The following extract from a letter received from Eastern Command is promulgated for the attention of all ranks:-

"I am directed to request that the necessity be impressed on all ranks of co-operating with the civil authorities in the maintenance of law and order by avoiding those localities where enemy and other alien subjects have resided and where business premises have been boarded up.

"The viewpoint of the soldier is well understood but in being present in such areas he makes himself the catspaw of the evilly disposed individual whose sole objection is to create disorder at a time of national stress when the civil populace is subject to alarmist rumours and can be easily induced towards acts of wanton destruction and disorder."

3. RUMOURS IN CIRCULATION.

A report has been received that rumours are in circulation to the effect that a number of troops in military camps have died as the result of sickness (influenza) and such rumours are alleged to have been started by a soldier.

Enquiries instituted have revealed that such rumours are without foundation and in fact no deaths of military personnel have occurred from influenza.

The effect of such rumours upon the public and military personnel if not checked may create panic and become prejudicial to the efforts now being made.

Should any case of the spreading of such rumours be detected severe disciplinary action will be taken against the offender.

Men are advised that when the Y.M.C.A. has to put up a "Full House" Sign, it does so only of necessity, and would be glad if the men would realise this.
