Allocation of Cipher Personnel and Cipher Books

The present mobile ops indicate that a change in the allocation of Cipher books and personnel is desirable. With W/T the primary means, the bulk of traffic to 7 Armd Div and XIII Corps is sent in High Grade Cipher. At present, of the two sets of books held, one is allotted to Rear Div. The one set at Adv Div is inadequate to handle traffic in the present circumstances. Also, when Adv Div moves, it is desirable that Cipher personnel be included in the Adv gp Div Sigs. When the Cipher personnel arrived at the present site three " immediate" messages awaited enciphering.

As it is seldom necessary to encipher messages to Rear Div (the average is about two messages a day), it is submitted that both sets of High Grade Cipher books should be at Adv Div.

It is desirable also that the additional personnel be at Adv Div but, if it is essential that cipher facilities be provided at Rear Div, Field Cipher should be used.

My Dear MacKay,

I have just come across the 5 Fusiliers in Cheminee, & I think it will save you a lot of trouble if I send them on to Solluch to take over the prisoners. It is an awful nuisance splitting up a brigade, and I had forgotten when I spoke to you that they were available. You will not therefore be required to bother about the prisoners, and Corps will make all the arrangements.

You can help by directing any you see on to Solluch.

I am sorry to rob you of 5th Fus., but I feel it will really help you and save you a lot of trouble.

I think it an awfully good show on your part getting a full brigade going up so quickly.

Au revoir,

yours ever,

5 P.M. R.A. O'Connor.
