STANDARD DISTRIBUTION LISTS

1. Herewith copy of 14 L of C Sub-Area Standard Distribution Lists.

2. As this document comprises the OOB of this formation every precaution will be taken to ensure its safe custody.

3. The basis of the list is:-

List A : Distribution to all units under Comd and attached with copies to own HQ and higher formation (for infm) as required

List B : Distribution to Area Camp Staffs.

List C : Distribution to all units with copies for sub units and/or Dets.

List X : Distribution to units concerned in ADELAIDE RIVER Dof

List Y : Distribution to units in DARWIN area.

List Z : Distribution to units south of BURRUNDIE.

4. Distribution lists are used for two reasons (a) security and (b) econom in both cases to obviate the necessity of writing the full lists of addresses. Each addressee has a serial number.
If it is necessary to add or remove a unit to or from the distribution this will be done by marking the distribution for example "List A plus Serial 153" or "List A less Serial 22"

5. Certain units and dets are marked as receiving the infm from a senior unit e.g. Serial 11. Should this be impracticable, the senior unit should advise this formation immediately. Similarly if it is possible for a unit to administer a junior unit satisfactorily, this HQ should be advised.

6. It is desired that units advise 14 L of C Sub-Area by 12 Nov,43.
(a) the number of copies required for distribution in List C
(b) The number of copies of CROs, and RT Force ROs required.

HQ. 14 L OF C SUB-AREA.

G2/3/57.

8 Nov, 43.

Comd., 14 L OF C SUB-AREA.

TRAINING REPORT FOR MONTH ENDING 31 OCT. 43.

1. GENERAL. (a) Considerable variation is noticed in the state of unit trg. The majority of units are well behind the syllabus pleading a variety of excuses. This is due to
   (a) lack of enthusiasm on the part of units
   (b) the inability of OSOs to visit units
   (c) the fact that many units have little time available for trg.

2. RIFLE & LMG — No range practices were carried out during the month in accordance with NT Force policy. TOETs have been carried out in preparation for firing courses during Nov.

3. OTHER TRG was carried out in conformity with standard syllabus.

4. TPS IN PRT AREA:
   (a) Two cadres were formed in Prt Area for the trg of unit instrs therein: one for 5 Aust Docks Opg Coy and 19 Aust Map Coy and the other for remaining units. Of these the latter completed four courses during the month, the former only two owing to the arrival of boats which prevented pers from attending.
   (b) 41 unit instrs underwent a week's course in preparation for unit trg
   (c) Units began trg on standard syllabus 21 Oct 43.

ARMY MESSAGE FORM C2136

1. It is intended to conform with British procedure and adopt Army Message Form C2136 as soon as arrangements can be made to effect the change over. A copy of form C2136 (small) is att. Its actual size is 8 inches by 5 inches.

2. (a) The means of expressing date-time (vide para 6) will be taken into use as from 15 Nov, 43.

(b) Message Form C2136 however will NOT come into use until further instns are issued. The infm in regard thereto is circulated so that units may be prepared to take it into use immediately if required. Its use is current with Combined W/T or R/T Procedure in Joint or Combined Ops.

3. Definitions of Joint and Combined Ops are as follows:-

JOINT : Between two or more services of one nation

COMBINED : Between Services of two nations.

4. Instns for use of Army Message Form C2136:-

(a) As in the old message form only that part of it lying between the thick lines is for use by the originator.

(b) "ORIGINATOR": The originator here inserts an address sufficient to identify the office of origin.

(c) "FOR ACTION": The addresses of units by whom action is to be taken

(d) "FOR INFORMATION": The addresses of units to whom the message is passed for infm

(e) at a HQ. where a sig office is established, the addresses may be written in clear. At other HQs code signs must be used if the message is to be signalled by a means liable to interception by the enemy

(f) It is to be noted that the "TO" and "FROM" spaces are in reverse order from that in which they appeared in the old form.

(g) Date time of origin see para 6.

(h) Originator's number : the originator's number as previously used may now be inserted at the beginning of the text

(i) Signature: The originator signs in one of the two signature spaces which indicate the systems by which the message may be sent. If the text may safely be sent in clear by wireless, he signs in the left hand space, strikes out "except" and writes "Incl." No formal message is valid without a signature. A formal message is a message normally written on a message form; this is signed by the originator, and a record of it must be kept.

(j) Originator's Instns - Degree of Priority

(i) The originator may demand a degree of priority in the handling of his message. Messages of a high degree or priority are signalled before all those of lower priority. Messages of the same priority are signalled in the order in which they were handed in to the signal office (or with through messages, in the order of receipt).

(ii) If the message contains both action and information addressees, the degree of priority demanded by the originator applies only to the action addressees, unless the word "all" is inserted before the priority, e.g. "ALL IMPORTANT".

(iii) In the originator's instructions space may also be written instructions as "To be called for".

(k) Number of Copies. The originator will normally hand in one copy of the message for each address, and all addresses must appear on each copy.

6. DATE - TIME (a) All times will be expressed in six figures followed by a zone suffix letter. The first two digits of the figure gp denote the date, the first nine days of the month being expressed as 01, 02 &c. The second pair denote the hour and the third the minutes. For example:

8.15 am on the 9th day of the month when daylight saving is operating in NT would be 090815 KL

(b) When ref is made to a message by its TOO the method of expression will be preserved in its original form but the month (and, if required, year) may be added e.g. ref your 090815 KL Oct 43.

(c) Where a large number of times are involved, a covering expression may be used such as "all times zone KL" instead of appending a zone suffix to each figure gp.

(d) The abovementioned procedure is slightly varied in Joint and Combined Operational Procedure. Instns on this matter will be given as and when required.

OFFICERS' TRAINING

1. Parades for the tactical instruction of officers will be held every second Thursday.

2. All offrs below field rank will attend unless they are actively engaged in regimental duties.

3. Units will so arrange their work that the maximum number of offrs will be available to attend.

OFFICERS' TRAINING

1. The next offrs' trg night will be held at Area HQ., ADELAIDE RIVER HUT 10 on 2 Dec,43.

2. The subject will be a sandtable exercise: "An Appreciation of the Defence of ADELAIDE RIVER." The exercise will take the form of a discussion of the problems involved.

3. It is desired that Senior Officers attend this exercise to consider the role which they may have to undertake as sector Comds.

SUBMISSION OF RETURNS AND ACKNOWLEDGEMENTS

1. The attention of all units is directed to the necessity for the prompt acknowledgement of comms where required and the submission of returns by the due date.

2. Such action should be a matter of elementary routine efficiency. The present laxity is a poor reflection on the units concerned and involves a considerable amount of unnecessary sig traffic.

3. The methods to be adopted are a unit responsibility but the following is suggested :-

(a) Acknowledgement: The clerk registering the incoming comm drafts the acknowledgement and attaches it to the comm before passing it to the offr concerned. The offr then signs the acknowledgement, initials the "ACK" on the comm and returns the acknowledgement to the clerk for transmission.

(b) Returns: A diary should be maintained in which the return required may be entered say 4 days before it is due. The return should be submitted as soon as possible, the entry in diary serving as a reminder to ensure its delivery on the due date. Where it is impossible to submit a return by the due date a progress report MUST be submitted.

4. A serious view will be taken of any further laxity in this regard.

UNIT TRAINING

1. The course of weapon trg for units located in the former 14A Sub-Area has now been completed.

2. It is intended that all units throughout 14 L of C Sub-Area shall adopt a standard syllabus of training of half an hour per day. This is by no means adequate from the trg point of view and should be regarded as a basic minimum to be supplemented as possible under unit arrangement.

3. Attached is a copy of the standard syllabus now in operation in former 14 L of C Sub-Area units. This will be followed by a further syllabus beginning early in 1944.

4. As Trg Cadre pers will NOT be available before the end of the year it will be necessary for units to rely upon their own resources for trg during the intervening period.

5. In order that units may begin next year with some common basis of trg it is desired that work from the attached syllabus be done as suitable to the present standard of unit trg. It is suggested that periods be selected from the sixth week onwards.

6. It will be noted that the syllabus is drawn up for two quarter hour periods daily. Experience in the implementation of the syllabus has proved this to be best. Should a unit, however be absolutely precluded by the nature of its duties from parading daily, it is possible to do the weeks trg in a half day's parade.

14 L OF C SUB AREA

ROUTINE ORDERS

BY

LT COL R.M. SADLER DCMD 14 L OF C SUB AREA.

GENERAL STAFF

97. TRAINING.
(a) A pool of ammunition has been allotted to 14 L of C Sub area to be fired by personnel who have passed TOET but have not qualified on the range. All units will complete TOET and submit returns thereof showing:-
(a) Total strength
(b) Number qualified
(c) Number failed to qualify and reason thereof
(d) Numbers who have qualified in TOET - but have not qualified on the range.

(b) Returns will be forwarded to reach this HQ by 20 Nov 45.

(c) An allotment of ammunition will then be made to units who will draw direct from ammunition depot and carry out the necessary range practices.

98. SIGNAL MESSAGE PRIORITIES.
Attention is directed to the continued abuse of signal priorities. Where messages are not of an urgent nature they must be marked "Deferred" in the originators instruction column.

99. ABUSE OF TELEPHONES.
Although the use of the telephone has decreased in some units it is considered that unwarranted use thereof is still being made. It is imperative that the telephone be used only when an immediate answer is required. The telephone should be the last resort, not the first.

100. SERVICE AMMUNITION FAILURES - DESTRUCTION OF BLINDS.
1. Recent instances of careless handling of unexploded ammunition would appear to indicate that personnel in their area are not fully aware of the danger attendant on this practice.

2. All ranks will be warned that on locating a blind, in no circumstances will they attempt to move or handle it, but will clearly mark the position and report the location to unit HQ as soon as possible.

3. Attention is again directed to GRO 407/45 which lays down the procedure to be followed for the reporting and demolition of blinds. (Auth MEF 8006/6/AS of 23 Oct 45

Major,
General Staff.

ADJUTANT AND QUARTERMASTER GENERALS BRANCH.

101. W.A. STATE ELECTIONS
Voting for abovementioned elections will be held on 20 Nov 45. Qualifications are similar to those of General Elections recently held. Ballot papers and further instructions will be forwarded by this HQ to units as required. Returns have been called for through Area Comdts.

102. SUBMISSION OF A A F D 11 - REPORT OF INJURY.
Units must ensure that D 11 are forwarded to this HQ as soon as possible after the injury has occurred. If for any reason the submission of the D 11 has to be temporarily delayed this HQ should be advised.

103. COURTS OF INQUIRY - ILLEGAL ABSENTEES.
1. By Statutory Rule 245 dated 29 Sep 43. Australian Military Regulation 278A was made providing for an alternative method of investigation into illegal absence for twenty one days or more, to that of holding courts of inquiry under AMR 276.

2. As dependents allowance and allotment payable in respect of a member absent without leave can only be suspended under War Financial (Military Forces).
Regulation 54 after A Court of Inquiry has declared the member an illegal absentee, Court of Inquiry will continue,(notwithstanding the making of AMR 273A) to be held until further notice under AMR 276 in allcases in respect of members absent without leave for twenty one days or more. (Auth LHQ 174620 dated 9 Oct 43.)

104. LEAVE ON DISCHARGE.
1. It has come under notice that members who are about to be discharged are being sent to GDDs for finalisation without their being accompanied by the Record of leave directed by GRO A249/43 to be kept by units in respect of each member.

2. The record of leave to be kept pursuant to GRO A249/43 is one of the members unit documents, and that order provides that the Record of Leave will be forwarded with other documents on movement of a member from his unit.

3. It is particularly important that the Record of Leave should be available at GDD when a member marches in for finalisation on discharge or termination of appointment. Its absence may cause delay in finalisation whilst information is obtained regarding the members leave entitlements. Moreover unnecessary work is thrown upon GDDs & Records Offices.

4. In view of the approval recently given for the issue of pay and allowances in lieu of leave on the discharge of certain members(vide LHQ 179691 of 15 Oct 43) the necessity for maintaining a Record of Leave and of making the same available at GDD when required are brought into greater prominence.

5. All units will immediately examine personal documents of all members and ensure that Record of Leave is accurate and up to date and kept so. Particular care will be taken to ensure that the provisions of GRO A729/43 as applicable to Record of Leave are observed.

6. An inspection of Records of Leave maintained by units will be effected by this HQ at varying intervals.

105. LEAVE.
Pro Forma for use in submitting applications for compassionate leave is attached. Applications should be submitted to this HQ on this pro forma, in duplicate.

106. NOMINAL ROLL OF DRAFT AAF A232.

1. The provisions of GRO 411/43, para 5 are not being observed by all units with regard to the two copies of AAF A 232 accompanying reinforcements sent forward from 4 Aust ARD.

2. In all cases the second copy, receipted by the unit, must be returned by the unit to SA L of C Records Office.

107. UNIT HYGIENE.

1. Owing to the prevelance of dysentery and diarrhoea at the present time it is essential that Unit Comds maintain their hygiene standards at the very highest level, and that all ranks be impressed that this is necessary to maintain health and efficiency and prevent the spread of the present epidemic.
The attention of Unit Comds is directed to the following:-
(a) Responsibility for Hygiene FSR Vol 1 Sec 145.
(b) Sanitary Rules for Cookhouses, Army Manual of Hygiene and Sanitation - page 239 appendix 8.
(c) Personal Hygiene, Army Manual of Hygiene and Sanitation - page 20.

108. MALARIA CONTROL.

1. The potential danger of an outbreak of Malaria will be accentuated during the following month or two until the advent of the Wet Season.

2. Unit Comds should insist that no water surface in their lines be retained unfilled. Such areas requiring attention are slit trenches road gutters, gravel pits, swamps, slowly running streams, and any water retaining utensils.

3. 10 Aust Anti Malaria Control Unit provides the technical service on these matters, but it should realized that mosquito control and malaria discipline of the troops is a unit responsibility.

109. SPEED LIMITS - DARWIN FORTRESS AREA.

1. The following speed restrictions will apply to all vehs throughout DARWIN FORTRESS AREA.
Maximum Speed all classes of vehicles 20 m.p.h.
Maximum Speed across intersections 15 m.p.h.

2. Drivers entering DARWIN will observe these restrictions on passing RAAF Police Station.

3. Normal rules of the road and road courtesy will be observed. Drivers will give way on their right.

4. All vehicles drivers will be informed of the foregoing restrictions and directions. (Auth DARWIN Fort. Area. HO 437/43).

110. [illegible] CARDS.

[illegible] are to be placed for official [illegible] for 1946. (Auth NTF Sig A8038)

111. MOVEMENT ORDERS.
All movement orders requiring the movement of a member out of NT must have the authority of NT Force endorsed thereon (e.g. NT Force memo No or Sig No). In order that no delays occur in the disposal of the member, units will quote in addition any LHQ memo Milbase memo, 14 L of C memo and any other memo No which will be of assistance in ensuring the correct disposal of the member.

112. RETURN OF RESERVE AND/OR EMERGENCY RATIONS.
Returnsof Reserve and Emergency Rations are to be forwarded in accordance with NT Force Adm Instn No 85 of 1 Oct 43 to this HQ. Returns must reach this HQ by 3rd day of each month.

113. INDISCRIMINATE USE OF FIREARMS.
14 L of C RO 68/43 is repeated hereunder and will be read to all ranks on parade.
"1. Indiscriminate shooting still occurs throughout the area and constitutes a serious danger to personnel in the vicinity. In addition, instances are frequently reported of wilful damage to vital telegraph and telephone lines by rifle fire. The seriousness of these practices will be impressed on all ranks and severe disciplinary action will be taken against offenders.

2. The attention of all ranks is to be again drawn to this order.

3. This R.O. will be repeated in all units Routine Orders.

UNIT CAMP AREAS - BEAUTIFICATION SCHEMES.

1. Comd 14 L of C would much appreciate the interest of Unit and detachment Comds in the beautification of their camp areas. The situation so far as L of C Units are concerned may be said to be semi static and this will enable planning for a reasonable period ahead.

2. Camp beautification may be combined with the development of food bearing plantations or gardens, incorporated with a scheme of tent or hut garden development. The combined effect of a plantation or avenue of say 50 bananas or pawpaw in each of a hundred or more camps will be one of great general food value to the force.

3. ADS(A) HQ had kindly promised to make available banana suckers to units requiring them, and also the advice of members of the HT Farm Unit to any who ask for it. Pawpaws are very easy to grow and seeds easily obtainable. The value of unit kitchen gardens is so obvious that any unit or detachment not having one is neglecting an opportunity of providing its members with an ancillary food supply, the medical value of which in hot is inestimable.

4. Adm Area Comds are invited to commence a small nursery where seedlings may be struck for issue to units in area.

5. There are many lovely palms, ferns and shrubs in HT, which are most suitable for use on mess beautification. Some of these may be grown in nurseries which some units will find necessary to build owing to stony camp sites.

6. It is proposed to hold a Unit Garden Camp Competition later on when the larger plants have had time to grow to reasonable size and in the meantime units are requested to prepare and commence the development of their schemes.

7. Units are reminded however that HQ policy precludes the use of fresh water for unit gardens. There should be ample water for this purpose from the showers etc.

8. Finally, if your camp is well laid out and artistically developed you men will be happier, healthier, and proud of their camps.

AMALGAMATION 14 L OF C - 14A L OF C SUB AREAS.

1. Comd 14 L of C Sub Area wishes to extend a welcome to all units of 14 A L of C Sub Area into the 14 L of C Sub Area organisation. It is hoped and desired that future relationship between Sub Area HQ and Units under Adm control will be of a most pleasant and co-operative nature.

2. HQ 14 L of C assures newly incorporated units that its policy of "Service and Assistance" will be applied to them in the future with the same zest as it has been applied to units of 14 L of C Sub Area in the past.
The reciprocation of all units is invited. With a feeling of trust and confidence existing between Sub Area HQ and units under Adm Control greater efficiency in all things will ensue.
