NO. 151

**MEDALS - PROVISIONAL
ORDER FOR ISSUE OF
THE RIBBON OF THE
1939/43 STAR. EX-
TRACT FROM G.R.O.
A329/44**

1. His Majesty the King has been graciously pleased to recognize the services rendered by His Majesty's Forces during the first four years of the war by the institution of a Star to be known as the 1939/43 Star.

2. The issue of instructions regarding the eligibility of members of the AMF for the 1939/43 Star has been held over pending determination of the areas in which Australian Army personnel may qualify for the award. Final determination of the full list of such areas cannot yet be completed, but, in order to avoid delay, this order is promulgated to cover those cases in which eligibility has already been determined. As further areas are approved, particulars will be promulgated.

The areas laid down do not, as yet, include Australia or New Guinea.

Any member of this Group desiring further details should apply to this Headquarters.

**NOTIFICATION OF
CHANGES IN RESPECT
OF NEXT OF KIN.
EXTRACT FROM G.R.O.
A330/44**

NO. 152

1. A member of the AMF may nominate any person as his next of kin for army purposes, although that person is not his legal next of kin.

2. It is the function of the 2nd Echelon organization to notify fatal and certain other casualties sustained by a member to the person recorded in army records as the member's next of kin, or to any other person nominated by such next of kin to receive casualty advices.

3. Failure by a member to report promptly particulars of a change of next of kin or a change of address of next of kin, in order that the appropriate 2nd Echelon component may be advised, causes considerable administrative work to the Army and may delay or prevent notification of a casualty being given to the proper person, thereby causing distress to the member's relatives.

NO. 152 Contd.

4. Each member will, therefore, be instructed that, on the occurrence of any event (such as his marriage or the death of his next of kin) which renders a change of the record of his next of kin desirable or necessary, he will promptly notify his unit of the change he desires to make. Similar prompt notification should be given of any change of address of his next of kin.

6. Each member will be warned that a change of his allottee or an entry in his AAF 83 of a change in the particulars of his next of kin will not be sufficient to notify the 2nd Echelon organization of a change in respect of his next of kin.

7. (a) Each member will be advised that, on his marriage, any will or codicil previously made by him, save in exceptional circumstances, becomes of no effect and, under Australian Military Regulations, he is bound, upon marriage, to make a new will.

(b) On marriage, a member will make another will immediately, either on an AAF A130 or by a separate document, and will submit the AAF A130 in an envelope (AAF A131), duly completed, to his unit HQ for transmission to the appropriate 2nd Echelon component.

(c) A member may obtain the assistance of an officer of the AALC in the preparation of a will.

NO. 153

9. (a) When it becomes necessary to alter the destination of goods already en route by rail (including goods which have reached the original destination but have not yet been unloaded from rail wagons), or, for military reasons, to alter the route, an AAF T3 (Change of Destination Order) will be used.

(b) Alterations will be effected through Movement Control, which will make the necessary arrangements with the railway systems concerned. CONSERVATION OF
RUBBER -
SYNTHETIC TYRES.
G.R.O. 0302/44.

NO. 157

This order will be read in conjunction with G.R.O. 0167/1944.

2. The critical rubber situation and the necessity for obtaining the maximum service from tyres has been stressed from time to time. The further deterioration of the situation, necessitating the introduction of tyres of synthetic construction, renders it imperative that greater care than ever be exercised in the use and maintenance of all tyres, whether of synthetic or natural rubber construction.

3. Synthetic tyres are far more susceptible to failure through abuse than tyres constructed from natural rubber. All concerned will, therefore -

- (a) exercise the utmost care to avoid -
overloading
underinflation
hard braking and fierce acceleration
high speeds
bump and other causes of severe impact;
- (b) check wheel alignment frequently and correct irregularities promptly;
- (c) rotate tyres regularly;
- (d) remove stones and flint from tyres during unit maintenance;
- (e) submit tyres for replacement at the correct stages for recapping; and
- (f) submit damaged tyres for repair without delay.

4. Formations and units will ensure that prompt disciplinary action is taken where breaches of this order occur.
