EDITORIAL.

With the cessation of hostilities in the European Theatre and the rapid progress made in the Pacific, Educational activities are coming more to the fore. In spite of operational requirements, which preclude any great degree of study and preparation for the future there is an increasing awareness of the need for the individual to improve his status.

While it is specifically stated that there is no guarantee that personnel applying for post- discharge training in a particular vocation will be selected, pre-war qualifications and qualifications gained while in the Army will carry a good deal of weight.

In view of developments, it is essential that Troops be made fully aware of matters concerning their future, and that every available opportunity be given them to further their studies.

Attention is drawn to "SALT" Vol 10 No 4 of 25 Apr 45, which sets out the details of the re-establishment and employment Bill.

Lecturers are available from this HQ to deal with the question of post-war Rehabilitation, and to explain the "Serviceman's Charter".

CORRESPONDENCE COURSES.

It is mid-year and this fact raises many points for consideration with regard to Correspondence Courses. First, applications for University courses and for enrolment in Secondary School subjects for the current year's examinations in November can no longer be accepted. However, applications for such courses for the year 1946 will be accepted and it is highly desirable that they be lodged between now and December next.

On the other hand, courses of a basic nature, particularly those that do not culminate in an examination other than tests here and there throughout the period of the course, are continuously available.

In the past two months a number of new courses has been made available, a summary of which is listed hereunder.

With regard to completing of application forms (AAPA's 356, 357 and 354) it is necessary to repeat that greater care should be taken. Much unnecessary work and delay have been caused through failure to fill in forms correctly.

There are still cases of signatures omitted, paybook No omitted on A357 or A354, and insufficient details of previous educational accomplishment when the course applied for demands certain fixed educational prerequisites.

Another point. There is still a tendency among troops to aim too high at the outset. UEO's are requested to point out clearly - kindly yet firmly, that it is a mistake for a prospective student to attempt a course at a standard beyond his present capabilities.

Here is an example. A soldier recently applied for enrolment in the Building Construction Course. He had not attained Intermediate Standard nor had he any practical experience in building, even though his hobby had always been carpentry, The course is closed to him at the moment, but he can prepare himself by undertaking the Preparatory Diploma Course - a standard course in Maths and English to prepare the student for advanced technical courses.

Full particulars of scope and cost of all these courses can be obtained by personal application, from DADAE HQ 1 Aust Corps.

CRAFT WORK.

Further stocks of tools, art material and a limited supply of embossing hides are available for use of Craft groups. UEO's desiring issues are referred to AAES Monthly Review No.2, which sets out the procedure to be followed.

Climatic conditions necessitate additional maintenance to equipment and tools and UEO's are required to exercise care in their preservation.

A limited quantity of metal-working equipment is also available.

LIBRARIES.

Standard Reference Library.

This library is available for Corps UEO's but, as there has been considerable losses it is essential that all borrowers adhere strictly to the provisions of para 2 (b) of Aust Army Education Service notice in 1 Aust Corps Routine Orders No 41/44 of 6 November 1944, which states :-

> "Members of formations and units under command will submit requests for books through nearest Education Officer or Unit Education Officer. Books will be lent only on the responsibilit and signatures of such officers."

Books will not be issued to individual personnel from units. All requests must come through the UEO, who will be responsible for ensuring that books are returned to the Library within 14DAYS. In Special Cases, application may be made for an extension, which will be granted, provided that the book in question is not required for another reader.

Circulating Box Libraries.

All units which have had CBL's on loan for two months or more are requested to return these before 30 June 45, to enable a complete check of all boxes to be made. UEO's requiring another CBL in lieu will be able to obtain one, on application.

Penguin and Pocket Libraries.

It is expected that more books of this type will be coming forward shortly. The boxes already issued to UEO's will be needed to house the new books so it is requested that, when the contents of the boxes at present held become depleted, the boxes to be returned to this HQ for refilling. Notification of the availability of these new books will be made immediately on arrival.

FILMS.

Units desiring Documentary and Educational film programmes are reminded that this activity is limited by two factors ;-

(i) A/C power must be available - 110-240 volt generator.

(ii) Provision of shelter for the projector is essential.

MUSIC.

Evening recitals of recorded music are held at various sites. For the time being, it is necessary that units desiring this service provide power for the machine. The gramo-amplifier will be self-contained once the batteries are in working order.

A recital is held at the picture site at Corps HQ every

Wednesday evening from 1930-2100 hrs. Any personnel from Corps Units who are interested are invited to attend.

CLASSES.

UEO's are reminded once again of the desirability of using qualified instructors within units, to assist with Classes. Classes in basic subjects such as English and Arithmatic are particularly valuable.

DEBATING.

Debating is still more or less the Cinderella among Educational activities. On 2 Jun, a team representing Corps HQ met a team from Adv LHQ. The subject being "That Immigration restricted only by numbers would be of benefit to Australia". The Corps team won by 6 points.

It is hoped that Corps Units will issue challenges to other units. UEO's interested are invited to discuss the matter with DADAE HQ 1 Aust Corps.

CONFIDENTIAL

MONTHLY REPORT - 1 AUST CORPS - MAY '45

11 June 45

REMARKS SECTION

1. PERSONNEL

(a) VX 151219 Sgt GRAY, L.R., LHQ Pool AAES Det 1 Aust Corps was evacuated to hospital on 1 May and was discharged on 16 May. Transferred to ADPR 1 Aust Corps on 30 May.

(b) WX 39842 Pte COHEN, J., LHQ Pool AAES Det 1 Aust Corps, was evacuated to hospital on 18 May and returned to duty on 24 May.

(c) SX 6059 Sgt GRUBB, R.W., formerly att Supernumerary to HQ 2 Aust Beach Gp, was promoted to first appointment and re-posted as AEO (Lt) HQ 6 Aust Div, as from 8 Apr 45.

(d) NX 203526 Pte SKELTON, J.J. m/i on attachment (Supernumerary), HQ 1 Aust Corps, on 14 May, in accordance with personal instruction given by GOC 1 Aust Corps.

2. EDUCATION CENTRES

The Education Centre at Corps HQ is functioning very successfully and interest is growing all the time.

Efforts are being made to re-establish Centres in Corps Units, but this is difficult under present conditions.

AEO 26 Bde has completed arrangements for the setting up of a small Centre in an old house near Force HQ on TARAKAN.

3. FINANCE

The amount shown against Item 3 does not include costed accounts, not yet received, in respect of the balance of Ordnance purchases. The total expenditure from the F/A will be shown in the June Report. It is anticipated there will be only a small unexpended balance.

4. EQUIPMENT HELD

Supplies of equipment received during the month have been much appreciated.

Projectors: The 16 mm "Victor" which was held by AEO 9 Div has been transferred to AEO 9 Div. Two projectors of that type are now held by the latter.

Two 16 mm "Amprosound" projectors have been issued to AEO 7 Div. It was considered wise to standardise the film equipment held in each Div.

Of the four new 35 mm Strip film projectors received during the month, two each have been issued to AEO's 7 and 9 Divs.

Gramo-amplifiers: Three large gramo-amplifiers received recently have been issued as follows:-

AEO 7 Div - 1
AEO 9 Div - 2

(Two have been issued to the latter for strategic reasons).

These gramo-amplifiers have been put into working order, as far as possible, but the microphones are defective and there appears to be some constructional defect in these, which cannot be remedied locally.

These machines are not very suitable for use in Divs, as they are too large and heavy. It is hoped that portable gramo-amplifiers will be available soon, for issue to all AEO's.

Radio Sets:- Arrival of the six Dual-wave battery radio sets despatched from MELBOURNE ON 12 May, is keenly awaited. It is intended to issue three of these to AEO 7 Div, two to AEO 9 Div, and one to AEO 26 Bde (on TARAKAN).

Gramophone Records:- Arrival of Gramophone Records - Series C - is still awaited.

Libraries:- Eighteen CBL's were received recently and are being issued.

Twenty four boxes of Penguin and Pocket Books despatched during Mar 45 have not been received. These will be very welcome.

Four Field Reference Libraries Series II have just been received and are being issued to AEO's.

5. LECTURES

AEO 26 Aust Inf Bde (TARAKAN) and his Sgt gave an average of 6 to 8 news talks daily during the month. The troops are reported to have shown a lively appreciation of these and keen discussions took place. Talks on Japan, Borneo and Malaya, also News Reviews, were given to Corps Tps. The present scope for talks to Corps Tps is exceedingly limited. Very few Corps Tps are now under command this HQ, the bulk of them being at present under Comd of 7 and 9 Divs, respectively.

6. FILM PROGRAMMES

During May 2 copies of the 16mm film "Island Target" were received.

Six programmes were screened among Corps Tps and films borrowed from US Special Services have been used to supplement those held by us.

A programme is screened at Corps HQ every Monday night.

7. DISCUSSIONS

Efforts to form Discussion Groups here have so far been unsuccessful. The new Discussion pamphlets are being issued to EO's and UEO's and these are being read, but formal discussion groups are extremely difficult to develop. However, good discussions always follow talks given by AAES personnel.

8. MUSIC

This activity is continuing to develop satisfactorily and with the recent arrival of additional gramo-amplifiers and the projected arrival of Series C records, the number of Music recitals should soon increase considerably.

9. DRAMA

Under existing conditions the formation of drama groups is not practicable.

An effort was made recently to form a Play Reading Group at this HQ, but although several personnel were found to be interested, some belong to branches that are very busy at present, while for others the counter-attraction of readily accessible film shows every night is too strong.

10. LIBRARIES

Heavy demands are being made on the Standard Reference Library at this HQ.

Unfortunately, a number of books are missing from this Library. A separate report has been furnished, showing a list of books of which no trace can be found.

11. TUITION

Classes in Malay, Japanese, Mathematics and English have been formed at Corps HQ and are making good progress. A Drawing Class is also being formed.

12. CORRESPONDENCE COURSES

Applications and enquiries are still being received consistently.

It is hoped that the Melbourne Technical College Section of the Handbook will be available soon.

13. PRE-VOCATIONAL and CRAFT ACTIVITIES

The Craft Centre which has been established at this HQ is attracting a number of personnel and some good wood-work and metal-work is being done. Leather-work will commence within the next few days.

14. GENERAL

It will be noted that this report covers only part of this formation. It is hoped that it will be possible to furnish with the June report a complete report of activities in 7 and 9 Divs during the period 1 May - 30 June. The current report includes only activities at Corps HQ, among Corps Tps and in 26 Bde during May.

A report from AEO 26 Bde on Educational activities carried on during operations on TARAKAN is attached hereto as an Appendix. It will be noted that excellent work is being done there, particularly in regard to news Talks and production of the Daily News Sheet.

A supply of gramophone records has been despatched to AEO 26 Bde and a quantity of Craft equipment will be forwarded within a few days. One of the six Radio sets en route to this HQ will be forwarded to AEO 26 Bde immediately on arrival. Maps will be supplied as soon as some are available. A consignment of Robinson's Maps is expected soon from SYDNEY.

APPENDIX TO 1 AUST CORPS REPORT FOR MAY '45

Report from AEO 26 Aust Inf Bde:

1. "The main activity has been the production of a daily news sheet. This, under the heading of "Tarakan Times", has been issued since about P plus 2. My employment in a tactical role for the actual landing, and the ensuing 48 hours, plus difficulty in getting stores ashore, made it impossible to begin this service until then.

2. The news sheet began with a circulation of 80, designed for forward troops, and by the end of the week it had risen to 150. At present we are producing 400 copies daily, supplying to all units -- serving, in fact, 13,000 troops from all services on the island. An increase to 450 now seems likely, as Air Force circulation is being expanded.

3. Distribution at first was by DR, a not altogether satisfactory means since DR timetable and printing of the Times did not always coincide. I have now evolved a very workable system. My batman has a bicycle on which he is able to make three main runs to most units or B echelons, delivering all copies within two hours. As far as the fighting battalions are concerned, I am supplying 35 copies daily to B Echelons. There the CQMS of each Coy picks up his allotment and they reach the front line either by lunch-time or during the afternoon. This is working most satisfactorily.

4. Another means of distribution now employed is dropping by the Auster recce planes. This is used for isolated patrols, or troops at the end of a long L of C. Between 30 and 50 are given to the AOP daily, and the lads are very appreciative of this service. It is something which could well be expanded for future operations, provided, of course, the RAAF were as willing to co-operate as they have been here.

5. While still on the news production, we have been handicapped to some extent by the lack of a radio of our own. The Sigs have given me virtually the sole use of a No 4 set, but on occasions this has to be used for Sig work. Experience has shown that every Education Officer must have a good short wave receiver - a very selective one, because nearby Jap stations interfere a good deal.

6. The duplicator has worked well, though when a large number of copies has to be turned out it means time and labour -- labour is supplied by Sjt Macpherson. Unfortunately the HQ has no rotary duplicator, and a Japanese one I obtained has only just been repaired by Workshops.

7. Collection of news, typing of stencils, and distribution takes up the entire morning for both the Sjt and myself. In the afternoons I spend about two hours at the CCS, giving each ward a summary of operations on the local front, and overseas news. These talks on many occasions take in "visitors" from the units. In the evening I give a 15-minute news review over the public address system at the RAAF cinema. From then until 2300 I am busy preparing the first stencil of the news, air raids permitting.

8. Sgt Macpherson spends the afternoons visiting the forward units. He talks to groups at YMCA or Salvation Army stands, and to section or platoon groups in the reserve Coys. With the limited transport and limited time available, it is not possible to spend more of the latter with these men.

9. The allotment of one officer and one Sjt to such a large force has proved quite inadequate. There is scope for full-time work in the CCS and NDS alone, as well as the Base Sub Area. It is recommended that at least one Sjt-lecturer be added to any similar Force, to enable a better coverage of forward troops.

10. Music is non-existent. As we have no radio of our own, even this means of providing music is not available. Except during air raids, lights are available every night. Musical programmes could have been given nightly, and particularly on Sunday nights when no movies are shown. If records could be supplied, arrangements could no doubt be made with the YMCA representative for the use of his equipment two or three times weekly, at least.

11. My own hurried departure from Morotai, and misunderstanding with LOB personnel there, has resulted in most of our library books remaining there, including the reference library. A nucleus library of some 60 books came with us, but until our remaining stores arrive, no real library can be established.

12. Maps are another requirement. I have a good set of maps for my own use, but newsboards have been set up at points around the area, and all are crying out for maps, particularly of the East Indies, China and Japanese theatres. Can you supply me with any for this purpose? AES newsboards material is handy, and we are now preparing special sheets of cuttings for distribution. LHQ material has been coming along satisfactorily, but it fills only a small part of the requirement.

13. My strip film projector was unfortunately left to follow up, and has not. Sjt Macpherson could probably have used this to good effect. It should be particularly valuable in the period immediately following the end of organised resistance, when the troops are resting. It is hoped that our stores will have arrived by that time.

14. An old trouble, the failure of Salt and CAB to arrive regularly, is occurring. Many units complain that they have not yet received one or other of the April issues.

15. No accurate count has been kept of lectures given by Sjt Macpherson or myself, but on the average we give from 6 to 8 daily, mainly news reviews. Sjt Macpherson is dealing with the Polish-Yugoslav question this week, on request by reserve infantry Boys now resting. He reports some keen discussions.

16. Our troops are still fully committed at the front, and may be for a little time yet. When organised resistance ends, more education activities will be possible, and it is my intention to organise a number of centres in unit areas, where maps, books, etc., can be studied.

DWGS, LHQ

1. Tarakan War Cemetery. - An instruction, dated 28 May 45, was issued by Adv LHQ that a permanent war cemetery be established at Tarakan, and this will be implemented. DADWGS had recommended, 20 May 45, that such a cemetery be established. On 25 May 45 DADWGS cancelled previous recommendation and recommended that the bodies be brought to Morotai. Arguments in favour of a cemetery at Tarakan are :-

(a) Burials may possibly exceed 200.

(b) It would obviate necessity for removal of bodies to Morotai or, alternatively, some area in Borneo.

(c) Tarakan is the centre of a civil population. It is conceivable that labour for maintenance would be obtained easily.

(d) It will have an historic interest for Australians.

Arguments in favour of removal of bodies from Tarakan to Morotai are:-

(a) It would obviate necessity for maintaining two cemeteries. During operations and for some time afterward it is essential that a cemetery be maintained at Morotai, as two AGH's are functioning.

(b) After clearing Tarakan 8 AWGU would be consolidated in one area - Morotai - whereas it will now have personnel in both places.

(c) Without the addition of graves from Tarakan it is unlikely that the number at Morotai will ultimately warrant a permanent cemetery.

(d) It may be considered at a later date that the number of graves would not warrant a permanent cemetery at Tarakan.

2. Plan for Tarakan and Morotai. - 8 AWGU, less photographer, will concentrate at Tarakan and complete the task as far as possible. At present 24 AWGU is responsible for Morotai. When it moves to the operation to which it is allotted it will hand over the cemetery to 8 AWGU which will maintain the cemetery by a detachment consisting of Cpl photographer, plus one general duties private from 23 AWGU. This detachment will be reinforced as soon as possible from Tarakan. The photographer will not proceed to Tarakan until all crosses are sign-written and erected. Application has been made for movement of 8 AWGU, less photographer and jeep and trailer, from Morotai to Tarakan.

3. Allotment of War Graves Units. - 23 AWGU is allotted to impending operation. OC will embark 1 Jun, and unit will follow 17-19 days later. 24 AWGU is allotted to succeeding operation. A request has been made that OC go forward with assault forces.

4. Morotai War Cemetery. - 14 direct burials and 18 reburials were effected, making a total of 35 graves, which includes 3 direct burials in April. A fence - 4" x 4" posts, 2'6" above ground, 10' apart; arc mesh 18" above ground; and a cable threaded through posts at a height of 2' - has been constructed. Timber has now been secured for entrance posts and gates. Levelling of area continues. A temporary flagpole has been erected. A paint shop is in course of construction, and crosses are being painted. Some crotons, acaliphas, and hibiscus were found, cuttings obtained, and a small nursery planted. A plan for a permanent hut 10' x 10' was submitted; subject to material being available, the work will

be carried out by 24 AWGU, with supervisary assistance from 1 Aust CRE Wks. Plans for a memorial and drainage were submitted, and are now in the hands of 1 Aust Base Sub Area.

5. Personnel. - Lieut T.J. COLLINS marched in and was attached to 23 AWGU 10 May. Units are complete except for signwriter and driver-mechanic, 8 AWGU; and photographer, 24 AWGU. It is expected that dvr-mechanic will rejoin unit ex hospital shortly. Signwriter and photographer have been subjects of correspondence previously.

6. Stores. -

(a) Temporary Memorials. - Delivery was taken of 504 crosses 28 May. These arrived in very good condition. This consignment was notified via Transfer Voucher No 1654, issued by 3 Aust Engineer Stores Base Depot RAE, consigned from Dump No 31, West Melbourne. No advice has been received of despatch of the balance of the order (496 Crosses). It would be appreciated if the matter was investigated. Your WGS22700, of 14 May 45, refers. The position is that three requests have been made for a total of 2204 crosses, of which 504 are to hand, and no transfer vouchers for the remainder have been sighted to date. Voucher 1654 is enclosed.

(b) Exhumation Caskets. - Eight caskets are being manufactured by 60 Aust Corps Fd Pk.

(c) Photographic Material. - A further supply of films is asked for by separate memo.

(d) Vehicles. - All unit vehicles are to hand and in good condition.

7. Statistics. - Statistics for deaths and burials and missing personnel are as shown in Appendix "A". Figures are those recorded in this office of dead and missing in the area EAST of longitude 117 deg EAST, and WEST of longitude 130 deg EAST. Information was received via W3314's, War Graves Units, 2 Aust Adv 2 Echelon, First Aust Army, and RAAF Lists. The figures do not purport to be complete to date.

Toilet Soap - 1 cake per man

2. Issues will be available on Thursday 3 May 45 between 0830 - 1630 hrs.

19. WASHING OF ISSUE CLOTHING

1. Due to the short supply of all raw materials involved, it is necessary that the maximum life be obtained from all items of clothing on issue to AMF personnel.

2. Incorrect methods of washing, exposure to strong sunlight, excessive sweating and using too much of certain soap powders, may seriously affect the dyes and weaken the fibre of clothing material. Failure to remove completely all soap and perspiration by thoroughly rinsing after washing, is one of the reasons for the breakdown of fabrics.

3. Neglect to pay due attention to regular and efficient washing of garments has been responsible in many cases of dermatitis. Observance of the following instructions will assist in decreasing the incidence of all skin complaints.

19. WASHING OF ISSUE CLOTHING (Contd)

4. Washing flannels and woollens -

(a) Worsted shirts, socks, woollen drawers, etc, should be washed in lukewarm water and never in boiling or hot water, as this shrinks the material. A tablespoonful of ammonia added to every two gallons of water will remove grease and perspiration stains;

(b) Good quality yellow soap only should be used, and, after washing, the garments should be well rinsed in clean, tepid water and stretched by hand before drying.

5. Washing of cottons -

(a) If cotton garments are boiled, the washing compound or soap will be added to the water prior to putting in the garments to be washed;

(b) If washing compounds, which are usually sold in packets under well-known brands and frequently known as soap powders, are used, not more than one tablespoonful of the compound will be added to each gallon of water to be boiled;

(c) If ordinary soap is used, 1-oz (approx a 1-in cube) should be added to each gallon of water to be boiled;

(d) It is most important that, after washing, the garments are thoroughly rinsed to remove all trace of soap.

6. It is realized that washing facilities and an adequate supply of water are not always available. Nevertheless, the hints and instructions contained in this order will be carried out whenever possible, especially in regard to rinsing thoroughly after washing.

20. PAY PARADE
