	3	NO entry.	
	4	Major General WILFORD departed for LAE and FINSCHAFEN. At 041400L American AA units assumed responsibility for the AA protection of FINSCHAFEN and DREIER HARBOR areas. An interim report showing proposed plan for AA defence of NEW GUINEA was forwarded to Adv LHQ. Copy attached as Apox "A"	Apox "A"
	5	A message received from 7 Aust Div quoting a signal from ALAMO FORCE requesting details of enemy strengths in ECOMADJH and forward and details of our intentions regarding a forward move in that area. In reply to their query Adv 2 Aust Corps were instructed that operational control of 532 Engr Boat and Shore Regt would pass to ALAMO FORCE on arrival at FINSCHHAFFEN. NEW GUINEA FORCE agreed to the proposal of 2 Aust Corps that they discontinue submission of 0900 ^{hrs} sitrep.	
	8	Major General HILGARD returned from LAE and FINSCHHAFFEN. Adv LHQ agreed to the proposal of NEW GUINEA FORCE that only one sitrep need be forwarded daily, giving situation of forward formations as at 2100 hrs.

In response to a request initiated by ALAMO FORCE the wireless link between SAIDOR and FINSCHHAFFEN installed for the operation for the capture of SAIDOR was discontinued. The link SAIDOR - 7 Aust Div still remains for the passage of information between these two planning formations.

1. All previous instructions issued by HQ NG Force with relation to the submission of location statements and location reports are cancelled. The following will take effect forthwith.
2. Addressees will submit to this HQ two copies of a location statement as at 2359 hours on the last day of each month, and two copies of an amendment to such location statements as at 2359 hours on the 15th day of each month. Amendments will incorporate all changes which have occurred since the date as at which the location statement for the previous month was issued.
3. Location statements will show the location of all units by arms and services under command, in support, or attached for local administration, and will be set out as indicated in the proforma attached as Appx A. The order in which units appear will be in accordance with the principles of seniority as exemplified by OOB. NG Force Location Statements may be used as a guide in this regard.
4. All units or sub-units which are placed under command of a unit, force, or brigade, etc, will be accounted for under such unit, force, or brigade as specified by para 3. Units or sub-units not so allotted will be shown as Corps, Divisional, or Area troops.
5. In order that the location statements issued by this HQ may be produced sufficiently early to be of value, addressees will ensure that their statements are compiled and dispatched by the quickest means.
6. Maps quoted will, where possible, be of 1/25000 scale. In cases where this is not practicable, maps of other scales may be used, preference being given to those of the scale 1/63360. In all cases the name of the map and its scale will be given.
7. Formations not in contact with the enemy will notify this HQ by DRLS of changes in location of units and sub-units as they occur, and of the transfer of any unit or sub-unit from one command to another. Where possible, map references of new locations will be given. This includes changes necessitated by movement to and from AUSTRALIA.
8. Location reports will be numbered consecutively and will be set out as indicated in the proforma attached as Appx B.

9. It is requested that particular attention be paid to the following points, as there has been considerable evidence recently of lack of care in the preparation of location statements and reports.

- (a) Some units have been shown as being complete in one particular area when in fact portions of them have been detached to a different area of the same command, or to a different command. Addressees will account for all movements of detachments from parent unit. It should be noted that rear parties of units moving from one area to another come within this category.
- (b) Care will be taken to ensure that correct nomenclature in the designation of units, and that only the abbreviations authorized by FSPB Part I Pamphlet No 3, 1943, as amplified by LHQ, are used.
- (c) It is stressed that location statements show locations as at 2359 hours of the last day of each month, and that amendments show all changes as at 2359 hours of the 15th day of each month.
