BY

LT.-COL. J.S.G. COLLIER. COMD. 54 AUST. INF. BN. (AIF).

PART I. 1 OCTOBER, 43.

263 UNIT CENSORS

Instances have occurred where unit censors have been opening correspondence after franking, for the purpose of re-checking. Such practice is to cease. The attention of all concerned is directed to LHQ Field Censorship Instn No 4 Appx "B" para 9 (a), an extract of which is quoted hereunder;-
"The unit censor is NOT a Censor within the normal meaning of the word. Neither he nor any other unit officer has the authority to read or undertake any re-check of franked correspondence - such responsibility rests with a Base Censor, or a member of a Field Censor ship Section in the Course of official duty only."

264 LEAVE - MT PICQUETS.

Reports indicate that picquets on the MT at the leave car park GERALDTON are NOT functioning as they should. Frequent inspections will be made and any slackness will meet with strong disciplinary action. Picquets must be always on the alert.

265. OUT OF BOUNDS - BREAKWATER - FISHING AREAS.

GERALDTON BREAKWATER is out of bounds to all personnel. Personnel will NOT move beyond line BREAKWATER - LIGHTHOUSE or line BLUFF PT - mouth CHAPMAN river.
Approach will NOT be made to RAAF, RAN, or other services or authorities nor arrangements made for boat fishing except through Bde HQ.
(All personnel are to be warned on parade of the above).

266 OFFICIAL TIME

In order to eliminate errors in the notification of official time all units of the Australian Corps of Signals will make arrangements, where possible, to obtain the correct time direct from broadcasts of the Australian Broadcasting Commission or the British Broadcasting Corporation. Where reception of broadcasts is not possible, time will be obtained from the signal office of the next senior formation.
2. Units of the Australian Corps of Signals will be responsible for the distribution of official time and will use the procedure laid down in Signal Training (All Arms), Pamphlet No.8,1942. Sec.12.

267 TRAIN DISCIPLINE

RTOs have reported further cases of interference with Railway property, such as vacuum brakes.
To this effect it is desired that attention of all ranks be drawn to Div RO 470 of 12 May 43, reference the abovementioned subject.

"Several instances have been reported during the past weeks of personnel whilst travelling on the various Railway Systems riding on the steps of vehicles and stepping from one vehicle to

AUSTRALIAN WAR MEMORIAL RCDIG1023869

another whilst the train is in motion. Accidents have occurred, some with fatal results.

Attention of all ranks is therefore drawn to the following:

The OC train is responsible for the discipline of the troops travelling and security of unit equipment and other Service stores conveyed on the train. He will ensure that the regulations of the Railway system are strictly observed by the troops. He will not, however, interfere with prescribed running of the train or the working of the Railway Service. At stations where an RTO is located, OC Train will make any requests to the Railway authorities through that Officer who is the channel of communication between the troops and the Railway Operating Staff.

Before leaving the entraining station, OC Train will warn troops against;

(a) Boarding or leaving trains in motion;
(b) Leaning out of windows and doors, or protruding any portion of the body from the train as to be in danger of being struck by side or overhead structures;
(c) Throwing anything out of the train;
(d) Interfering with or causing damage to railway property (windows, doors ,brake-gear and other fittings);
(e) Chalk marking of rolling stock;
(f) Discharging firearms except pursuant to orders;
(g) Carrying or consuming liquor on the train, unless supplied as part of the normal service available in a dining car;
(h) Occupying any portion of the train other than that set aside for their accommodation.

268 LOSS OF PAY BOOKS.

1. With reference to GRO P.623/1942, para 4, members wilfully destroying or losing by neglect their pay books will be charged under AA 24(i), AA24(2) or AA 40, whichever is appropriate in the particular circumstances.

2. Members making false statements in declarations regarding the loss of their pay books will be charged under AA25(i).

269 M.T. - FAN BELTS.

Recent inspection of unit MT by AEME has revealed cases of badly worn front and generator bearings. This is attributed, and confirmed by special inspection, to drivers not observing correct tension on fan belts. In many cases tension was found excessive - particularly with Carriers MG, where fan belt play can be over more than one inch between generator and water pump.

This practice causes spreading of the rails with obvious possible serious consequences to rolling stock.Damage to water pipe lines or signal communications can have equally disasterous results.
NO army veh will enter railway yards or cross railway lines or other railway installations except at authorised crossing places. No veh. will be driven astride or "straddling" railway lines.

The fourth Liberty War Loan of £125,000,000 is now open for subscription.

Arrangements have been made for Paymasters to accept applications for Commonwealth Government Inscribed Stock or Treasury Bonds from members of the forces serving in Australia or New Guinea who may be desirous of investing their savings in the loan.

Particulars of Loan. Loan applications may be made for an amount of £10, or higher amount being a multiple of £10.
Stock will be inscribed at par for amounts of £100 or multiples of £10 above £100 as required.
Treasury Bonds are payable to bearer and are issued at par for £10, £50, £100, £500 and £1,000.
Interest is payable at 2½% per annum if invested for five years and at 3½% per annum if invested for sixteen years, and will be credited half yearly to the member's savings bank account or current account if desired.
Interest will be subject to Commonwealth taxation, but will not be subject to any income tax under the law of a state. During the period of uniform taxation, a rebate of 2/- in the pound on interest will be allowed to cover freedom from state taxation.
Any Bank nominated by the member will hold the bonds in safe custody for the member if so desired.

Procedure for Lodging Application. Application forms will be available from Paymasters or may be obtained through unit Pay Sergeants, and are required to be completed in duplicate. The applicant's signature will be witnessed by an officer of the same unit.
Sufficient credit must be available in the member's paybook to cover the amount it is desired to invest in the loan. The amount subscribed will be debited in the member's paybook.
Paymasters may accept cash in payment of loan subscription, in which case the amount tendered will be entered in the paybook to establish the necessary credit and an official receipt issued and pasted in the paybook.
The Commonwealth Bank will forward to members an interim receipt for the amount subscribed.

General. Both Treasury Bonds and Inscribed Stock are readily realisable and may be sold at any time. Any Bank will arrange this for the member if desired.
Where practicable, the substance of this order will be explained to personnel on parade.

No indents will be placed on RAAF or US Army Air Force for 73 octane aviation gasoline (containing no tetra-ethyl lead) unless specifically required for use in aircraft engines. Any such indents will be endorsed by the Commanding Officer of unit "Required for Aircraft Engines".

ROUTINE ORDERS.
BY
Lt.-Col.J.S.G.COLLIER. COMD.54 AUST.INF.BN(AIF).

PART. 1. 23 OCTOBER 1943.

277. UNLAWFUL DISPOSAL OF EQUIPTMENT.

(1) Attention has been directed to the unauthorized disposal of AMF equiptment to members of the Allied Forces, and civilians and the unauthorized receipt of Allied equiptment by barter and otherwise by members of the AMF.

(2) Members are forbidden to part with, dispose of, or exchange by barter or otherwise, any item of AMF equiptment or to receive by barter or otherwise any item of Allied equiptment without the consent of the commanding officers of their Units. Such consent will only be given on the direction of superior authority or when the exigencies of the service render it necessary and reference to superior authority is impracticable.

(3) Disciplinary action will be taken against members unlawfully disposing of AMF equiptment, or unlawfully in possession of Allied equiptment, charges being laid under AA 17, AA18(4) or AA40, which ever is appropiate.

278. DENTAL FITNESS OF AMF MEMBERS ON DISCHARGE.

(1) On the finalization at GDD of any member of the AMF who is to be discharged, a dental examination of the member will be made by a Dental Officer.

(2) The object of this dental examination is to record the dental condition of a member, and the result of the examination will therefore be entered on AF I.5033, which will be attached to the member's AAF D2, or AAD-D2(a).

(3) If the examining dental officer considers that the member has insufficient natural teeth in occlusion to enable him to mast-icate efficiently and the member has not been supplied with suitable dentures, he will be supplied with suitable dentures.

(4) It is desirable that the supply of any necessary dentures should be effected prior to the discharge of the member concerned but when this is not practicable the member will be requested to attend at an appropiate army dental centre and will be provided with a rail warrant from his ordinary place of intended residence to that centre.

(5). No other dental attention will be undertaken by army dental officers as a result of any such examination, except such as may be necessary for the urgent relief of pain and minor repairs to dentures.

(6) Any ex-member discharged prior to the issue of this order who had insufficient natural teeth in occlusion to enable him to masticate efficiently and who had not been provided with suit-able dentures may, on the authority of an ADDS, be supplied with suitable dentures. To enable him to attend at an appropriate army dental centre, he may be provided with a rail warrant from his ordinary place of residence to that centre.

(7) (a) In this order "discharge" includes the termination of the appointment of an officer.
(b) The provision of this order relates only to members of THE AMF who are serving or who have served on continuous full time war service.

279. PENSION AND COMPENSATION BENEFITS FOR MEMBERS OF THE AM AND THEIR DEPENDANTS.

Members covered by the provisions of the Australian Soldiers Repatriation Act:-

1. By virtue of the recent amending Act No.22 of 1943, the Australian Soldiers' Repatriation Act 1920-1943 (hereinafter called "the Act") now has an extended field of application and the following information is promulgated.

2. All members of the AMF, including members of the AANS, the AWAS and the AAMWS, who are serving in pursuance of an enlistment or appointment or call up, such enlistment, etc., bain for continuous service for the duration of and directly in connection with the war, may, under certain conditions, become eligible for pensions and other repatriation benefits under the Act and/or the regulations thereunder in respect of incapacity resulting from war service. The Act makes provisions also for the dependants of such persons to receive pensions in respect of such incapacity.

3. In the event of death resulting from the war service of any such member, his or her dependants may enjoy certain rights, such as pensions, and, in certain cases, other repatriation benefits, e.g. assistance under the Soldiers' Children Education Scheme.

4. The bases of eligibility are incapacity or death which, in the case of a member who was employed on active service (e.g., service in New Guinea or elsewhere over seas), results from any occurrence happening during the period from the date of his or her enlistment to the date of the termination of service in respect of that enlistment; or, in the case of any other member of the forces, incapacity or death which has arisen out of or is attributable to his or her service as a member of the forces:

Provided the incapacity or death of the member-

i. is not due to the serious default or wilful act of the member;

ii. does not arise from intentionally self-inflicted injuries; and

iii. does not arise from, or from any occurrence happening during the commission of, any serious breach of discipline by the member.

5. Responsibility for the administration of the Act and the regulations thereunder is vested in the Repatriation Commission, Melbourne. The Commission is represented in each capital city in the states of the Commonwealth by a Deputy Commissioner of Pensions, Repatriation. Applications under the Act or the regulations should be addressed to the Deputy Commissioner in the State in which the applicant resides.

6. War pension claims, usually, are dealt with in the first instance by a Repatriation Board, which is located in each State at the office of the Deputy Commissioner. Any appeal against an adverse decision of a Repatriation Board lies to the Repatriation Commission, but such appeal should be addressed to the Deputy Commissioner, who will give the matter attention and refer it to the Repatriation Commission. Should the Repatriation Commission decide that incapacity or death has not resulted from an occurrence happening during the period from date of enlistment to date of termination of service in respect of that enlistment, or has not arisen out of service or is not attributable to service, the claimant, or appellant, may then exercise his or her right of appeal to the Independent War Pensions Entitlement Appeal Tribunal, which is the final appeal authority in such matter.

7. The Army Rehabilitation Section gives to each member whose services are about to be terminated a copy of Army Book 84 which contains an outline of entitlements provided for ex-members of the forces. Further information in regard to entitlements under the Act is given in the booklet "An Outline of Repatriation" which has been issued by the Repatriation Commission and is obtainable on application at the office of the Deputy Commissioner of Repatriation in each State.

AUSTRALIAN WAR MEMORIAL RCDIG1023869

279. Cont'd.

8. Where a members services are to be terminated on the grounds of medical fitness the member is examined by a Final Medical Board, of which one of the members is a medical officer of the Repatriation Commission, and in addition, an Officer of the Repatriation Commission is in attendance to advise and assist the member in the preparation of claims. Where the final medical board indicates entitlement to pension, the member is retained on Army Pay for 60 days to enable the Repatriation Commission to deal with his or her claim and arrange payment of pension in approved cases.

Members Covered by the provisions of the Defence Act.

9. The rights to compensation of a member of the AMF not called up for continuous full time war service will continue to be governed by the Defence Act and the regulations made thereunder.

10. The basis of eligibility for compensation, as from 27 May 42, is, however, death or incapacity directly attributable to employment as a member of the Defence Forces and not, as prior to that date, death or incapacity on war service or on duty as prescribed by Section 57 of the Defence Act - vide Regulation 16 of the National Security (Supplementary) Regulations.

11. Compensation under the Defence Act is payable only to the widow and family of a member in the case of his death.

12. (a) Where the compensation provision of the Defence Act, i.e. lump sum payments, are considered inadequate, an act of grace payment may be made upon a scale not exceeding that which might be granted under the Australian Soldiers Repatriation Act If the member has been a member of a forces within the meaning of that Act and has otherwise complied with the conditions of eligibility prescribed by and his claim had been dealt with thereunder.

(b) All applications for compensation referred to L.H.Q. in accordance with M.F.R. 7 1289, et seq, will be accompanied by a report showing number of dependants, relationship and financial position of claimant and any further information which will assist in arriving at a decision whether the amount of compensation payable under the Defence Act and M.F.R & I is adequate in the circumstances.

(c) Cases which have occurred since the outbreak of the war and which have not been completed may be adjusted on the basis of set out in sub-para (a) of this para. Compensation in these cases has been paid on a weekly basis and any further action necessary in this connection will be taken by L.H.Q.

13. In view of the hardship which may result to members and their dependants as a result of delay in dealing with claims by reason of non-production of essential documents and by reason of incomplete information, reports of investigating officers and medical boards will contain all the necessary information and will be completed as soon as possible after the occurrance.

280. M.T. FUEL DRAININGS - ARMY 4 and 44 GALLON DRUMS.

1. Except in the cases referred to in para 2 hereof, M.T. fuels in 4 and 44 gallon drums will be thoroughly drained in to M.T. vehicle tanks before the drums are returned to Supply Officers.

2. In cases where the above action is impracticable or would be imprudent owing to the presence of small water accumulations or other contaminants, the dregs will be emptied into clean 44 gallon drums, The fuel thus saved will then be either used in Unit vehicles or passed to Salvage for disposal.

281. RETREAT.

In future when Retreat is sounded all personnel in tents or buildings within camp area will maintain silence.

1 Cook (TG.11) supplus.

UNIT PERSONNEL

~~1 Cpl deficient~~ (Reinft NOT reqd for reason stated below).
99 Ptes deficient (These reinfts are required and General Dutymen will meet needs of Unit).

ATTACHED PERSONNEL

No deficiencies or surpluses.

.....

N.B. A deficiency of 2 Cpls is shown on face of return. Reinforcement NCO are not required, and promotion of unit personnel to fill the said two vacancies cannot be made, as the unit has been notified by formal Reinforcement Orders that three (3) Reinforcement Cpls have been allotted to Unit and are on their way to join Unit.

N.B. WOs, S/Sgts and Sgts are shown on the face of the return according to their WE postings in preference to their actual ranks. The fact that this Unit has four upgradings (approved by DRO to be held above the rankings authorised for the appointments) causes confusion when an attempt is made to show the true picture by a system of surpluses and deficiencies in the respective ranks.

The ranks affected are as follows :

WO.1.RAUCHLE. F.N. CSM included in WO.lls, which is WE rank for his Apptment.
WO.ll.ELLIOTT.A.E. S/S Sgt " " Sgts " " " " " " "

ROUTINE ORDERS

BY

LT.COL.J.S.G.COLLIER COMD 54 AUST INF BN AIF.

PART 1. 9Nov 43

285. TELEPHONES.

Attention is drawn to the necessity of frequent testing of tele-phone communications by signals.

Recent cases indicate that certain Coys.have been in the practice of leaving telephones unattended for lengthy periods,with the result that times is wasted by the despat ch of linesmen to check lines connecting such Coys.

Where possible an orderly will be detailed to take calls when Officers or Office Staff will not be present,to do so.

When such procedure is impracticable,Sig Office or Sig Centre will be advised of probable period for which phones will be unattended.

286. SECURITY-UNOFFICIAL PHOTOGRAPHS.

Recent breaches of security revealed in intercepted photographs indicate a lack of understanding of security of information.

While it is not intended to restrict unduly the scope of individ-ual photographers,the potential danger of unrestridted photography of censorable objects must be stressed upon all ranks.
Units will ensure that all ranks know what are censorable objects for unofficial photographers and that they understand the reason for their being classed as such.
Common sense and an understanding of security of information are essential in this matter.

287. ARMSTICE DAY 1943.

(a) Requisite sreps will be taken to ensure that all ranks observe the two minutes silence,subject to exigencies of active service.

(b) The Corps Comd. approves of the wearing of poppies on Armstice Day by troops in uniform.

8. PAYBOOKS-IDENTITY DISCS-FIELD DRESSINGS

Unit CO's will ensure that Pay Books identity discs and field dressings are carried by all ranks at all times.

When it is necessary for the paybook to be handed in for any purpose other than the normal fortnightly credit entry(and then the paybooks will be handed in in small convenient batches and returned to the soldier immediately)the pay Sgt will issue the soldier with a receipt for paybook- WF.201.

289. DISCIPLINE - TRANSPORTATION BY USNAF PLANES.

(a) It has been brought to notice that personnel are reporting without authority to FLEETAIRWING,10 Sqn USNAF(with HQ at CML Bldgs.),with the object of seeking transportation by USNAF Planes
(b)This practice will cease forthwith and the attention of all ranks will be drawn to the fact that strong disciplinary action will be taken against any [illegible]

(b) Applications for transfer to Aust Army Pro Corps are invited and will be forwarded through correct channels to this HQ.Only in exceptional circumstances will transfers be refused.

(c) As far as practicable,selected personnel will be non-trade grouped but tradde grouped personnel may be transferred if they are not at present being employed in their capacity.

(d)Applicants must be of good physique,minimum height 5ft 9 ins, with good disciplinary record and preferably to have served with a field unit.Personnel required to wear spectadles or having any marked physical disability are not acceptable.

(e)Selected personnel will be drafted as OPro Reinf. to LHQ Pro Trg School,DARLEY?for approx. six weeks training;on completion of which successful candidates will be posted by 2nd Echelon to appropriate units.

(f)Personnel who fail to qualify at LHQ Pro Trg School,or who are considered by the CI to be unsuitable will be immediately returned to their units.

(g)Personnel will be selected by APM,3 Aust Corps and transfers effected through "a"branch 3 Aust Corps.

291. LEAVE.

(a) It has been brought to notice that troops are overstaying night leave to PERTH and returning by first train next morning This action not only shows lack of discipline in Units concerned but is causing considerable concern to WA Govt. Railways.

(b) All Units within 15 miles of PERTH will institute roll calls at irregular intervals and ensure that the practice ceases.

292. OUT OF BOUNDS - MINNINOOKA LTD. - LAND.

It is advised that all land,the property of MINNINOOKA Ltd. (H.M.READHEAD,Managing Director),within the approximate boundry of map reference GERALDTON 1" to 1 mile, 760190,880190,880326, and 760326,is out of bounds to all troops.

293. RATIONS - HANDLING OF FROZEN MEAT.

Ref. 2 Aust Div Adm. Inst. Q.93 of 24 Oct 43,amend number to read "Q.95".

294. GATES ON PUBLIC AND STATION ROADS - N W AREA.

(a) Complaints have been received from station owners that gates have been left open after passages of convoys.

(b)In future,ALL gates NOT"wired back"MUST be closed.

(c) In convoy OC convoy or Senior NCO will be responsible for the execution of this order.

(e) For a single vehicle the driver will be responsible.

295. USE OF GRENADES? HAND, JAPANESE, TYPE 91.

1. This grenade is in common use by the Japanese and quantities have been captured and used by our troops.Tests indicate that the grenade has certain characteristics which may lead to injury in the hands of inexoerienced personnel.These charact-eristics are:-

AUSTRALIAN WAR MEMORIAL RCDIG1023869

295. contd.
(a) The d elay fuse,marked 4/5 seconds,has been known to burn in much less time.Some tested fuses burned in three sec.

(b) While the delay fuse is burning,a considerable amount of black smoke is emittedthrough the escape hole at the base of the fuse tube,and small fragments of the delay fuse are sometimes forced out. At night or even at dusk or dawn,a a definite glow from this hole can be seen.

2. The following precautions will be taken if the grenade is used:-
(a) It will be thrown immediately the head has been struck;
(b)When striking the grenade,the hand will be kept well clear of the escape hole at the side of the fuse tube.

296. GRENADES, NO.36M - DESTRUCTION OF BLINDS.

1. Due to the possible occurrence of hangfires,as a result of slow burning fuses,it is essential that an interval of fifteen minutes and NOT five minutes,as previously published,be allowed to elapse before action is taken to destroy blind 36M grenades

2. An amendment to small Arms Training,Vol.1.Pam.13"Grenades" incorporating the above change to existing procedure,will be issued in the near future.In the meantime,action will be taken to ensure that this order is brought to the notice of all rank.

297. DISCIPLINE - PREVALENCE OF THEFT OF MILITARY STORES AND SUPPLIES.

1. The offences of stealing and fraudulent misapplication of stores and supplies from military depots,installations,transportation services and even from fellow soldiers have increas-ed to an extent which renders immediate and effective remedial action necessary.

2. The use of terms such as "pilfering","scrounging",&c.,to describe such offences tends to obscure their gravity and may cause them to be somewhat lightly regarded.On the contrary such offences must be viewed very seriously and offenders will render themselves liable to severe punishment.

3. The impression may existthat an isolated instance of theft of military stores and supplies,though a mean and despicable act,does not involve any appreciable weakening of the war effort.Such an impression ,if it exists,is completely erroneous The cumulative effects of such thefts affects seriously the maintenance of the troops in the field,dislocates the supply organisations at all points,involves grave waste of man hours, and is,in fact,equivalent in result to that of directly treasonable activity.

4. These considerations impose an obligation of honour upon all members to do their utmost to prevent theft and to assist in every way in bringing to justice of offenders.

5. As a general rule,no suspension or remission is to be made in respect of any award or sentence imposed upon a member for any offence mentioned in this order,.

ROUTINE ORDERS

BY

LT.COL.J.S.G.COLLIER COMD 54 AUST INF BN AIF.

PART 1. 9Nov 43

285. TELEPHONES.
Attention is drawn to the necessity of frequent testing of tele--phone communications by signals.

Recent cases indicate that certain Coys.have been in the practice of leaving telephones unattended for lengthy periods,with the result that times is wasted by the despat ch of linesmen to check lines connecting such Coys.

Where possible an orderly will be detailed to take calls when Officers or Office Staff will not be present,to do so.

When such procedure is impracticable,Sig Office or Sig Centre will be advised of probable period for which phones will be unattended.

286. SECURITY-UNOFFICIAL PHOTOGRAPHS.

Recent breaches of security revealed in intercepted photographs indicate a lack of understanding of security of information.

While it is not intended to restrict unduly the scope of individ--ual photographers,the potential danger of unrestricted photography of censorable objects must be stressed upon all ranks.
Units will ensure that all ranks know what are censorable objects for unofficial photographers and that they understand the reason for their being classed as such.
Common sense and an understanding of security of information are essential in this matter.

287. ARMSTICE DAY 1943.
(a) Requisite sreps will be taken to ensure that all ranks observe the two minutes silence,subject to exigencies of active service.

(b) The Corps Comd. approves of the wearing of poppies on Armstice Day by troops in uniform.

288. PAYBOOKS-IDENTITY DISCS-FIELD DRESSINGS

Unit CO's will ensure that Pay Books identity discs and field dressings are carried by all ranks at all times.

When it is necessary for the paybook to be handed in for any purpose other than the normal fortnightly credit entry(and then the paybooks will be handed in in small convenient batches and returned to the soldier immediately)the pay Sgt will issue the soldier with a receipt for paybook- WF.201.

(g)Personnel will be selected by APM,3 Aust Corps and transfers effected through "a"branch 3 Aust Corps.

291. LEAVE.

(a) It has been brought to notice that troops are overstaying night leave to PERTH and returning by first train next morning This action not only shows lack of discipline in Units concerned but is causing considerable concern to WA Govt. Railways.

(b) All Units within 15 miles of PERTH will institute roll calls at irregular intervals and ensure that the practice ceases.

292. OUT OF BOUNDS - MINNINOOKA LTD. - LAND.

AUSTRALIAN WAR MEMORIAL RCDIG1023869

395. contd.

(a) The d elay fuse,marked 4/5 seconds,has been known to burn in much less time.Some tested fuses burned in three sec.

(b) While the delay fuse is burning,a considerable amount of black smoke is emittedthrough the escape hole at the base of the fuse tube,and small fragments of the delay fuse are sometimes forced out. At night or even at dusk or dawn,a a definite glow from this hole can be seen.

2. The following precautions will be taken if the grenade is used:-

(a) It will be thrown immediately the head has been struck;

(b)When striking the grenade,the hand will be kept well clear of the escape hole at the side of the fuse tube.

396. GRENADES, NO.36M - DESTRUCTION OF BLINDS.

1. Due to the possible occurrence of hangfires,as a result of slow burning fuses,it is essential that an interval of fifteen minutes and NOT five minutes,as previously published,be allowed to elapse before action is taken to destroy blind 36M grenades

2. An amendment to small Arms Training,Vol.1.Pam.13"Grenades" incorporating the above change to existing procedure,will be issued in the near future.In the meantime,action will be taken to ensure that this order is brought to the notice of all rank.

397. DISCIPLINE - PREVALENCE OF THEFT OF MILITARY STORES AND SUPPLIES.

1. The offences of stealing and fraudulent misapplication of stores and supplies from military depots,installations,transportation services and even from fellow soldiers have increas-ed to an extent which renders immediate and effective remedial action necessary.

2. The use of terms such as "pilfering","scrounging",&c.,to describe such offences tends to obscure their gravity and may cause them to be somewhat lightly regarded.On the contrary such offences must be viewed very seriously and offenders will render themselves liable to severe punishment.

3. The impression may existthat an isolated instance of theft of military stores and supplies,though a mean and despicable act,does not involve any appreciable weakening of the war effort.Such an impression ,if it exists,is completely erroneous The cumulative effects of such thefts affects seriously the maintenance of the troops in the field,dislocates the supply organisations at all points,involves grave waste of man hours, and is,in fact,equivalent in result to that of directly treasonable activity.

4. These considerations impose an obligation of honour upon all members to do their utmost to prevent theft and to assist in every way in bringing to justice of offenders.

5. As a general rule,no suspension or remission is to be made in respect of any award or sentence imposed upon a member for any offence mentioned in this order,.

(ii) Every precaution will be taken to minimise fire risk and Coy Comds. and all Offrs will ensure that all ranks are aware of the danger and consequence of negligent or careless action with fire or inflammable stores or material.

(iii) These supplementary fire orders will be read in conjunction with the general Fire Orders already issued.

(b) FIRE PIQUET (summer months)

Duty Coy. must retain in their lines, at all times, a piquet of one offr. and 25 ORs., equipped with shovels axes, and fire beaters (if available). This piquet will be prepared to move by MT immediately on receipt of warning to fight fires in the surrounding district and in the Unit area.

Water bottles must be kept filled and will be carried by piquet.

AUSTRALIAN WAR MEMORIAL RCDIG1023869

(d) contd.

Fire parties will examine areas in which troops have been training so as to ensure that nothing is left which might cause a fire after troops have with drawn from the area.

(iii) Carriers MG:

Fires can be caused as the result of discharge from exhausts of Carriers MG. Endeavour should be made in all instances for carrier crews to travel on routes on which there is least danger of starting a fire. During exercises should the carriers travel through areas where the possibility of fire is great, every care must be taken to prevent the start of a fire, and immediate steps will be taken to extinguish or limit the outbreak.

(e) FIRE BREAKS:

Coys. must ensure that adequate fire breaks are prepared around all Coy and Pl areas. Burning of breaks will at all times be strictly controlled. Unauthorised burning will be the subject of disciplinary action against offenders, who also incur responsibility for any damages or loss sustained through their actions.

(f) INSTRUCTIONS FOR THE BURNING OF FIRE BREAKS:

The following instructions issued by 3 Aust Corps with Admn Instn. Q41 of 19 Oct 43 will be strictly observed.

(i) The type of fire break to be made in open country will consist of two runs of plough or cultivator not less than half a chain apart, each run being approx. 6 ft. wide. As soon as suitable conditions are available and subject to observation of instructions contained in para 3 below space between breaks will be burnt. Where roads exist on one side of a camp site or trg. area the road itself will be used as one fire break and only one run of the plough will be necessary. Care will be taken in burning off intervening ground, that any fence posts set on fire are immediately extinguished.

(ii) Where nature of the country precludes the ploughing of fire breaks, breaks will be cleared by hand and action taken in accordance with para 1 above.

(iii) No burning of breaks on grass or bushland will be undertaken except under the following conditions:-

(a) Two days notice will be given to each owner or occupier of all land adjoining the land on which breaks are to be burnt.

(b) Approval in writing will be obtained from the Secretary or a bush fire control officer of the local authority in whose district or adjacent to whose district the land in question is situated.

(c) Where the land in question is situated within two miles of a state forest and burning operations are intended to take place between 15 Dec. and next 15 Mar. in any yearly period two days notice will be given to a forest officer employed in connection with such State Forest.

(d) Burning off will only take place between 2000 H and 2400 H of the same day.

(e) During all burning off operations adequate personnel will be detailed as beaters to prevent flames getting out of control, and careful inspection will be made to ensure fires are throughly extinguished before parties are with drawn.

(f) Due consideration will always be given to wind conditions and no burning will be undertaken if a high or choppy wind is blowing. Burning will always be done against the wind.

The above compositions may be varied but such variations if required, will be notified when gps are summoned.

(b) Sub Units will in turn have their R., O., F., &T. gps which should be laid down in Coy orders.
(c) In withdrawals the O & R gps of Units and Sub Units will be composed of 2 i/c's in place of Comds.

6. Deployment Drill. In all operations the Comd place is as far forward as circumstances permit. R gps will be closely followed by O gp.
When action is imminent the senior comd. will issue a warning order appointing a R.V. for his O. gp and ordering the F gp forward to assembly areas. This will be passed on through all units and sub-units successive times being fixed by the estimated time required for recce and issue of orders by senior Comd.

6. The following extracts from Bn. ROs (i.e. No. 253 regarding powers of sentries and guards will be read to guards and sentries by Gd. Comd.

(a) Regulation 8a of the National Security (General) Regulation (Statutory Rules 1942 No. 374) provides that without derogating from or restricting the existing powers or rights of sentries and guards, a military sentry or guard station or posted at, on, in or in the neighborhood or vicinityf any any prohibited place, protected area, controlled area or any premises used by the Commonwealth or used for Defence Purposes or for essential services or any vehicle, vessel or aircraft used by the Commonwealth, or any enclosed wharf or picking-up place or any merchant in port, or any road, pathway, or waterway, specified in an order by the Minister which passes through, or near, a prohibited place or work of defence, maybe armed and may:-

(i) Use his weapons against or otherwise attack any person who in disregard of a warning given by a sentry, or in the vicinity or neighborhood of, or attempting to approach, enter or leave or pass over,

AUSTRALIAN WAR MEMORIAL RCDIG1023869

or in the vicinity or neighborhood of that place area, premises, vehicle, vessel, aircraft, wharf picking -up place, area road, pathway, or waterway, or who, after being arrested or so doing escapes, and,

(ii) Use his weapons against or otherwise attack any person attacking him or who is reasonably suspected about to attack him.

(b) There, are, however, certain principles which must guide all sentries and guards in the execution of their duty as such, and in the exercise of the right to use arms.

(c) Those principles are:--

(i) Sentries and guards will be ordered to take any action required the safety of their posts or to defeat the activities of enemy, or suspected enemy agents.

(ii) If necessary they will fire upon or otherwise attack any persons threatening the safety of their posts or engaging in hostile actions.

(iii) Before firing upon any person, the sentry or guard will except in an urgent case of self defence, challange that person to "halt". If that person does not halt the sentry should challenge him again with "Halt or I fire" If he does not halt and no other means are available for stopping him -for example, by calling on the rest of the guard- it is the duty of the sentry to shoot.

(iv) The sentry will use his intelligence and sense of responsibility in choosing whether he will shoot or not, and he must be careful not to allow any suspected person to approach so close that he can be rushed and overpowered.

(v) Guards and members of the forces in custody.

1. An escort or guard is not justified in using his weapons merely for the purpose of preventing another member from escaping from custody, and if he so uses his weapons he may render himself as well as any officer or NCO under whose orders he acted, liable to be charged with murder, manslaughter or incitement to murder.

2. If a member in custody attempts to escape the escort or sentry will immediately raise the alarm and give chase. He may call on any passer-by to assist him in apprehending the escapee.

3. An escort or guard may be justified in using his weapons when a member in custody resorts to violence. In such circumstances, an escort or Guard may meet force with force, but care must be taken to use no more force than is necessary to overcome the violence offered. Hence, even when violence is offered to an escort or guard, it will only be as a last resort that the use of weapons will be justified.

7. The Sgt. of the Guard will after the guard has mounted, satisfy himself that all members of the Guard are conversant with their duties.

8. DRESS: (a) For changing of the Guard: KWD working dress, full marching order (hats khaki fur).
