Weather Fine hot days - cool nights
Pests encountered Mosquitoes and ants
Load carried Pl weapons excl 2" mortar, mobile scale A, pack, 4 days rations.
Villages BULICHO shown as OLD MUNKIP on right bank of BRAP RIVER. MUNKIP on SUPAN RIVER at 363669 consisting of 12 large huts, including 2 government huts. Plentiful supply of fruit in vicinity. BADIBO (deserted) at 408717. Plentiful supply of fruit in vicinity. The people of MUNKIP and BADIBO were in very poor condition physically, sickness being prevalent. On questioning Imlai at BADIBO, I found that this village had been shifted from 428717 to 408717 owing to an outbreak of sickness. It is apparent that this is a very unhealthy area, as some people in this village were still suffering from some sickness. The Imlai described the symptoms as being headache, pain at base of spine pain on right side of chest. No information as to track to GUMBUK was obtained from these natives. On 15 Jan 44 the Imlai at MUNKIP died, and on passing through the village on the return journey found it deserted.
Tracks Patrol moved by RT to BRAP RIVER at 364632. Followed track along left bank of river. This track is clearly define but is not marked on BOANA PROVISIONAL MAG 1/63360. This track winds round the sheer sides of spurs and would be untrafficable in wet weather owing to landslides. The track passed along the left face of BRAP BURGE at 367661. No track was located running in the direction of GUMBUK from vicinity of OLD MUNKIP (BULICHO). Continued following tracks up BRAP RIVER until SUPAN RIVER was encountered. Crossed SUPAN and followed it up to fork in river. This track crosses the river in four places and continues down the N branch of the fork thence round the side of spur to left branch of fork. Crossed here to MUNKIP village. The SUPAN RIVER is about 20' wide and about 6" to 18" deep and would be difficult to cross in wet weather. Track proceeds from MUNKIP to tributary of BRAP, ascending all the way. Going very hard. Fresh landslides noticed on left bank of tributary. Crossed stream, ascended to village on spur (BADIBO) At BADIBO the information regarding the track to GUMBUK was most unreliable. Many creeks that were running on outward journey had dried up on our return.
Cover Air and ground cover only fair as most of country consisted of kumai approx 3' high.

Ref No 33/44

Subject:- REPORT ON GENERAL DEVELOPMENT

LAE BASE SUB AREA

1 NATIVE LABOUR

(a) Ref this HQ signal AC92 of 17 Jan 44

Native labour employed this area and allocated as follows:-

US Forces	470
AMF	163
RAAF	150
Sick	64

Sickness amongst the natives in this area is relatively high, reason being that 250 natives drawn from WANTOAT area which is now malarious, have caught this disease and have affected others. Of the total ANGAU have had to pay off 30 over a period of a month as being unfit for work.

(b) Ref letter 20/44 of 13 Jan 44, which was a request for additional natives for a native garden, also to replace domestics at ANGAU, taken away to allocate 150 natives to RAAF.

(c) Kunai grass is prevalent in camp areas and owing to the shortage of staffs, and men being engaged on shift work, units are unable to cope with this difficulty of keeping the grass down. A strong recommendation that, in event of additional natives being made available, a grass cutting line be instituted for this area of approx 40 natives.

2. AIR EVACUATION POST

Further to our last report ref 33/44 of 9 Jan 44. No further action by the US authorities has been made as regards the erection of their buildings owing to shortage of materials. Capt WEST SC(Q) Area Command interviewed ADMS LAE Base Sub Area re this matter and was informed that in the event of the Post being moved tents will have to be substituted as building material is short; that being the case, would it be possible to make available at least 3 Marquees GS Double approx 40' x 20' for use as wards. This is strongly recommended to enable the efficient operation of the Post.

3. MALARIA PRECAUTIONS

It was noticed on inspections by the MO that regulations were not being enforced by officers of units.

OCs were advised that they would be held responsible for any infringements of regulations, and it has been noted on later inspections that there has been an improvement.

4. 6 ANST FARM COY

Progress has been slow owing to shortage of native labour and European personnel, made more acute by the loss of 20 natives to RAAF allocation.

Capt AUTRY-HALL returned from hospital on 19 Jan 44 - broken finger - strength at present being 2 officers and 4 ORs.

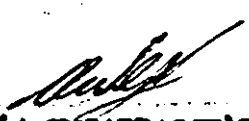

Implements delivered to the Farm dismantled, have not been used owing to shortage of mechanics and drivers.

5. PATROLS

Copy of report of patrol by A Coy 15 Anst Inf Bn was forwarded to you on 16 Jan 44, ref this HQ letter 56/44.

Report shows no eventful incidents, with the exception of GUMBUK village which is incorrectly plotted on BOANA provisional map 1/63360, should be at map ref 499681; also in reference to track from GUMBUK to OLD MUNKIP, shown on BOANA provisional map 1/63360 but does not appear to exist; native guide corroborated this.

6. DID 4 Anst Sup Dep Pl moved out of area 10 Jan 44.
DID was taken over by 3 Anst Air Maint Coy.
The change over was completed and the present staff is functioning satisfactorily.
7. POSTAL 4 Anst I of C Postal Unit was relieved by 2/1 Anst I of C Postal Unit on 11 Jan 44. Change over was completed by 12 Jan 44.

4 ORs were sent to LAE (Ref signal AC88 of 11 Jan 44)
8. AREA WATER POINT At present the water point at map ref NADZAB 1/25000 414546 is still not operating, requiring pump and fittings referred to in our last weekly report.
Existing arrangements are not satisfactory, units near this point having to go long distances for water, viz CCS and an American one at 365563.

- 8. Pests encountered Mokkas, Ants, March flies, stinging plants
- 9. Load carried Equipment: Basic pouches, waist belt, rack, water bottle. Weapons: 6 Owens, 1 Austen, 6 rifles

Accommodation stores: 1 Gas cape per man, 1 mosquito net and 1 ground sheet per 2 men, 1 bottle mosquito repellent per man, 1 field dressing per man, toilet gear, spare socks. Rations: 5 days. Mobile Scale A. Ammunition.

10. Villages

- (a) MUNKIP: By passed in order to save time.
- (b) NEW BADIBO: People very ill and apparently suffering from beri-beri, elephantitis, dengue and some chest complaint. No medical supplies have reached this village for a long time and unless something is done most of them will die.
- (c) OLD BADIBO: Deserted but fairly clean.
- (d) GOIN: Deserted but for two very old men and one piccammuni. Villagers have gone to IAE, BOAHIA or have gone bush.
- (e) PUF-PUF: A very clean and well kept village. People very timid and took some little while to return to village after deserting it when white tps came in. Do not savvy "Japan Man" at this village. A sig line starts at this point and runs to CAMP DIDDY.
- (f) GUMBUK: Only one hut and not in use. Hut in bad repair.

GUMBUK: 499681.

12. Tracks

- (a) From FRAP RIVER to OLD BADIBO as reported by No 1 OLD MUNKIP patrol
- (b) OLD BADIBO - GOIN: Clearly defined leading ~~straight~~ over the mountain. A very difficult climb of 1500 ft from a gradient of 1 in 1 to 1 in 10. Only very fit men will manage this climb. Track is gravel and in good condition despite the fact that it was raining when the crossing was made.
- (c) GOIN - PUF-PUF: That track has not been used for long time and the patrol was fortunate in picking up a native who was returning to his home at this village. It is fairly easy to find now however. It leads down hill for a solid four hours, is very steep and in places dangerous. The reverse climb would be no t difficult.
- (d) PUF-PUF - GUMBUK: An easy clearly defined track with a sig wire running along it all the way. A further down grade.
- (e) GUMBUK - CAMP DIDDY: As reported by No 1 GUMBUK patrol.

13. Topographical

13. Topographical

All rivers encountered were fairly low, indicating no heavy rains recently. There are evidences of many landslides along the route, rock formation being brittle and possibly accounting for these.

Form lines are no assistance on map but the main rivers are a good guide.

14. Water Supply

A plentiful supply of good fresh mountain water is available at all times.

15. Fruit

A good supply of fresh fruit may be had along the track.

16.

Physical condition of patrol was excellent - all finished well within themselves. Morale was high throughout the journey.

17.

A message in an unknown language was found at GUMSUK. This has been forwarded to KAGAU for interpretation, and contents will be forwarded when received.

18.

A grave was found at 498682 with a wooden cross on it. The name FINNIOAN and the number 6178200 were decipherable - no identity discs.

11. Villages
GUMBUK - only two Government huts - little fruit.
WENZIAN - a 15 hut village - every hut occupied - Both fruit and vegetables obtainable. This village was formerly a mission village serving BOANA and KASIN. School house still standing. KIAP house available for sleeping quarters. Natives healthy
PUFUFU - A 10 hut village - occupied natives healthy - fruit.
KASIN - A 10 hut village - fruit available.
KARSIN - Situated on high feature - approx 10 huts patrol did not pass through.
GOIN 1 - visible from KARSIN - appeared about 12 huts village with many gardens - patrol did not visit
GOIN 2 - Village deserted as men had gone to LAE (ANCAU). Other inhabitants to GOIN 1. A ten hut village. Fruit and vegetables available - KIAP house for quarters.
OLD BADIBO - Deserted - 10 hut village with KIAP house - inhabitants at NEW BADIBO about 1000 yds distant and visible. Fruit and tomatoes.
MUNKIP - Deserted 10 hut village.
All natives were friendly and brought food and when asked. Generally healthy though first aid was given in several cases. No indication of attitude towards enemy troops or information re could be gained. Water was plentiful along route.
CAMP DIDDY - GUMBUK - Track follows creek for approx two hrs marching then climbs steeply for 1 hour to 483661 (not 484663 as shown on BOANA prov 1:63360). Here is a small camp. Going up hill is difficult but surface good. Track leads down hill and crosses creek at 489667 where good water is available and there is a good camp site suitable for 1 Pl strength. Track continues downhill to MUNKIP R at 507674, where good water from creek
12. TRACKS

into BUSIP R is found. Going still good. Thence flat and easy going to GUMBUK. The track is clearly defined and sig wire follows all the way. Would be passable in wet weather. 200 yds from GUMBUK down stream is a native bridge - in bad repair over which natives say track leads to BOANA.

GUMBUK = PUPPUP. Sig wire still follows all the way, general direction along bank of BUSIP RIVER. Going good, climbing to PUPPUP. No guide necessary. Report of No 2 HUNKIP patrol re location of Aust soldier's grave (Pte FINEGAN QX78200) is confirmed area around grave cleared of grass.

PUPPUP = DZEEZAN. Downhill to BUSIP RIVER. River crossing about 2' deep at 489691. Guide necessary as after crossing BUSIP RIVER track in spots is not clearly defined. BOANA track branches off at 483705. From DZEEZAN : BOANA 80° mag, PUPPUP 175° mag.

DZEEZAN = WASIN. Track up hill, no guide necessary.

WASIN = KARSIN. Tracks crosses re-entrants and spurs - going fair. A steep climb to KARSIN, and excellent CP giving view down BUSIP RIVER and to GOIN 1 and 2. Track to GOIN 2 branches off on top of razor back spur at approx 400 yds from KARSIN. KARSIN = GOIN 2. Tracks drops steeply towards course then rises steeply towards GOIN 1 branching off before GOIN 1 is reached at . A guide here is ~~unadvisable~~ advisable. Surface of track good ~~impassable~~ Track leads through native gardens, dropping into re-entrants and rises to GOIN 2.

GOIN 2 = OLD BADIPO. From KIAP house GOIN 2 leads uphill to left. A guide would be of assistance here as track from top of hill to OLD BADIPO is clearly defined. At least 2 hrs was spent having locate this track and patrol eventually had to make its own track over difficult features.

OLD BADIPO = HUNKIP. Good track, clearly defined, downhill to HUNKIP.

HUNKIP = ERAP RIVER (Map Ref 364632). Going good, tracks winds frequently across creek and is clearly defined. At Native ~~Shrubbery~~ Garden (371657) halted and recon was made for crossing over ERAP RIVER to BULLILLO (OLD HUNKIP). Crossing located by information from natives at 369663. Spot marked by cairn of stones and direction by arrow stones. Track continues to finish point - easy going.

1. NATIVE LABOUR
 - (a) ANGAU returns show loss of 3 natives since 23 Jan 44, due to physical disabilities. These natives are unfit for further work.
 - (b) Arrangements made for loan of 10 labourers from RAAF allocation for four days to clear area for Allied Intelligence Bureau.

This work commences on 31 Jan 44.
 - (c) Ref signal AQ262 of 28 Jan 44, these additional natives will be allocated as instructed.
2. PATROLS
 - (a) Report of No 2 OLD MUNKIP (BULLLOLO) patrol was forwarded on 27 Jan 44.
 - (b) No enemy were seen during the patrol. A track was established allowing a round trip from ERAP RIVER - MUNKIP - OLD BADIO - GOIN - FUF - FUF - GUMBUK - CAMP DIDDY - NADZAB.
 - (c) Report mentions a certain amount of sickness in native villages. This matter is being investigated and taken care of by ANGAU.
3. HYGIENE
 - (a) V321782 S/Sgt W B de la Rue attached this HQ as from 21 Jan 44 to inspect camp areas with a view to improving hygiene throughout the area.
 - (b) He was joined by V76740 S/Sgt K M HOLLAND on 24 Jan and present both are engaged on Hygiene work respecting 6 Aust Farm Coy.

26. RETURNS

The co-operation of Units is requested in the matter of returns. Returns required by LME Base Sub Area have to be consolidated by this HQ before being forwarded to LMS.

As a minimum of time is allowed for consolidation and despatch, units must realise the necessity for such returns to be rendered to this HQ by the time that is stipulated.

27. STORING GEAR

Sets of cricket pads are held by this HQ and may be borrowed by units for cricket matches.

Any gear borrowed must be returned to this HQ as soon as possible after the match is finished.

28. DRESS

Attention is drawn to LME Base Sub Area Routine Order 492, permitting sleeves to be rolled up during the day.

It will be noted that no authority has been given for shirts to be removed.

29. MALARIA PRECAUTIONS

The protection of individuals is dependent upon:-
(a) the invariable adoption of protective clothing
(b) the proper use of mosquito nets
(c) the application of repellent lotion
(d) the taking of atabrin

There is no need to promulgate again all the above precautions in detail, as previous MGF orders, LME Base Sub Area Routine Orders, and in addition Standing Orders for this Area issued by this HQ deal explicitly with the matter.

Nevertheless recent inspections of the Areas under this command disclose continuous breaches of regulations regarding dress and bathing especially.

The main offences are:-

- (a) Removal of shirts without authority.
- (b) Bathing and showering after 1830 hrs, even as late as 1930 hrs.

With reference to (b) units may have personnel covered on transport or other manual work which involves duty after 1830 hrs. In that case showers should be erected and made as mosquito proof as possible, but it is pointed out that those personnel concerned must proceed to and from showers fully clothed and not wander around either naked or with only a towel around the waist.

It is evident that strict discipline is not being exercised by officers of units concerned. If such breaches are allowed to continue there will be no alternative but for this HQ to take drastic action in the matter.

30. MALARIA CONTROL

1. In view of enquiries made to this HQ it appears to be still some doubt as to the correct interpretation of Orders regarding Dress. LAE Base Sub Area Routine Order 492 of 8 Jan 44 reads
"COs are empowered to direct members to wear sleeves rolled up between 0700 hrs and 1830 hrs or the evening meal parade whichever is the earlier."

2. As regards bathing and showering, there is a recent MCF Instruction that no swimming or bathing outside mosquito screened bathrooms or shower houses will be permitted between sunset and sunrise.
The period between sunset and sunrise has been fixed as above in regards to dress and can be safely applied in regard to swimming, bathing and showering.
