AUSTRALIAN WAR MEMORIAL

#### REPORT ON MEDICAL SERVICES SUPPLIED BY 2/6 FD AMB

DURING ADVANCE FROM KAIAPIT TO DUMPU.

On Sunday 26 Sep, MQ Coy plus a light section from A Coy and Surgical Team began to establish an MDS, having moved in from NADZAB by air. MDS was completed in a coconut plantation near KAIAFIT Mission by 9 a.m. on Monday 27th. An appendicectomy was performed on 26th September within two hours of the unit's arrival. On night 28/29 Sep 21 Bde began the advance from KAIAFIT and Capt WILMER plus 10 ORs advanced with 2/27 Bn.

Liaison was maintained with 21 Bde HQ and light section by CO, using M/C for transport. Patients were evacuated by Jeep to KAIAPIT, the UMI RIVER being crossed by rubber boat after Bde had crossed it. At RAGITSUMIN the CO contacted Bde HQ and, after conferring with Brig DOUGHERTY, decided that it would be advisable to call forward another section with a surgeon to deal with urgent battle casualties, which were expected from then on, in anticipation that a strip would be made at SAGERAK and evacuation could be made by plane to NADZAB instead of the long trip by jeep back to KAIAPIT. The advance continued, a light surgical section of 9 ORs under Maj GOULSTON arriving at WANKON on evening 30 Sep. Capt WILMER'S section moved from WANKON that afternoon and spent night with Bde HQ near ARIFAGAN CK.

Constant demands for A and B Coys to be forwarded were made by CO and also by Brig DOUGHERTY to 7 Aust Div as it was anticipated that casualties might become heavy and flying might not be possible, necessitating holding them until fit to evacuate. Maj GOULSTON was brought forward with his section to GUSAP strip area where Bde HQ was on 1 Oct and set up a holding post to hold patients and Battle Casualties until planes were available to evacuate to NADZAB. CO had given order that MDS at KAIAPIT was to be emptied since it was committed there up to this stage, and it looked as though it would be able to establish at GUSAP, or, even better, at DUMPU when the Bde reached there. He suggested that if one Coy, A or B, now at NADZAB could be forwarded to GUSAP to run an Advanced Dressing Station, MQ Coy's MDS might with advantage be held in readiness and flown direct to DUMPU, thereby avoiding a heavy march and a lot of transport being used in moving the heavy gear from GUSAP to DUMPU. However, by this time Division had started moving the HQ Coy by air to GUSAP, resulting in a lot of unnecessary work and use of MT. The post at GUSAP was manned by Maj GOULSTON'S section at this stage and evacuated the following:-

Oct	12	BCs	and	sick.
Oct	17	- 11	11	11
Oct	27	- 11	tt	11
Oct	50	11	tt	n

a total of 136 in 5 days, which was a very good performance considering the scanty shelter and means available.

On 5 Oct HQ Coy arrived at GUSAP, Bde HQ having arrived at DUMPU that day also. CO proceeded from GUSAP by M/C, calling at Div HQ en route crossed the SURINAM and proceeded towards DUMPU where the Light Section with Capt WILMER had established. Darkness was falling at this stage and since CO could not locate Bde HQ and there was a possibility of his (a) being shot by our own troops or (b) being shot by the Japs, he considered it wise to return to SURINAM RIVER. At GUSAP the Medical Post was being run by Capt HELLESTRAND, Maj GOULSTON having proceeded with his section plus HQ Coy to KAIGULAN No 1, where a small staging post was established and HQ Coy equipment was dumped but not unpacked pending a possible move forward. Protection was supplied here by 25 Aust Inf Bde which had followed behind 21 Bde.

CO proceeded on 6 Oct to DUMPU after crossing SURINAM in early morning and interviewedBrig DOUGHERTY. Capt WILMER'S Light Section was holding 34 patients at this stage and several severe Battle

Casualties so CO decided to bring forward the Surgical team under Maj LOEWENTHAL to deal with these on the spot as they would certainly never have survived the trip back to GUSAP without treatment. A theatre was set up in the patch of scrub at DUMPU by the URIA RIVER and a surgical ward with a thatch roof was erected. This move was not favoured by ADMS but provedto be effective in the long run. On 6 Oct CO returned to KAIGULAN in the afternoon and to GUSAP on the 7th Oct where Capt HELLESTRAND was in charge and had 33 patients awaiting evacuation, and a very efficient Staging Post with Capt SMITH standing by for urgent surgery with two theatre orderlies. The GUSAP RIVER flooded that night and CO was forced to return to the strip instead of going forward. since the bridge was washed away. CO returned to DUMPU the following day and proposed visiting 2/27 Aust Inf Bn which had moved up the URIA RIVER to GUY'S POST but ADMS would not permit this and pressure of work during the days hat followed unfortunately prevented CO's forward liaison until much later.

By 11 Oct patients were arriving faster than shelter could be erected for them and no tentage was available. A 20 bed admission ward and 30 bed surgical ward were now in operation at DUMPU. Cooking gear in very short supply at this stage and many strange utensils hadto be improvised. Div had established HQ at URIA-RAMU Junction by 12 Oct and A and B Coys were flown in on the same day from NADZAB. 21 Bde HQ moved to KUMBARUM on the 14th Oct, since by passive infiltration had surrounded them and then proceeded to develop into a field hospital. A light sec under Capt CHURCH of B Coy was sent to GUY'S POST on 12 Oct and A Coy was sent back to KAIGULAN to 25 Bde HQ to organise evacuation from upper waters of SURINAM by light section under Capt WILMER, which evacuated to a staging post under Capt SMITH, at 2/31 Bn Report Centre in the foothills where he and Maj STUCKEY were ready for urgent surgey, thence to the MDS bya Medical Staging Post under Lieut FIELD at the SURINAM Crossing.

The MDS at DUMPU was now holding 245 patients. Evacuations by air were being done through No 2 Strip, DUMPU to NADZAB.

Routine work now continued until the end of the month, and the MDS grew in size daily as CO had been instructed to hold as many patients as possible in forward area and RTU them from there. The highest figure reached was 805 patients, a record, considering the limited personnel and equipment at the unit's disposal and the fact that we were short of drugs etc, since we had been supplying two Bde RAPs with onlya a scanty reserve. The lack of medical supplies was a feature noticed throughout the whole proceedings.

A Coy had been recalled as 25 Bde moved forward so the whole unit less LOB and sick were in KUMBARUM-DUMPU area. On 4 Dec move was commenced to new site on the MENE RIVER. Up to the time of this move the unit had treated or evacuated 2334 cases of which lll were battle casualties.

Appreciation is here expressed for the great assistance offered to this unit by 21 Aust Inf Bde at all times, and in no matter what circumstances with transport, labour, shelter equipment and good sound advice.

(Signed) R. HUMPHREY, Lt-Col.

SECRET

#### NOTES ON PRESENT SITUATION - RAMU AREA BY G3(I) 7 AUST DIV 16 OCT 1943

Copy No. ...

## RELATIVE STRENGTHS JAP

- The present effective fighting strength of 78 Inf Regt is estimated at 900 1000. The Regt has suffered heavily from sickness and malaria and in addition his battle casualties have been approx 500 killed with at least that number wounded.
- The remainder of the original NAKAI FORCE consists mainly of L of C and constructional tps and can NOT be considered in the effective fighting force.
- 79 Regt is now fairly accurately placed in the BOGADJIM area and according to a PW is responsible for the defence of that area. In view of the strength of most JAP units in this area being about 70% strong (prior to being engaged) 79 Regt is placed at approx 2,500.
- 80 Regt, the other regt of 20 Div, has been committed in other areas and its present fighting strength is estimated at approx 1,000. This Regt is located along the RAI coast.
- Although PW thinks that 79 Regt is the only Regt in the MADANG BOGADJIM area, there are other indications of some of 41 Div being in MADANG.

#### OWN STRENGTH

- Our strength is much superior to the present JAP force opposing us, and is stronger than 78 and 79 Regts combined.
- In the air, allies continue to hold complete superiority.

#### POSSIBLE JAP FUTURE COURSES

COURSE I - TO MOUNT AN OFFENSIVE AND REOCCUPY RAMU VALLEY

FOR

AGAINST

- (a) This would be the desire of any comd.
- (b) JAPS in SWPA have suffered numerous reverses in recent months and a new drive would tend to buck up morale.
- (c) If he has landed 54 Div at WEWAK and if he can land and move more divisions and maintain them then this plan would be possible
- (a) If this were the intention, then it is thought that the 79 Regt or 41 Div would have been committed much earlier to stop 7 Aust Div gaining the present hold on the rd to MADANG.
- (b) If reports of the concencrations of JAP tps in the area and we we want are true it is even more difficult to understand why more resistance has NOT been offered to our advance.
- (c) In view of JAP committments in other areas, it is hardly thought possible that the JAP can risk commencing a new offensive.
- (d) The JAP shipping problem combined with his lack of air support is not conductive to a successful offensive.

DEDUCTION: - The JAP is NOT at present in a position to commence an offensive in the BOGADJIM - RAMU area.

#### COURSE 2 - TO HOLD MADANG - BOGADJIM AREA

#### FOR

(a) MADANG is NOT a very good harbour and is not being used by the JAPS for any large shipping on account of the allied air threat.

AGAINST

- (a) If the JAP gathers all his available tps from RAI COAST and BOGADJIM RD and organises his defences in the MADANG BOGADJIM area he could offer any attacking force (particularly a ground attack) very serious opposition.
- bine a seaborne attack on this JAP coastal position with an airborne landing, and in view of the supply line to MADANG being on the coastal rd or by barge, the JAP would stand a very good chance of having his forces surrounded and his L of C to WEWAK cut.
- (b) Once he loses MADANG the allies would have close air bases from which WEWAK NANSA BAY could be made almost untenable and it would be extremely difficult for him to get any supplies in to NEW GUINEA
- is not a favourable defensive position against a seaborne and airborne attack as movement is very restricted, the narrow coastal plain being surrounded by difficult ranges.
- (d) If more tps are pushed into the MADANG area, the already strained supply line becomes weaker, and the JAP has all his eggs in one basket, on which allied air, land and sea strength can be concentrated.
- (e) The strengthening of resistance to 7 Aust Div at this stage would only serve to delay the final blow and would NOT have a very good charge of driving allied tps back from their present posns.
- (f) Complete allied air superiority.

DEDUCTION:- The JAP'S most probable plan is to delay the allied land threat to MADANG in a place of his own chosing on the BOGADJIM - RAMU rd and either make preparations to hold MADANG - BOGADJIM from a seaborne attack or withdraw his tps in that area and RAI COAST area to HANSA BAY or WEWAK, before an allied attack can be made.

#### PRESENT JAP INTENTIONS

- A PW captured in FARIAR area 15 Cot, states that 78 Regt is now withdrawing and intends to make a stand in the area of KANKIRYO or NANZANRAI (see interrogation report att Appx 'A').
- As own tps have NOT had any serious opposition on the FARIA R since the JAP'S unsuccessful attack on 13 Oct and the fact that 1 Bn 78 Regt has withdrawn from the URIA R area, it appears that the PW statement is correct and the 78 Regt has withdrawn to at least KANKIRYO heaving a small party behind to keep contact with our fwd tps.
- The fact that on 15 Oct a patrol of 2/2 Sqn attacked a patrol of 30 JAPS on the track KFSAWAI No. 3 (543614) to YOKOPI in area 595715 (1 mls from JAP rd head) indicates to the JAP the possibility of an attempt by our tps to cut his L of C in rear of 78 Test.
- Therefore, assuming that the JAP comd is aware of his unprotected Western flap it is very probable that 78 Regt will be withdrawn direct to MANNAMMAI (approx 572818) where it can cover both routes to BOGADJIM.
- After leaving KANKIRYO which is on the divide between the PARIA and MINDJIM Rivers the next apparent posn to attempt to hold an allied thrust is in the NAMMANI area where the JAP L of C is short, whilst the allied line of supply thereases over difficult country, where we would have to rely on native carriers and / or air dropping.
- In addition the ground in the NANZANRAI DAUMOINA area appears favourable for defence and one or two JAP Regts should be able to successfully hold a large allied force which would be difficult to maintain over this country.
- Presuming 78 Regt will withdraw to NAWZANRAI (providing allied pressure continues) it is probable that at least part of 79 Regt will be moved forward to assist, and stronger opposition and patrols should be encountered in this area.

#### NTERROGATION - PW 270

NAME

: EGASHIRO, Tsutomo

RANK

: Pto 1/Class, grenade discharger number.

AS No

: 145

UNIT

: CHO 2053, 78 Regt, 3 Bn, 9 Coy, 1 Pl.

HOW CAPTURED

PW was wounded when his Bn went into action on 13 Oct at KEY POINT 3 (717612). PW remained to bury dead on his own initiative, and intended to catch up with his unit later. His unit left the area 2 or 3 minutes before PW was taken prisoner.

PWs MOVEMENTS

PW did not go to KATAPIT with his unit because he was a malarial patient at No.2 SAIPA. PW contacted his unit at GURUMBU on 24 Sep, and accompanied it to KANKIRYO on 8 Oct to take up defence positions. They advanced the same day to IERE? village (5 miles south of KANKIRYO). On 10 Oct they went to KEY POINT 3 and encountered our tps. They retreated to a high hill behind KEY POINT 3 on 11 Oct, returning to KEY POINT 3 on 12 Oct.

#### STATEMENTS

CRGANISATIONS

(i) For the attack on our tps in the FARIA RIVER the 2 and 3 Bns were organised as follows:-

The track 2 Bn for the bear

3 Bn

6 Coy 7 Coy 5 Coy 9 Coy 3 MG Coy

PW knew nothing of 2 MG Coy.

(11) The other Coys of 2 and 3 Bns were accounted for as follows:-

> 8 Coy 2 Bn : PW had no idea of its location.

10 Coy 3 Bn : Very weak in numbers

bécause of sickness.

Located somewhere in rear. 11 Coy 3 Bn : PW had NOT heard of this reported annihilated at KAIAPIT Coy since it left for

KAIAPIT.

12 Coy 3 Bn : Moved about a month ago from this area to BOGADJIM. Present whereabouts NOT known - this Coy was almost at full strength.

- (iii) I Bn was in adv area in the direction of . WAMPUN.
- (iv) 1 Bn 26 Arty Regt had been withdrawn to KANKIRYO. PW knew nothing of other Bns of this Regt.

LOCATION OF HQ:

On 13 (Aug locations were:-

2 Bn HQ : Above KEY POINT 3.

3 Bn HQ: In jungle alongside river near KEY POINT 3. PW believes it has since moved 400 metres towards GURUMBU.

Regt HQ: OHATA village. (SOUTH of KANKIRYO).

- 3 Bn returned from KAIAPIT 200 strong. Before they moved from KANKIRYO for the last attack strength was 200 with 300 sick in hospital.
- Strength of PW's pl before the action on 13 Oct was 16 with another 14 sick at No. 1 SATPA.
- Strength of 9 Coy after the action was less than 50.
- 4 1 Bn 26 Arty Regt had only one gun, the rest being left at HANSA BAY. No guards were left with these guns.
  - 5 PW thought 78 Regthad 4 bn guns.

78 Regt is to make its next stand at KANKIRYO (on watershed approx 682662) or NANZAMREI (72 mls North of YOKOPI. There are no prepared posns at either of these places.

PERSONALITIES: Comd 3 bn Capt WOIKE (Mai YOMEKURA killed ot KAIAPIT) Capt YAMIWA 2/Lieut YOCHITAKE was killed

Comd 9 Coy Comd 1 pl 9 Coy

at KAIAPIT. Pl now has no officer in comd.

- (i) 79 Regt: PW heard about 13 Oct that 1t was in BOGADJIM area but believed that it was moving forward to support 78 Regt. PW based this belief mainly on hearing arty fire from direction BOGADJIM.
- (ii) PW thinks 79 Regt is only fighting formation in BOCADJIM - MADANG area, but is not very clear on this.
- (iii) PW saw 80 Regt somewhere between HANSA BAY and ALEXISHAPEN in May. Later 80 Regt was intended to make a landing somewhere down the coast from BOGADJIM.

By barge to ALEXISHAFEN and TRIMA. By MT from ERIMA to YOKOPI. About 20 MT used. By packhorse from YOKOPI to KANKIRYO. From KANKIRYO fwd dumps ere established at eech Key Point. Provisions : are drawn from KANKIRYO twice a week and each man carries ten daws retions. Retion is just enough to est. Amn : Each man carried 200 rounds or 8 grenades. Amn secs replenish from Key Points.

DUMPS

: No dumps between KANKIRYO and VOKOPI. Wain dump is at YOKOPI. There is another dump at NANZAMREI but PW knows of no others between ERIMA ROADS

- (i) HANSA BAY to BILI BILI (BOGADJIM area) rd is passable to MT in dry weather, but in wet weather is too boggy and is impassible even to marching tps owing to numerous flooded creeks. BILI BILI to YOKOPI - All weather rd well bridged. YOKOPI to KAMKIRYO: Track 6 ft wide, but very soft - foot bridges only.
- (11) Marching times: PW took 5 days from FRIMA to No. 1 SAIPA pulling a hendcert. He believes the ordinary marching time is 2 -3 days. No. 1 SAIPA to KANKIRYO is 1 day's march.

KNOWLEDGE OF OUR TPS: PW knew only that he was facing AUSTRALIANS. He was NOT told anything concerning strengths or units.

LICALE

PW had been told that 20 Div was to be relieved and sent to MANILA and expressed disappointment that this had not been done.

GENERAL

PW is a middle school graduate, intelligent and readily answers questions. He will apparently give any information he has.

> Interrogetors EKU and GK.
