HINTS ON ECONOMY PRINTING & STATIONERY

ENVELOPES.

1. Don't use a large envelope when a small one will do by folding the enclosure to the smallest practicable size.
2. Don't use a new envelope except for the (outside public) when a "use-again" can be used with economy stickers.
3. Don't use an envelope at all when the same result may be obtained by post the communication, or for any but confidential matter within your own Unit.

PAPER.

4. Don't use foolscap paper when a quarto or octavo sheet will do. Octavo will do for short memoranda and quarto for minute-sheets and files in many cases.
5. Don't use a new sheet of paper for rough drafts, notes or messages, when the obsolete forms or memoranda, which have served their purposes, are available.
6. Don't write on backs of unused printed forms.
7. Don't keep stocks of paper and forms in a place open to dust—Dirt leads to waste.

BLOTTING PAPER.

8. Don't be extravagant with blotting paper—it is scarce.

RUBBER STAMPS.

9. Don't demand unnecessary rubber stamps—supplies of rubber require to be conserved.

PADS FOR INDIA RUBBER STAMPS.

10. Don't leave the lid of the tin open. The life of a pad is prolonged if the lid is closed and the tin is turned upside down when not in use.

TYPING AND DUPLICATING.

11. Don't use double spacing unless you have instructions to do so for particular classes of documents.
12. Don't insist on retyping for trifling errors. A manuscript correction saves paper and typiste's time.
13. Don't ask for unnecessary carbon copies.
14. Don't throw away carbon sheets when they are only half exhausted, nor discard typewriter ribbons until they have been turned.
15. Don't neglect the regular cleaning and oiling of machines. A clean typewriter gives longer life, fewer repairs and better output.

PRINTING AND DUPLICATING.

16. Don't be extravagant when requisitioning for printing or duplicating paper, which is scarce. Stocks are not to be built up and hoarded by Units, Branches and Depots.
17. Don't duplicate if a typiste can run off a sufficient number of carbon copies by carbon typing.

ARMY FORMS.

18. Don't create new forms; approval must be given by L.H.Q. Whenever possible use standardised forms, obtainable from Stationery Depots.
19. Don't destroy old forms. They may be used for memoranda or other purposes.

MISCELLANEOUS.

20. Don't use large memoranda books when smaller ones will suffice, and Don't use large ones unless absolutely necessary.
21. Don't leave the cover off the bottle—Ink evaporates—paste hardens—gum becomes thick—by undue exposure.
22. Don't use wire clips and paper fasteners when pins will serve. Pins are cheaper than some less metal, and in many cases are more effective—they can be taken from papers and used again.

WASTE.

23. Don't throw away wrapping paper and string. Save it for future use.
24. Don't forget that a small economy in each office means a large saving throughout the Service.
