BEHO v Wiro W 2 18 AC/16

You today message would lay you seriously open to
a superior officer who felt inclined to take things
seriously ⊙ Why waste time on such trite bullshit
as "there is some good in everybody" when every ~~thing~~

ordinary man has known the principle and ~~acted~~
acted on it ever since his early school days. My
message purposely did not tax West with
owning rifle 54577, and my remarks re soldiers
applied to the owner of that rifle in particular.
The lessons may have been taught at Foster and
Katharine, but that is obviously no guarantee
that they have been learned.

Realising the difficulties of your particular
position we are sending you a little atabrin.
Remember that the stuff is to us very scarce and
very valuable. The course is 14 days 6 tabs Quin
+ 7 days 3 tabs atabrin. The conditions are these
1/ to be carefully observed, if the case progresses
steadily under treatment, keep him with you
2/ if the case has been a chronic one or if
he loses weight or shows continued paleness or
weakness after beginning of treatment, send him
straight through to hospital. Your requirements as far
as possible herewith, flavene & ointment for
ulcers. Have no bottle for iodine. Now if you
take my way of looking at it, Heater's old man

KEEP YOUR MOVEMENTS SECRET.

① Accept your rebuke as justified and apologise for tenor of my hate step. Realise that your job - and that of associates in stores receipt and consigning - is a harassing one. I will in future try to make it easier at this end at least.

② Personnel and stores arrived this evening safely.

③ Have NX 2769 Sig. WILSON, EO. how fit for duty. stop He was with 2/1 Fortress signals and was later with SO RO stop will you indicate where he is to report an discharge from hospital.

④ Am pleased to report great improvement in condition of LT DOIG stop Officers how in hospital should be fit to return duty as follows:-

LT DOIG - 6 weeks; LT GARNETT - 10 days

LT BURRIDGE - 10-14 days.

④ EQUIPMENT. List herewith shows state of equipment
of men either in, or ready to enter, training school.
Stop the present class consists of twenty but the other
men listed are attending, as well stop there are four
additional personnel still in hospital who will be
available for training with the next school stop this
will make a possible total of twenty seven men
ultimately available for service because REILLY,
although in training school, is too old to go into a sec-
tion stop the other men sent here, ^{are} for various reasons,
unfit to go into sections and I had not intended to have
them trained unless you wish.

⑤ RETURNED herewith are some items of used equipment
landed in and a rifle with defective extractor stop
also one or two bags returned as requested

This will suffice for personnel at present in the area whom I suggest should be trained but not for any others who may come here. I suggest that, after training, personnel report to you where such things as rucksacks and water bottles, if available, be issued.

General - nothing to report. Please send the attached lists back to me not only because I need them for reference but because the reverse is my private correspondence.

RETURNED - I have returned one item of used equipment of a nature which is not suitable for use in the field. Also one or two bottles of water as requested.

Further equipment to be completely repaired and returned for training to follow. (reverse)

Have LAFO attached to KUDO for training purposes then take a section (or as near to it as possible) thro' to DEXO @ He and his men to be given plenty of work by DEXO and used to free DEXO and his men for work further out @ DEXO to be instructed to take LAFO on any job where there is a reasonable chance of action in other words LAFO to be forced to reinstate himself.

Now at 0.16 missed DALO today as he left for P.12 and we crossed without meeting.

Tomorrow hope to see GOSO at R18, remain one day with him and then return via some track but calling in on TURNO.

Presume from your message W6/18 that all is quiet @ Am still in the state of "will they give us another week" @ Am very pleased to have got this far and have seen this country.

Hope all is well, regards.

Information to hand re Japanese near FATU LULIC:-

At 2000 hrs Apprex, The Barometer received information from his C de P at LOLOTOI that Japs were near FATU LULIC and after passing that information to you, I had the matter checked more fully and it has been learned that they were at a Native village called MAU-DEMO, which is roughly half way between FATU LULIC AND ATAMBOEA.

The C de P reports this morning that a native of his returned from ATAMBOEA with the information that owing to the scarcity of food in DUTCH TIMOR the enemy contemplate moving most of their troops into PORTUGUESE TIMOR. It is beleived that the move from there will coincide with an offensive from the enemy troops at this end of the island. He states that they expect reinforcements to come to the Allied troops here and it is their intention to try and round us up before that happens.

Another matter that the C de P reports is that the Dutch have pulled down the wireless aerial and to all intents and purposes are preparing to leave that area. Whether or not this is correct I do not know but am passing it on to you.

Have not been able to check on the report from CAILACO of a heavy explosion followed immediatly by machine gun fire. Am having the matter of the ship in DILI checked to try and find out ~~whats~~ whether or not it is still there.

A favour to ask more or less why
being sending this message. Is it possible to
get KEITH HAYES back into the Sec. He was one
of the original and a personal friend of the
family, and if he is well enough he'd deem it
a favour if he could be returned to the 70.
Of course he may still be fairly sick I do
not know but he rang from BOB and said
he felt 100% - you should be the best judge
B A L D Y. If he isn't fit it's OK, but if
he is what about it. Also one ERN HOFFMAN
another original, is he a possibility to be
included as a fighting member of this Sec.
If he is would also like him back, a few
more would give us near full strength and
I'd like the old chaps back if they are fit
enough to fight - thanks B A L D Y I hope you
can do something. Regards from self and

Nothing to report this morning regarding the position etc of the enemy or of their movements.

Re ERRYS telephone conversation with me yesterday regarding the code names and originators letters. He mentioned that no provision has been made for a letter for either the C.S.M. or myself. As I see the position all messages coming to or from either of us will be dealt with by Coy HQ and they will be originated with the authority of either the C.O or the 2 i/c and whoever issues the authority to originate the message will be responsible and therefore his originators letter should be used. As an example of what I mean a message such as this may be sent:-

To: GIGO V ATAB W 1 30

C.S.M desires that all rifle numbers be forwarded to him as soon as possible. 0900.

And the reply will be:-

To: ATAB V GIGO C1 30

Advise C.S.M that the numbered asked for are 23456 etc.

1700

Perhaps you may have a different idea on the subject, but if the show is to be run strictly according to Hoyle this is the method that should be used.

Everything else here is OK, I hope to get the men eating at the house today, so from now on I would like to know the night before if that is possible when any men are coming through here so as can arrange for sufficient feed for them, otherwise they are likely to be left without a meal. Am awaiting your instructions regarding Pte Hayes. Regards

Was over seeing Dex on 20 - have everything
taped now re attach - support - withdrawal
Have arranged Posio here, food to be supplied
twice daily if an attack on CAIBACO is made
Dex and Co are well. One problem only. NANO
said we would be supplied with an extra B&C
which would come later, do you know if we are to
receive one or have you other plans for these
weapons, would like to know so I can notify Dex
of fire power in section. Is it possible to get a
further six Tommy MAGS (Box), if not, as many as
you can spare as we have an extra Tommy in section.
Just a bit more worry for you - our request for
socks has not yet come to hand, so far we have
received three pairs - this is probably our worst
enemy at the moment. Sorry about mis-understanding
of previous message, punishment now meted out
in right quarters. Was telling Dex wouldn't care to
lose B&C in wordy battle. Hope your health
much improved and you are near, at, again.

There with damaged magazine @ also had a spare bayonet which I handed in to Kudo store @ Blankets, Cartridge clips. Graphite grease arrived, thanks!

Tell ERRY I still have the spare return spring + gas cylinder cleaning rod which was supplied to me with BREIV 147, let me know if you want me to return + re-draw from Jones, or could you draw from him @.

The advent of Evans + McI caused quite a stir amongst the lads but I assured them it was not for long - they will certainly get a smack on the snout if necessary @ as I change with Clarrie at weekend + am flat broke, could you let me have an advance soon to enable me to collect small change @ Boots are serious, Doyle 6.5 will have to be left behind + two more pairs may sell a week then will have to spell @ Training progressing favourably, Regards

To WINDO

From TUTO

D.T. 7. 25

During a conversation with our friend the C.de. P. this morning I learnt from him that during the stay of certain members of our Coy. in the telephone buildings at the Posto during the early stages of our occupation of ATH, the following articles were either broken or stolen or a little of each:-

- 5 Large Spoons (Present from Governor)
- 1 Small Spoon
- 6 Large Forks (" " ")
- 10 Large Cups
- 5 Small ✓
- 12 Enamel Plates
- 10 Large Glasses
- 3 Wine Glasses (some returned are useless)
- 5 Large Saucers

I quite realise that it is now too late

FIGHTING FORCES COMFORTS FUND

(South Australian Division of Australian Comforts Fund)

for adequate action to be taken but have brought it to your notice so that in future some responsible person will be placed in charge should troops occupy any Posto. When I heard of this, and that some bright members had re-equipped themselves from the gear so kindly loaned I was absolutely ashamed to be associated with such mean despicable persons and if some call themselves soldiers well thank God we have a navy.

Although during this period the S.M. was senior NCO. I am not insinuating that he was personally responsible for such gross ill manners as we all realise that at that time many troops passed through his hands at all hours of the day and night.

The Cde. P. is not at all worried

P.T.O.

about his Posto losses and wishes it to
be dropped, he only mentioned it in passing.

Dear Doc,

Your letter to Land, quite interesting. Re Geese, unfortunately he has already been taken over by force for sig work, so you will have to scout around for someone else. There is sure to be some suitable man, but I can't place anyone at the moment. Re No. 4 A.A.M.C. order, your best possibilities would be amongst some of the men in your area.

Bit of a bugger having to have cog, but I guess as long as a man does his job it's

O.K.

If I get any further information I will send it on...

Will you indicate where I am to send them, and also send any equipment that they should have: they now have helmets, shoulder straps, bayonet frog, water bottle holder, belt, oil bottle, pull through, rifle, bayonet, pouches.

Each man has ten rounds, but I have rounds here and can furnish them with additional rounds and clips if you instruct me how many you wish them to carry.

I am anxious to march them out as soon as possible, so would like an early reply. You could indicate the destination where I have left a column and send the

sent immediately to hospital at
to have a look at all the bo
platoon because they are here
and cullery. I have sent word
then what I have done and
I have done the right thing.
Hope everything is going to
at the hospital. Love my
Paff, Laby and Spaky when
see them. Regards
as, prominent event at ex. W.

4 I don't consider
them medically fit for
the work, after training.
But do you think it ~~was~~
would be a good plan
for them to be trained in
any case? If so let me
know and I will
include them.

Everything O.K. here.

Kind regards,

Kudo.

Have increased this round
to 20 per man.

Since writing this I
have received your mes-
sage re disposal, so
I have completed that
for your information.

Plan for sentries

It was the practice for the section or sections in the town to post a sentry at the entrance to their billet.

It is now proposed to place guards as follows:-

Entrance of Hata Bulio track

Atsabe

Mape

who posts is being provided at entrance of Hata-Uda track.

Each post will consist of 5 men, and will mount at 2000 and dismount at 0600.

Positions for guard huts were selected and chasers are 1/4 strength.

Turner's Commandants.

Huts should be ready at 15/12/42.

Posts will be manned from (i) section in town (ii) training camp as members

available at present. Password to be issued.

Every thing ok here. Have kitchen started and
going along smoothly. Am in B9 contact
with FORO + Medo, but was unable to contact Bolo
will try again today.

Re Question as to the indications of Barometer.
with regards to the possibility of Portugal swinging
against us. I cannot see the possibility, but

should it occur There are two things @ Timor will
Not go in with Japs or @ Fronteira will not side with
them even if Timor does. So that's that.
Nothing else.

INTELLIGENCE REPORTS.

W/n/o

A

It is required, that intelligence reports be submitted to higher authority; and in order that the information be submitted in the correct form the following method of compiling reports will be adhered to - as far as is practicable.

Reports will be compiled under the following headings. Indicator letters and roman numerals may be used as references, when desirable. Only relevant headings need be used and NIL reports for headings not used are NOT required.

A. OWN TROOPS

- I Change of location of sub units.
- II Patrols. (a) Base from which operating and code name.
(b) Area of operation.
(c) Last report states.

B. ENEMY.

- I Variation in strength of locations.
- II (a) Movement to and from.
(b) Activity during movement (i.e. patrolling foraging, road work etc.)
(c) Strength.
(d) Time and date.
(e) Armament.
(f) Source of information (i.e. own patrols or O.P's, Portuguese, Chinese or native reports.)
(g) Reliability.
(h) Probability.
(i) Action taken and your deduction.
- III Enemy morale.

C. ~~OWN FORCES~~ SHIPPING OR AIRCRAFT MOVEMENTS.

- I Own forces.
- II Enemy. Each with subdivisions;-
 - (a) Number and type.
 - (b) Reported from.
 - (c) Time and date.
 - (d) Reliability.
 - (e) Probability.

D. LOCAL POPULATION.

- I European.
- II Native. Each with subdivisions;-
 - (a) Feeling towards own troops.
 - (b) Feeling towards enemy.
 - (c) Assistance given.
 - (d) Suspicious actions.

E. GENERAL INFORMATION.

- NOTES.
1. It is important that all reports show clearly the time and date its source and considered reliability.
 2. The above does NOT exclude the submission of special reports or the immediate reporting of important information
 3. The above will be of most value when reports are being forwarded by runner, but if it is kept in mind when preparing reports for transmission in cipher the work of collating reports at each H.Q. will be simplified

To: BAYO FROM: ATAB. N 2 5.

Enemy filled in their field works at EREMERA before they left and this coupled with their concentration in DILL gives one "seriously to think".

Can NOT believe they intend to remain concentrated in DILL for long; and so I desire the greatest vigilance by all troops in close contact.

I wish ^{you} to impress on your section comrades, that the primary role of the unit is INTELLIGENCE and if we get into positions where we suffer casualties or are scattered by a sudden enemy drive then we are NOT carrying ^{out} instructions.

The main endeavours of the unit during the next few weeks will be directed towards the improvement of the intel. system.

Should the enemy attempt to move out of DILL I desire every possible opposition to be given to them using to the full our greater experience and knowledge of the hills than when they first moved out.

It is highly desirable that the present organisation and location be maintained.

Good work at NASUTH am anxious to see your report
© Good hunting.

OSDO.

To: ~~0060~~ ⁰⁰⁶⁰ FROM: ATAB. N.I. 5.

Your interesting report of affairs up to 27 JUN received.

Enemy apparently concentrating in DILL and I ~~can~~ can NOT believe that they intend to remain so for very long; and it is possibly the preparation for a drive in some new direction.

Enemy filled in all the extensive field works they had constructed around ERENERA before they left and this may mean that they propose returning there at a later date and do NOT desire them to be used by us.

Wish ~~to~~ you to impress upon your section comrades that our primary role is INTELLIGENCE and should our desire to get close to the enemy lead us to positions where we suffer casualties or are scattered by unexpected enemy moves then we are NOT carrying out instructions from "on high". All endeavours in the next few weeks will be directed towards improving the intel. system of the whole force and it is hoped to be able to give you one or more 208 sets.

These sets, which are ~~so~~ much better than 108's should be most useful to you.

At present the reasons behind enemy moves, are ~~at~~ ^{vague} to me and I am most anxious that NO sudden moves catch the unit unprepared and scatter it.

For this reason I desire the greatest vigilance by troops in close contact with the enemy.

Thanks for sending on the saddles, I have NOT received them yet but am making enquiries from this end. © All the best.

MEDO has informed you re Laffy. Present
strength 31 including myself. Have received
instructions from Pedro that Sgt Pl Brown is
to be attached to me but he has not joined us
as yet. I have only received 8 out of the 10
men to be under my charge also ELLIOT &
RICHARDS joined us yesterday. If BREN has
not already been sent it could be held &
sent to M - when I get there. Am very
pleased about Bob's efforts as it is the
first action my section has had whatsoever.

1.
Dear Bernice, On the subject matter of your N.C. I think a few points may be cleared up if I write informally to you. In the first place, don't think, because my list reached you promptly, it was hastily compiled. I got from it, far, since before we got those other chaps away, I have thought a lot on this subject, probably, because it is my within my own sphere, more than you have. I have put to myself the following questions with regard to many men in the Coy:—

1/ Is he unfit for any form of service
2/ Is his future health likely to be jeopardised by remaining here.

3/ Is there any work at all which he can do, thus being useful to the Company and releasing a fitter man for more active work

4/ In event of enemy movement would his presence constitute a weakness and defence or offence; would other men have to be detached to secure his comparative safety or could he be told to "make himself scarce" with a reasonable chance of making his own way to a "safe" area.

If the answers to these questions, in any given case,

2
read 1/ho 2/ho 3/yes and 4/ⓐ ⓑ ho and ⓐ yes, then in my
opinion the man should stay.

I cannot think of any men - used in its wide sense -
other than those on my list, to whom alternative an-
swers to the questions would be appropriate.

My view is that men who have "joined up" must fulfil ~~to~~
their obligations unless they be excused for valid reasons
such as implied in my "questionnaire". There must be
no "stampede for the boats", nor harmful influence on
half-hearted men by knowledge that a return voyage may
be arranged for them. I could add other names in
the category of those you mentioned, which, to my way
of thinking, are not men who should be repatriated.

And there are many men - past their youth - who
can, and will, still do a good job for their country
here - such as Reilly, Greig and, for that
matter, myself.

Well, that, briefly, is my view point, to
which I can only add that personnel referred to,
except Seatt, whom I asked to have placed in my
report yesterday, are all doing a useful job.

Regards

It is fairly reliably reported that small parties of JAPS make fishing excursions every two or three days to a native village called PULACA which is two or three kilometers west of BATAGUDE. This information was given me by FRATERS who had it from one of his men who has been on patrol over in that direction. He says that the parties are never very large and that it wouldnt take a very large patrol to gather them in. I am passing it on to you for what it is worth. Another point I desire

CAMERON will make round trips to see personnel only when necessary and Fredericks will then assist SORO with A.A.M.C. work. His men were sent direct from the south without any medical attention and some are still troubled by sores. DEXO will NOT be given anything that he is NOT entitled to. RUTHER is, I presume on A.A.M.C. work. The position has been discussed with KVDO and is satisfactory to him.

Have discussed re-inforcements with BOMO and understand the "batch training" position.

Remark "1914-18"; do F.H.Q. see my messages? Sorry if it upset some people, but that is that.

Received supplies forwarded to me but say that boots being returned of no use whatsoever. Who ever sent these forward could be checked up on the seven (7) sets of webbing are one (1) waist belt short. All's quiet here. Have sent Bill Hillman plus six (6) men out forward & they will be out for about eight (8) days. All O.K. & hope all's well.

(WS-19)

My regular patrols are well within my own area - namely to a position overlooking the BULOBO RIVER, to a position overlooking the MAROBO RIVER. Three times I have patrolled out of my area but in each case have let SORO or TUTO know, in ample time for them to prevent me if possible. At 1800 hrs on 18 JUN I sent a ^{code} message DD4 to TUTO telling

him that I was sending a patrol to
ATTIBI. I had already made this
arrangement with ^{NANO and} TUTO when I
went to see ^{TUTO} ~~him~~ - message was to
make sure. BOB sign judged
the message unimportant with the
result that TUTO did not get
my message until 0800 on 19
JUN. He already had a patrol
at ATTIBI but say that time
mine was well on the way
with the knowledge that there were
no Aussie troops in the area.
Consider BOB sign ^{is} ~~is~~ a

Nothing very much to report this morning. A rumour from barometer says that although those troops landed from these boats some days ago almost as many went away again. This is not confirmed as neither is the report that A T Mines caught a truck in the V M area. MOST SECRET. Barometer had notification from one higher up that he may take any action he desires or thinks fit regarding those border incidents. He regards this as a sign of growing strength on the part of the man in question and feels very bucked up about it all. He may use both his boongs or the Cavalry, to quell any trouble that may be caused by the boongs from the other side. Treat this as confidential, please. Also will you bring under PENO'S

After the report of Japanese occupation of Hatalia I had the parameter make inquiries and after he got in touch with the G.O. at DEYOIS he heard that the Japs in question had come to Hatalia in trucks as it was first heard but as a walking patrol which came, one thinks that the trucks were sent back along the road towards E. He thinks that the trucks that were reported were trucks which came along the road to pick them up probably in the evening.

And Form 100 (Para of 100)

I know may be or may not be correct, but I am passing it on to you for what it may be worth. (2) Re Chinese Prisoner: I am sending him on to you but as far as evidence against him there is none. The C. de P. at Dexo's went out to the village where he lives and made a thorough search but could find nothing. The Chinese is living at this village (you have the name of it) with a native woman and as far as anyone there knows he is

O-K. The Native Chief was here and knows nothing of any connection between him and the Japs. The men I am sending over as a guard can tell you just how he came to be gathered in. The Baroneter says that you desire it, he will look him up for any period of time you may decide upon, but he

would not like to see him shot unless there is concrete evidence against him. (3) Re Message from DEXO: As far as I can gather, the story of this

matter is this: - On 18 Jun DEXO sent a message DD4 to SORO. SORO sent back a message and stated it was in reply to DD4. SORO then received a message from DEXO DD4 to TUTO. This he passed to TUTO station also passing SORO's reply to DD4 there (for SORO's information thinking it may have some connection). By this time it was late in the evening and

apparently through some misunderstanding this wasnt handed to TUTO

until it was late to prevent the clash that etc

It is ~~thought~~
necessary to ~~remain~~ ^{obtain} close
contact with ^{the} enemy,
who now seem to be
nearly located in
Cemera and Dali. For
this purpose it is ~~thought~~
advisable to close the
gap immediately south
of Dali and on the left
of COSO.

To achieve this Dalo
will move his area
eastward and forward
to a position behind
LOU LARA and LANANE
and will establish
contact on his right with

2
ROSO.

BOMO and TURO are
interchangeable with SORO
and BELO @ BELO will then
come under the command
of DALO @ when established
SORO ~~will~~ will operate
~~from~~ WUNUMOQUE
and HATO BULICO and
BELO will operate
between MAOBISSE and
AILEU or elsewhere at
the discretion of DALO @
It is important that
DALO ~~must~~ report
all movements of his
flotilla until established

~~at~~
A Pl will
endeavour to operate a
section of men along
the western flank of the

company and into the
old A & B PE areas

With the concentration
of the enemy in few places
there is a ~~low~~ ^{high} risk of patrols
sent from ~~some~~ different
areas clashing and every
care must be taken to
notify the H.Q. and the Pl.
Centres on either side of
patrol movements.

~~At this point~~

~~That~~ Am particularly
desirous that you bear
in mind always the fact
the enemy may push
out and in which case
~~patrols~~ and ~~plines~~ ^{is}
a risk of platoons being
scattered. ~~It is~~
~~that the~~ ~~may be~~ ~~avoided~~
~~in~~

It is ^{highly} desirable that the
~~present~~ force not move from
its present area; and
should ~~to~~ enemy moves
threaten ~~it~~ our occupation
the platoons will move to
bases ~~any~~ such enemy
movements.

TO NANO
FROM GOSO

(17)

Am enclosing 2 messages which have just been received from the EAST end of the island. The one written in English is from a Porto friend of mine who was living in this area but recently took his family to Boucau. I can not quite get the gist of the messages so am sending them on to you to see if you can make anything of them. The Porto who brought the notes through to here tells me there are about 200 Aussie troops on Kassar. NEAVE may know something about it as his name is mentioned in the messages.

view of his remark
re TSING. ~~Said~~ TSING

Is it possible to

1. A complaint has been made by the ADMINISTRATOR of this PROVINCE concerning 2 matters.

(a) The O.C. Troops at MALIANA has given and enforced orders that the phone at that place is to be used by nobody at night.

(b) That AUSTRALIAN Troops in that area have been punishing natives in ways of their own.

2. If these practices have been in vogue they must CEASE FORTHWITH. The phone is to be left open for the full 24 hrs, without any limitation. Natives are PORTUGUESE (i.e. neutral) subjects, and must be handed over to the PORTUGUESE authorities for any necessary disciplinary action.

3. You will supply immediately to this H.Q. a full report on these complaints of the ADMINISTRATOR'S and on any happenings that may have led to them.

4. Herewith 1 compass prismatic and a little bit of stationery - all that can be spared.

TO SO ROY W I N O 52 27 W 1/12/22

(a) With regards to those when we first came here no one got any sleep from being on phone using unnecessary to his cables at night when PRESO complained we gave definite orders to resume their duties although the chief operator knows of it we have trouble every night of phone ringing & no operator here to answer it. We sleep in house with phone in middle or less. Recently one pair of Inos here were very lazy with regards to answering phone

(b) As regards treatment of natives I have kicked the case of 1 Ino who stole some of our food and 1 who wouldn't answer phone because of laziness but of any other disidence I have no recollection. We have our boys here & the natives in area are very friendly to us. Indeed and would like Administrator to define any cause here of unnecessary beatings. Regards

Intelligence Report

6. Pl.

A 11. Separate report attached.

B 1. Enemy have evacuated ERMERA and returned to DILI

11 (a) Most movement carried out by MT but some large parties reported.

(b) Appeared to be complete evacuation as trucks were well loaded with stores & equipment carried large packs.

(c) Columns of 8 trucks. Patrols on foot varied from 20 to 100 men.

(d) From 27 June to 2 July.

X (e) Appeared to be armed with Rifles, Light Guns, 4 m Gs. 4 m Gs & mortars.

(f) Own patrols & O.P.s.

No.

Reece Report.

Rep map Port Louis 1/25000

Patrol - East Baylands. To summit.

Left Mac 0900 hrs 28 June 44 (map Ref 08412527) & proceeded to Satah heruk (Ref. 08402528). Time taken 1 1/2 hours.

Country is very rugged & ideal for our operations.

Travel would be almost impossible without native guides.

Left Satah heruk 1100 hrs for BOHAKI (Ref 08382529).

Track drops steeply to bed of Kailas River & rises even more steeply on opposite side to the ridge overlooking the main road & all country to the sea. Excellent O.P. can be obtained in all directions from this ridge. Bohaki was reached at 1300 hrs.

Natives here were very helpful & interested. Their willingness to help in any way possible. Native

No.

guides were obtained here & recon was made of
new bridge built by JAPS and three spurs. No
JAPS were observed anywhere in this area but
signs of recent occupation were seen. The bridge
is built of rough bush timber & although quite
strong could easily be destroyed.

Following morning we left for Biduru (Ref 08242532)
on the West bank of the Comoro River. (Time 2 hours)

The natives here have experienced JAP methods
and consequently ~~are~~ are very willing to help.
Good ops on D.H.I. (Town & Drone) can be obtained
here & a day & a half were spent in observing
enemy movements.

JAPS have built a bridge over the Comoro which
 carries 3rd ton trucks fully loaded. It appears to be
 of similar construction to bridge near Three Spies
 & could probably be destroyed quite easily should
 this would not serve any useful purpose at the
 moment as the river is low & easily fordable.
 Much activity was observed on the aerodrome &
 - many men appeared to be digging & 4th trucks were
 moving backwards & forwards from D141 all the time.
 A covering party of 20th men was entrenched near
 the Western end of the EAST-WEST runway.
 Movements of troops & stores from Enneka & Hailaco
 were observed.

No.

Large fires started in D141 by bombing on 20 June

are still burning & TAPS are apparently not making any effort to extinguish the fires. Natives say that TAPS are now all in Sabau & some are in D.H.I.

From observation it appeared that some TAPS are camped in the coconut palms on the western side of the Drance, but number unknown.

On 1 Jul started on return journey & at Bohak X was received by deputation of about 50 natives including shepe hoo from TICAR. The natives here are building a hut in a good position to accommodate a section and have advised me that food will be supplied.

Natives informed me that there were TAPS at house

so decided to return that way & investigate.
 From Ashak to hasuta by native track took
 1½ hours & we observed two SAPS on road
 in front of the house. Careful search of all
 surrounding country failed to locate any OPs so we
 knocked the two off & deamped. We saw no
 answering fire so assumed the two were the only
 ones there.

We then returned to Sec across country where
 we arrived at 1630 hrs.

The country traversed offers good facilities for
 operations & Secs will be moved further East
 immediately.
