with Lt Lt Smith.

Sgt Lucas - mortar sgt with A coy was ranging on Orodubi during yesterday afternoon. First shot landed near hut & blew side out.
Mtr gun immediately opened up and felled a tree across the mortar. Crew spent night getting mortar out.
This is reason for back harassing fire on Orodubi night 14/15 Jul.

Coy attacked Orodubi unsuccessfully - estimate approx 40 Japs in occupation. 2 MMG's there and Lucas thinks they have 4 2mm guns. ~~to confirm~~

B Coy. Sent force down to Erskine Ck to assist in ops in that area. Its line passed through enemy lines it was not considered safe to use it and comms are only by runner from B coy.

D Coy in Lihet reported opened fire on native vicinity Center. Coconuts. unobserved results. Enemy replied but shots were well off our lines - no casualties.

2 Coy BM. 12 Nov 43. AN 1915

1. 20 stakes ordered by Coy not to fire too much. 200 rds allotted for 2 guns. Suggests we should send to Div for allotment of 400. Because of knife edge ridge shells will fall into gullies and therefore require some charges.

2. Re ambush - secure line of comms cannot be guaranteed. Suggests wait on results further patrol to area. (Koniakum - Bobaubi tracks)

3. O.D.O. selected Old Bn HQ as OP for COCONUTS.

4. Ref high gd in previous message - not dangerous at moment but given for info, is between 1st & 15th feb areas.

BM to Coulter 1620 K/27 1907

1. Patrol along Griffo track to Buck Cut & north to June found nothing & track not used recently - Grahame Sky

2. Between Guaibolon & Old Vickers Pass possibility of tracks up to ridge from Buck Cut almost anywhere. Would take time but could be done.

3. 20 mins north from Guaibolon is good high ground Trobriand with lig of T to west. Track runs to west of T. Its in occupation would be hard to shift. Area occupying. No.

4. Ridge track is very undulating as suspected by Coulter Yes obvious

5. Suggests 2/3 be allowed to occupy Guaibolon possibly on Rom track near June. Would use Griffo track for approach. Sufficient with a Lewis supplies

I advised contents of captured natives statement.

no definite ruling can be given the general
principle is that carrier lines should NOT go
onto areas where they will come under direct
fire but as operations require that ops must
be supplied if operations are to be successful
it follows that a possibility of an ambush
is not sufficient to prevent carriers
going to a fwd area ○ if properly guarded

Report of Jap Ambush night 19/20 JUL 43 by LIEUT DAVERN

Was proceeding to the food post with a guide from 18 pl (Lte J. RIVETTE) at 1655 hrs on the BUIRIS CK 704994 KOMIATUM 1/25000 a bird in the creek we were fired on from EAST side of creek. with LMG and rifle. I did not see Lte RIVETTE wounded though he had got away safely. Strength of Ambush approx 15. After some backing still 1835 hrs. I had regained the track when I heard a twig snap, crouching down in front of a tree I waited and a Jap patrol came along and halted one yard from my position. I heard the leader say "Halt" after a short pause the patrol moved into the scrub going general direction of OLD BOBDUBI. Patrol was well equipped with two L.M.G and had bayonets fixed. This patrol contacted at 702978 KOMIATUM 1/25000 approx. It is assumed by me that this patrol formed the Jap ambush mentioned above I returned to pl H.Q. 0800 hrs 20 JUL in view of the fact that the track from my H.Q. to food post 705996 is accessable to the enemy working from OLD BOBDUBI and the distance approx 1½ hrs making communications and supplies difficult. Suggest that the food post be withdrawn to a more suitable area closer to pl HQ.
