War Diary - 1 Jan 45 to 31 Jan 45

During this period the unit completed its first lesson in active ops against the JAP. Valuable experience in patrolling was gained. Whilst the campaign was had from a physical point of view Coys. did NOT at any time meet organised resistance. Odd pockets of the enemy were struck which gave us some idea of how fanatically the Jap can fight and how difficult he can be to dislodge. The fog carried out at WONDECLA laid a very sound foundation for subsequent action, but some of the main points which were stressed in fog were sadly neglected by all ranks once contact was made. It will be necessary during this period following action for all counts to drive home to the troops lessons learnt during the past few weeks.

The spirit of the troops throughout was excellent, even when the utmost physical effort was called upon for wide outflanking moves and the ceaseless sup carrying parties. The following were recommended for awards for bravery.

3. AUSTRALIAN ARMY CANTEENS SERVICEANNUAL REPORT AND BALANCE SHEET

The appended copy of the balance sheet for the year ended 30th June 1944 and abridged detail from the annual report are published for the information of all troops so that they may understand and appreciate the many uses to which profits from the Canteens Service are being put.

CAPITAL FUND - £2,334,358.-

It will be noted from the balance sheet statement of this fund that it increased during the year by the difference between £932,318 (the amount of profit earned) and £901,892 (the amount of profit distribution by way of amenities for the troops). The comparatively small amount of surplus profit in relation to the turnover of £18,263,503 has resulted from the policy of the Board in so arranging prices and rates of profit distribution that no unnecessarily large amount of surplus profit would be added to the capital fund already established by the necessary accumulation of profits during the rapid expansion of the service in former years. The Board is authorised to borrow from the Commonwealth Bank up to the amount of an overdraft limit guaranteed by the Treasury. The service is financially independent of the Government, except in respect of the contingent interest of the treasury under its guarantee.

9

CLUBS FOR OFFICERS.-

Five residential clubs for officers are conducted on the mainland, and one in New Guinea where a second is about to be opened. In addition, two non-residential clubs are established on the Atherton Tableland. The patronage of the clubs indicate that the accommodation and amenities provided are greatly appreciated. This department of the service is conducted on a self-supporting basis.

CLUBS FOR OTHER RANKS.-

The service conducts residential clubs for troops on leave and in transit in Sydney, Melbourne and Brisbane and a residential club for the women's services in Melbourne. The sleeping accommodation of the residential clubs for the troops is as follows :-

Sydney	480 beds
Melbourne	400 beds
Brisbane	300 beds

and of the Women's Services Club, Melbourne, 135 beds.

In addition, there are 10 non-residential clubs for ORs in North Queensland, the Northern Territory and New Guinea. The clubs are available for use not only by the AMF but also by personnel of the Navy and the Air Force. The amenities provided by the clubs are extremely popular, and the Board considers that the heavy outlay in conducting them (£134,718 for the year) has been one of the best means of applying for the benefit of the troops profits derived from other activities of the service. The above outlay has been treated as an expenditure on amenities and is included in the amount of profit distribution shown by the balance sheet.

AERATED WATER FACTORIES.-

Eleven aerated water factories have been established and are operated by the service in the Northern Territory, Queensland and New Guinea. The combined output is approximately 21,000 dozen bottles per week, which are sold to the troops at 4d. per bottle in Australia and 3d. per bottle in New Guinea where the cost of production is less. The price to the troops in Australia includes sales tax, which is levied against the service in respect of these products. The ready sale of the above output - more than 13 million bottles per annum - indicates the value of this service to the troops, particularly in those areas where chlorination of drinking water is necessary.

DISTRIBUTION OF PROFITS.-

Interim monthly distribution of profits have been made, as formerly, to the several trust funds of the Army established for the purpose of providing amenities for the troops. The total amount distributed to each of these funds during the year was as follows:-

	£
To Unit Trust Funds	418,018
" "GOCs" Trust Funds	103,320
" "C in C Special Amenities Fund	104,624
" "Army Canteens Amenities Fund	141,212
	<hr/> 767,174
As already mentioned, the net Expenditure in conducting ORs clubs was	134,718
	<hr/>
Making a total distribution of	901,892
	<hr/>

Each of the above funds is spent on sporting materials, cinemas, entertainment equipment, transport of civilian concert parties to camps, amenities for women's services and other purposes for the benefit of members of AMF (particularly ORs).

CANTEEN ORDERS.-

The use of this department of the service by friends and relatives of the troops does not diminish, orders to the value of £291,782 - 7 - 0, in denominations of 5s, 3s, 2s, having been issued during the year. The total value of orders issued since the inception of the service amounts to more than £1,000,000.

CANTEENS SERVICE FOR THE NAVY.-

At the request of the Navy, the supply of canteen requirements for navy personnel at all shore based establishments in Australia and for the smaller H.M.A. ships has been undertaken by the service and is believed to be giving satisfaction. Arrangements have also been made for the extension of this service to the Navy to include bulk supplies of canteen requirements, for shore based and small ship navy personnel at any overseas ports where points of distribution for AMF personnel are established by the service.

CANTEENS SERVICE FOR THE ROYAL AUSTRALIAN AIR FORCE:-

At the request of the RAAF, the service has undertaken to supply in bulk to units of the RAAF their canteen requirements in all areas outside Australia where points of distribution of supplies for AMF personnel are established by the service.

CHRISTMAS FARE.-

The service again undertook control of the purchase, transport and distribution of special Christmas fare for the troops and was commissioned to undertake a similar supply for the 1944 Christmas, not only for all members of the AMF but also for personnel of the other services outside Australia and within Australia north of the Tropic of Capricorn. The principal items supplied were:-

Poultry	-	180,000 lbs.
Ham	-	60,000 "
Christmas Pudding	-	72,000 "
UNSWEETENED MILK (In lieu of Cream)	-	16,000 Dozen tins
Almonds and Raisins	-	21,000 Doz Packets

BENEFICENT FUND

The Canteens Service Regulations provide that, upon the winding up of the service, the accumulated profits, which constitute the capital fund of the service, are to be vested in trustees and applied to meet such cases of hardship amongst soldiers and their dependants as are not covered by the repatriation law. Action is in course to enable part of the accumulated profits to be similarly applied to meet current cases of hardship whilst the service is in active operations.

CHARGES BORNE BY THE SERVICE

The Board again mentions the fact that the following charges are borne by the Service:-

Pay (including deferred pay) and dependants' allowances, rations and uniforms of canteen personnel; sea and rail freight; motor transport; insurance (fire, marine, pilferage, war damage etc); rent of premises (including administrative offices, stores issuing points, club premises, etc); sales tax; pay roll tax; customs and excise duty; audit fees, and all other expenses usually borne by a commercial concern.
