0830 Recce Pts moved out.
0837 Vanguard
0852 R Gp
0857 O Gp
0907 Main Guard

The journey out was wet and slow. The very bad state of the roads made progress slow. Shortage of pers. resulted in poor comms and very little infm was handed back over early stages. Slight enemy resistance met but no stand made by him until HILL DIVER & SPINE AREA. At this point J Coy carried out a successful attack and drove enemy from NOSE PIT. At 1630 Bn attacked LONG DIKE and captured same. Exercise at this stage called off by Brigadier and Pts returned to camp.

Throughout the day the exercise went fairly smoothly though rough and wet weather made the travelling difficult and on the way back to camp many vehicles became bogged. B Echelon paired worst of all and some vehicles did not return until 1000 hrs on 20 Aug.

The Bn in attack portion of the exercise was supported by the Bty and ME Coy using live ammo which made the show more interesting.

Special mention may be made here of the work done by the Carr Pl. During the day this Pl carried out in a very efficient manner its role of recce Pts and after much struggling with two cars which became badly bogged worked till the early hours of the morning pulling other vehicles out of difficulties.

GENERAL REMARKS.

The unit has improved considerably both in morale, esprit de corps and spirit of trg since mvt to present location.

A large percentage of the unit on C.W.P. has given the unit its first real task and this has been successfully carried out. All pers concerned are imbued with the importance of the task which is evident in results obtained to date.

Entertainment of the tps has been a major concern, both at night by means of unit concerts and on leave days and Sunday afternoons by inter-unit and inter-coy football and soccer matches.

Physical standard has improved considerably, a result of the period of unarmed combat trg which the unit is just completing.

1. The practice of firing weapons from troop trains or M.T. vehicles on roads is forbidden. Many instances of damage to insulators and telegraph wires, resulting in considerable delay in communications have been attributed to this.
2. If a telegraph wire is broken, the channel of inter-communication is immediately interrupted, and the fault must be located before the service can be restored. To effect repairs, line parties must be sent distances of up to 100 miles. If the insulator only is broken, the wire will rest on or touch intermittently the cross-arm, producing a fault which is very difficult to locate. Where the circuit concerned is of the "carrier" type, two or more telephone and telegraph channels may be effected. The vital importance of maintaining these channels of communication is self evident. O.Cs Trains or Road Convoys will be held responsible that the order is carried into effect. 16 IDENTITY DISCS.

1. The number of Identity Discs being found and handed in to this and other HQ's seems to show a lack of appreciation on the part of the troops of the vital necessity for wearing of Identity Discs AT ALL TIMES.

2. The discs should never be removed from the body and all posts will again be warned of the seriousness of losing the Identity Discs.

Irregularities are evident in the method of suspension of the Discs. It is very necessary that the correct method be used, otherwise the green discs will be lost and the identification of the body rendered more difficult.

3. The correct method of suspension is as follows:-

32" of cord is threaded, singly, through ~~upper~~ hole of green disc and the two ends securely knotted.

12" of cord is threaded through the hole of the red disc and the two ends securely knotted.

This will enable the red disc to be covered and removed, leaving the green disc suspended from the neck for the purpose of identification of the body.

4. All coys will check this point carefully:-

Where Discs have been lost, the necessary disciplinary action will be taken and a new set will be issued without delay.

26. TRANSFER OF PMF AND CMF IN AIF.

With reference to GRO 168/42, it has been decided that where 75% of strength of a CMF unit volunteer for service in the AIF that unit shall be classified as an AIF unit. When this standard of transfer has been reached in the case of any CMF unit that unit will be advise its next higher Formation HQ, which will at once notify LHQ through the normal channel so that action to amend classification can be taken. 2nd Ech LHQ will maintain a check from Part 11 Orders of the pers transferring and will notify LHQ immediately the unit has recorded 75% of its total strength as having been transferred to AIF. No transfer between units or change of posting or appointment within a unit will be affected as a result of change of classification of a unit of CMF, without prior instrs from LHQ. Members of such CMF unit who are not accepted for AIF and those who do not volunteer for AIR will be withdrawn to depots in the event of the unit being required to proceed overseas and the members so withdrawn would be replaced by AIF.

27. DISCIPLINE - DRIVERS MT.

Complaint has been made by the Board of Business Adm that in some States there has been laxity in the observance of State Traffic Laws, and in particular that there has been unsatisfactory behaviour on the part of military pers towards police offrs; speeding, laxity in screening of lights of vehs, and prolonged parking in streest.

Close supervision will be exercised by all pers to ensure that such conduct is eliminated in W.A.

28. CENSORSHIP.

Attention is particularly directed to GRO 286 - Censorship - which reads as follows: -

"CENSORSHIP".

In view of the increasing number of letters which are being posted by army personnel by:

- (a) Handing mail to civilians for posting;
- (b) Posting mail in civilian boxes.

In future ALL mail intercepted by the civil censor and found to have originated from Army personnel WILL BE DESTROYED, and disciplinary action taken against the offenders.

2. Punishment for breach of censorship appear to have been much too light, as the number of cases of breach of the regulations is rapidly increasing.

3. Monetary fines for proved breach of censorship regulations will therefore be imposed. Pers found guilty up to 31 AUG will be fined £1. from 1 to 15 SEP 42, £2, and thereafter £3.

4. The imposition of these penalties will, it is hoped, cause pers to observe the regulations.
