G1033 covering the vehicle, together with a separate AAF G1033 on which all items of VOL should be specified. Where a quantity of vehicles is being returned, the VOL will be consolidated on a AAF G1033 or may be compiled on a Schedule attached to the G1033. Where the latter system is used, a copy of the Schedule will be attached to each copy of the G1033.

3. Copies of return vouchers G1033 for VOL items must be submitted to ADOS in addition to the return vouchers for the vehicles.

4. Further, Units will ensure that when vehicles are being returned to Vehicle Parks, the New Log Book AAII 2014, posted up-to-date and complete, accompanies the vehicles and that Formation and Unit signs are removed.

Q 54. CARE AND HANDLING OF BEER KEGS.

1. A serious shortage of Beer Kegs exists and it is, therefore, essential that present stocks be conserved, otherwise distribution of Draft Beer will be affected.

2. Rough handling often causes damage to kegs, and, due to manpower shortage, a considerable time elapses before repairs can be effected.

3. Unit personnel handling Beer Kegs will be given guidance in the correct methods to be adopted. These are as follows:—

(a) CAREFUL LOADING. This particularly applies to small kegs, which are extremely susceptible to damage. Their internal lining is easily damaged by rough handling, causing them to become useless until they are resurfaced;

(b) TRANSIT. It will be ensured that kegs are securely fastened to vehicles to prevent movement of load during transit;

(c) UNLOADING. Kegs will not be dropped from vehicle to the ground. They will be lifted down or rolled from truck on to a pad consisting of bags or old tyres;

(d) STORAGE. Care will be taken to store empty kegs under cover and not exposed to the sun;

(e) WILFUL DAMAGE. Kegs will not be wilfully damaged by piercing with a screwdriver or other implement. This practice renders kegs useless until the damaged stave or staves are repaired;

(f) PROMPT RETURN OF KEGS. Empty or leaking kegs will be returned promptly to issue point.

Q 55. ACCOUNTING FOR VOL EQUIPMENT RETURNED BY UNITS.

1. Irregular procedure has obtained in the return of Vehicle Tools and Equipment with and without vehicles to Ordnance Field Park.

2. Attention is directed to GRO's 0232/44 and 0386/44 (Part II) with which strict compliance will be made in future.

3. It must be ensured that the nomenclature and quantities quoted on the G1033 agree exactly with the items being returned.

Q 56. DISCREPANCIES POL.

1. Attention is drawn to Part VI of GRO Q149/44 dealing with Unit Accounting for POL.

2. Compliance with the procedure outlined will be maintained and discrepancies disclosed as result of monthly stock-take or check by AAPC Checking Staff will be treated as directed in paras 49 and 50 of the subject GRO.

3. Discrepancy Lists will in all cases be accompanied by a detailed explanation as to the reason for the discrepancies. Consideration will also be given to the requirements of paras 14 and 15 of GRO A348/44. An intimation of action being taken in this regard will accompany Discrepancy List.

Q 57. WAR SCALES OF CLOTHING AND NECESSARIES FOR ARMY WOMEN'S SERVICES.

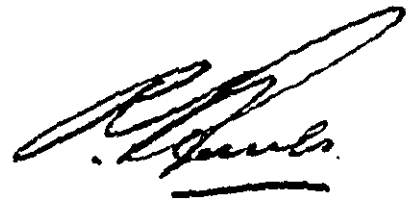

1. Authority is given for the following alternative issues to members of AAMC (women officers), AAMWS and AWAS:—

Socks, ankle, women's	Up to two additional pairs may be issued in lieu of stockings.
Stockings, khaki, lisle, women's	Up to two pair may be replaced by socks, ankle, women's.

Q 58. INDICATORS TRAFFIC FOR FITTING TO LEFT HAND DRIVE VEHICLES.

1. Indicators Traffic are now available in Aust BOD's and will shortly be delivered to AOD's for issue to Units.

2. Accordingly, units in possession of Left Hand Drive vehicles will submit AF G997's to ADOS for their requirements.

2. AAFs B122 will be completed from the AAFs B103 and any other source available at Queensland Echelon and Records, so as to give a complete record of the member's conduct from the date of his enlistment to the present date.

3. In all cases where information as to the member's conduct is required by this HQ for disciplinary or other purposes, copies of the AAF B122 will be forwarded with a certificate that all information available at Queensland Echelon and Records has been included therein.

4. Movement of unit orderly room personnel to Queensland Echelon and Records will be effected under arrangements this HQ.

5. Queensland Echelon and Records will accept a maximum of 25 personnel at any one time, and units will accordingly advise this HQ by phone immediately on the return of their personnel in order that arrangements may be made for the movement of personnel of other units.

6. On completion of entries of members' previous conduct on AAFs B122, Commanding Officers and Officers Commanding will be held responsible that this record is accurately maintained in the future, and is transmitted with the member's regimental records on movement from his unit. ADMINISTRATIVE INSTRUCTION No. 4.

BAKING OF BREAD BY UNITS

GENERAL

1. To ensure that all AACC personnel become proficient in the handling and baking of bread, it has been decided that breadmaking materials will be issued one day per week in lieu of fresh bread, NOT in lieu of service biscuits.

2. It is anticipated that most units will bake bread 'Rolls' as the manufacture of full size loaves will require the construction of improvised ovens.

3. A catering circular dealing with the method and procedure to be adopted in breadmaking is forwarded with this instruction.

SCALE OF ISSUE

4. Ingredients will be issued on each Wednesday for consumption each Friday commencing 21 Feb 45, and will be issued on the following scale in lieu of 12 ozs bread :-

Flour	9.600	ozs
Sugar	0.192	"
Salt Coarse	0.192	"
Imbarm	0.144	"

5. To keep records adjusted, AB 55's for ration to be drawn on each Thursday (commencing 22 Feb 45) for consumption each Friday will show "Bread not required, Bread Making Ingredients to be issued in lieu on Wednesday".

6. Arrangements have been made with HQ Qld L of C Area to ensure that this procedure is notified to FSD - DID's.

REPORT

7. It is desired that units submit a report to the catering adviser at this HQ as to the results of the first batch of bread baked.

EXEMPTION

8. This instruction does NOT apply to medical units holding patients.

BREAD MAKING

1. In the near future it is proposed to issue bread making ingredients in lieu of bread fresh one day per week.

2. The undermentioned method of preparation is presented for the assistance of A.A.C.C personnel and if carefully followed should give every satisfaction to the cook and the soldier. The quantities given are for 10 men, this being an easy multiple to work on.

To make 8 lbs Bread or 64 2 oz Bread Rolls
(Sufficient for 10 men per day)

INGREDIENTS REQUIRED

2 Dessert Spoons	"Dribarm"	For the Ferment
3 "	Sugar	
6 "	Flour	
1½ Pints of Water at Blood Heat		
6 lbs Flour		For the dough
2 ozs salt		
2 Pints of Water at Blood Heat		

METHOD

3. Mix the ingredients for the ferment in a thoroughly clean utensil and stand in a warm place until the ferment works vigorously approximately 1 hour.

4. Then have ready the flour for mixing the dough and make a bay in the flour, dissolve the salt in the water and pour the water into the bay, draw in some of the flour and make a very thin batter, then add the ferment and mix the dough thoroughly to a soft consistency. Allow the dough to prove for approximately two hours in a warm place away from draughts. Then knead the dough well to remove all the gas (do not beat the dough). Allow to recover about half to threequarters of an hour and knead well again, then divide into the required number of pieces and mould to shape, place in tins or on greased trays and allow to recover for about half an hour. Then bake in a moderate oven till cooked. Bread takes about 45 minutes to 1 hour and bread rolls about 15 minutes.

5. Wheatmeal may be used to replace half the flour. This makes excellent rolls.

6. In arranging the cooking of bread and rolls allow about 4 to 4½ hours from the time of setting the ferment to the time the dough is ready for the oven.

7. The careful handling of the ferment and the dough cannot be overstressed; they must be kept warm at all times, particularly when tinned ready for the oven, and rolls are best kept warm by steaming in a box or cupboard as shown in diagram (Appendix "A" attached).

8. It has been found that the most satisfactory method of keeping the ferment and the dough at a constant and satisfactory temperature in the field is to place two dippers of boiling water in a hot box and close the lid for a few minutes, then tip the water out and place the ferment in the hot box and close the lid lightly. When the dough has been made it may also be placed in the hot box to prove.

9. Success in bread making is secured by carefulness and cleanliness.

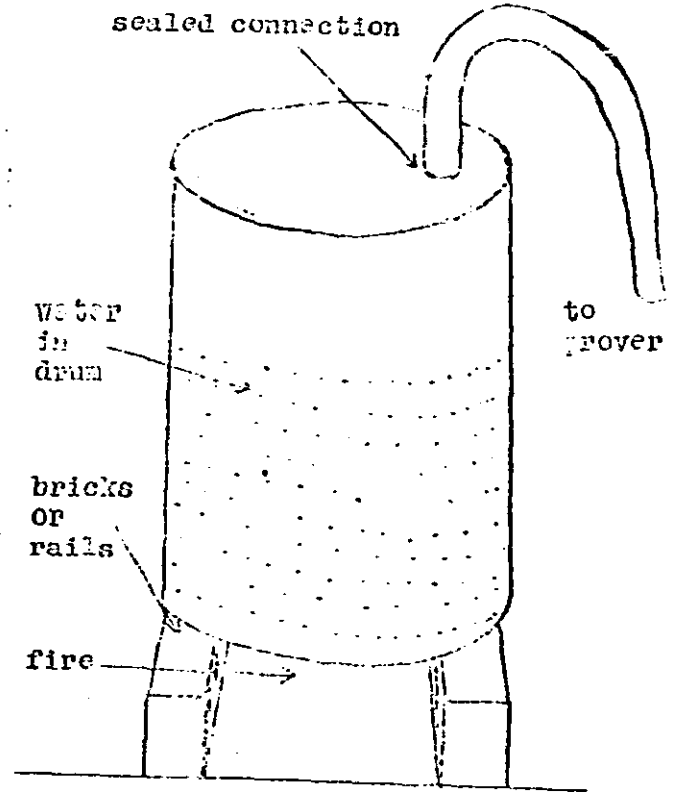

10. Further copies of this recipe are obtainable from the Catering Adviser, HQ 1 Aust Base Sub Area (AIF).
