ADDENDUM TO WEEKLY REPORT NO. 29.

16. MAINTENANCE AND MOVEMENT SUPPLIES.

Ref MURRAY Base Sub Area STS/70/1/6878 of 29 Dec 43, para 3.
Ration position as at 31 Dec 43, over the whole area is:-

European	49 days for	3550)	plus items mentioned
Native	13½ " "	3750)	para 13 of this report.

Material for onward movement through 1 of 2.
The following items at present in BULLDOG area are ready for immediate forward movement to WAU:-

Rations	60 tons
POL	350 "
Miscellaneous	45 tons.

MT is also being used for cartage of excess Engineers' Stores to WAU.
It will be seen therefore, that MT can be used indefinitely to full capacity.
However, the only commodity of any consequence for movement up river is POL. This will not keep river craft working to full capacity until the next shipment per MV MULIAMA ETA TERAPO 13 Jan 44.
It is suggested that, in order to keep all means of transport working to full capacity, the turnaround of the MULIAMA should be, if possible, approximately ten days.

17. SPARE PARTS.

A large proportion of the available vehicles in this area, viz. 82 Jeeps and 5 3-ton vehs, are in Workshops awaiting Spare Parts ex 10 AAOD. 10 AAOD has notified 128 Aust B&R Ord Fd Pk that no shipping space is available for Spare Parts at present.
Unless this position is rectified immediately, transport will not be capable of moving sufficient tonnage to WAU by target date.
Might Spare Parts be placed on first priority for movement by sea please.
