FIRE PRECAUTIONS. With the approach of summer conditions attended by bush and grass fire hazards, it is essential that all Dets. make a check of fire fighting equipment on charge, with a view to determining :-

- (a) whether it is a dequate to meet demands.
- (b) that such equipment is efficiently maintained and ready for immediate use.

This HQ will be advised of any shortages of fire fighting equipment.

All units will carry out unit fire drill and inspection of equipment at least twice per month and fire fighting equipment will be maintained in first class condition.

Definite instructions will be issued through Unit Routine Orders with the object of preventing an occurrence of bush fires. Such instructions should direct that before vacating camps or bivouacs, all fires be quenched. Adequate fire breaks will be maintained in and around Army installations.
